Sr. Louis, June 11, 1860. The weather since our last date has been delightfully of and pleasant—unseasonably cool in the mornings and enlings. We have had no rain since the storm of Saturday night week; the crops and vegetation, however, are doing well. The rivers have risen some little and are still storm passed two miles north-west of Amboy. Repor swelling. Business in every department of trade is unusually dull for the season of the year. Receipts of Produce are small, and sales on 'Change are few and inactive. Hemp sells at from \$110 for good to \$165 for dressed; Flour \$4.50 to \$8 for the best; Wheat \$1.06 to to 66c.; Oats 40 to 431/2c.; Pork, mess \$18.50; Whisky 181/2c.; Potatoes 50 to 60c.; Hay 80c. The health of our city is very good, there being no

railing sickness among our citizens, and the mortality for the past week shows no material increase. Mr. Albert W. Markley arrived in our city on Saturday last. The People's Horse Railway, in which he is interested, is doing a fine business, and we believe pays as well as any

ture in this city on Wednesday evening next, on the Present state of European Politics." At a late hour, on Friday night last, it was announced that Francis P. Blair, Jr., had succeeded in ousting J. R. Barrett from his seat in Congress. Immediately upon the receipt of this news, a few Abelitionists obtained a band f music and paraded through some of the back streets in glorification of the infamous outrage perpetrated upon the people of this district. Every man, who spoke what he honestly believed, pronounced the unseating of Mr. Barrett to be a gross and infamous outrage upon the people of this county. At the time of the election, which is still fresh in the memory of every voter of this district Mr. Blair and his friends were astonished at the large vote polled. Accordingly, his compliant partizans in the Mayor's chair and the seats of the Council, ordered a census to be taken to prove Blair's word true, and afford ground for disputing Barrett's election. He and they complained that a vote of 16,610 for the city was too large. But the census referred to, one of their own taking by their own agents, showed the total number of voters to be 24,256, or sash, and in some instances the frames. 7,616 more voters in the city than there were votes cast The result in the Ninth Ward was especially attacked was charged that the vote was too large. The vote, at the of 280. Blair's census showed that there were When Barthan there were votes cast. The pretense that the vote was too large was thereby effectually demolished. Other pretexts must be resorted to in this unheard of attempt nullify a majority of 700; and they were not long in forthcoming. It was pretended that this whole majority was fraudulent, or that Blair's voters were driven from the

Mr. Blair and his friends got possession of the poll book overhauled and challenged such names of persons as he knew had voted against him—all of which proceeding was illegal and contrary to law. There is no man in our city but what believes and knows in his heart, that Mr. Barrett was fairly, honestly and legally elected, and the Black epublican majority of the U.S. House of Representatives, by a strict party vote, have committed an outrage without cample in the history of contested election cases before before have a Committee on Elections dared to nullify such a majority on such grounds. The case is without a precedent, unless, indeed, it be in some shameless outrage of this same majority. The decision is equivalent to super ceding the legal majority of voters in this district, by a majority in the House. A House majority has thereby elected the member for St. Louis; and nullified, overridde and trampled under foot its people, in the exercise of one f their most precious rights. An unprincipled, unscrupulous Black Republican majority in the House has dis-

franchised St. Louis. This is but a beginning of what the Black Republican Abolitionists will do when they get the power. The people of this district have elected a Representative by 700 majority, but because the Abolitionists had a majority n Congress, they tell us, in as many words, that we have no right to do so, but that they, the majority in the House. l elect a representative for us, and they have done so. The tyrannically exercised will of a majority has thus stamped down all law and right, which is but a part of ccepted in its creed. Every good citizen will at once see the aim and object of this sectional party of fanatics—the majority to override and crush the minority—the Northern States to hold an iron rod over the Southern-to unseat the choice of the people and put in Congress just such apartments provided for them in the sumptuous n as will vote and act with the Northern Abolitionists. they wanted to have it said that their Sectional party mbered one from a slave State, and hence the ousting

hands of Greeley, Giddings and Garrison. This is certainly one of the most infamous and con temptible outrages ever perpetrated by any body of men, ome claims to honesty, fair-dealing and respecta-It is not only an insult to every man who voted for Mr. Barrett, but an insult to the City of St. Louis, and indeed to the whole country; it is setting a precedent which, if further indulged in, will engender an ill-feeling between the different sections of the Union, and no one can fortell the ultimate consequences. The great mass of our citizens are indignant at the insult cast upon our city, and all, with the exception of a few partizans who go in for victory and success, it matters not by what unfair means, are used to obtain it, and a citizens' indignation meeting is called for to-morrow—(Tuesday)—night. Men of all parties will participate, and we predict one of the largest meetings convened in St. Louis At a meeting of the Young Men's Democratic Association

on Saturday night, the following preamble and resolutions

were read and unanimously adopted:

WHEREAS, Ninety-three members of the House of Representatives of the United States, with a spirit of illiberality and a disregard of justice that is truly astounding, have voted for and carried through that House a resolution declaring that the Hon. J. R. Barrett is not entitled to a seat in the House as Representative from Missouri, and a resolution declaring that Francis P. Blair, Jr., is entitled to the seat to which Mr. Barrett was legally elected, and which, by every principle of honor, equity and justice was and is his; therefore, be it, by us, the Young Men's Democratic Association of St. Louls County,
Resolved, I. That the action of the House of Representatives in vitnally electing F. P. Blair, Jr., as Representative from Missouri in direct opposition to the well-expressed which and desire of the people of this Congressional District, and after Barrett has been chosen their Representative; is without parallel or preceduct, and that we objurgate the proceedings as a vile desecration of the rights of freedom and the purity and proper conduct of the ballot-box, and a ligh-handed insult to the voters of St. Louis county.
Resolved, II. That the Hon. J. Richard Barret has, by his whole course during the canwas which resulted in his election, and during the proceedings attendant upon the contest of Barrete as a his whole course during the canvass which resulted in his election, and during the proceedings attendant upon the contest of his right to a seat in the House of Representations, endeared himself to us as a consistent Democrat and Lahonest politician, and that, while we deprecate the loss of his presence in the House of Representatives, where he would have been an honor to himself and us, we assert that his unjust defeat is but a sure stepping-stone to a place in the hearts of his party, higher and more worthy of him.

place in the hearts of his party, higher and more worth, of him.

Resolved, III. That the malicious machinations of the partisans, parasites and minions of the corrupt and distances that you have freeted the unjust and iniquitous result of depriving the Hon. J. Richard Barrett of his trne and honorably earned right, have left no shadow of stain upon the escutcheon of that gentleman or of the party which elected him, but that the ignominy and shame of the act recoils upon the party projecting it, and leaves that party blackneed and disgusting it its self wrought disgrace.

Resolved, IV. That the thanks of the Democracy are die, and are hereby extended to Hon. John W. Gilmer and his associates, who made the minority report in the contested election case of Blair vs. Barrett.

Resolved, V. That a committee of five be, and are hereby

election case of Blair vs. Barrett.

Resolved, V. That a committee of five be, and are hereby appointed and empowered to co-operate with the Jackson Club and Democratic Central Committee, to take immediate steps to convene the citizens of the District to welcome the Hon. J. Richard Barrett on bis return to St. Louis, and to express their indignation at the gross outrage perpetrated by a partisan, sectional and corrupt majority of the House of Representatives.

In conformity with the fifth resolution, the following gentlemen were appointed: Colton Green, Charles G. Gonter, L. K. Kinsey, M. R. Cullen, and E. Peacock. If Mr. Blair does not have an awful account to render of elf, when he again comes before the voters of this county, we very much mistake the indignant feelings of r people. Men of all parties feel themselves grossly insulted in thus having a Black Republican majority in Congress-who have no good and friendly feelings toward the people of the slave States-to take out of their hands the constitutional rights belonging to them, and selecting Representative for us, who is an obnoxious and as Joshua R. Giddings or any other Black Abolitionist.

unworthy to represent the people of a slave State, as Unless we are greatly mistaken, Mr. Blair and his Abolition friends in Congress, will receive such a rebuke at the meeting on Tuesday night, and at the polls on the 6th day of August, as will forever cause them to hide their faces when they meet an honest man. sociation on Saturday night, and he will again be nominated at the mass meeting of citizens on Tuesday night. nocracy of this city buckled on their armor on Saturday night, and their swords will remain unsheathed until after the Presidential election in November next. As yet we have no candidate, except Mr. Barrett, yet we are in the field, and only await the tap of the drum One week from to-day and the Baltimore Convention will meet. We think the delegates have had ample time to effect, and will go into the convention prepared to nomi. nate the most available man—one who will unite the party and ensure a certain triumph. There are men in the ratic party who can unite the forces, and it is to be honed that such a man will be selected. But be the standard-bearer who he may, it is the duty of every Democombined by the choice of every Democrat who least favored; but even in those States, after desires the triumph of Democratic principles over the cor-rupt dectrines of Black Republican Abolitionism. some seriously. The citizens of Fulton, Ill., and Clinten, wa, are doing everything for the relief of the sufferers From other towns on the route of the tornado that can be sached by telegraph, we learn that the destruction of life nd property was equally great. At Morrison,, the followng are killed, as far as we are able to learn: Mrs. Rich ond, Mr. and Mrs. Dorr, George Roworth, and a child amed Barnum. Seriously wounded are: T. Digby, Benj. Loth and wife, Mr. Richmond and Hiram Manu. At Lynden, three miles south of Sterling, fifteen persons

were badly injured by having legs or arms broken: The

savs over ten lives were lost and a number badly injured The names as killed, as far as known, are Mrs. Morris and a child named Bigsby. Injured are Mr. Moss and daughter, Mr. Sackett, a boy named Northaway and Mr. Wright. The tornado appears to have taken a course almost due east from the Mississippi to Rock river. Scarcely a house or barn in the direct track-which was about a half mile in width-were left standing. In all accounts, probably not less than sixty lives have been lost. The extent of damage to stock property, which is very large, cannot be

fully ascertained for some time.

The following are the names of those killed by the ornado at Albany, Ill., last night: D. Buck, E. Effner, two children of Mr. Riley, Miss Ryder. Missing and fatally wounded, Mr. Riley, Miss Mary Stagg, Mrs. Slocumb; badly hurt, Mr. Perkins, Mrs. Sweat, Mrs. Cuper and child, Mrs. McMann, Mrs. Cole, Moses Bishop, wife and child, Mrs. Whitcomb; leg broken, Mrs. Effner, Fred. Miller, Mr. Ostrander and several others more or less injured.

Purther accounts state that as far as ascertained two undred lives have been lost, and the destruction of property incalculable. This has been one of the most severe and destructive storms that has ever visited any part of the West. We were at Alton, Ills., a few days since, and saw the effects of the storm there. Wreck and ruin is seen on every side. Not a church steeple was left standing: at least 100 houses were unroofed, and 30 or 40 completely demolished. It is almost impossible to tell where the Democrat Printing Office stood-it was a new brick building, three and a half stories high, and stood on the corner of the street; it was blown down and fell into a gullev and the flood swept over it, completely hiding the wreck from view-even the foundation and pavement were washed away, and nothing now remains to indicate that a house had ever been built where the Democrat office once stood. They had just moved into the building a few days before the storm, and presses, types and all the materials are a total loss—buried deep in the wreck. Singular as it may seem, with all this destruction of property in the town of Alton not a life was lost, or no one in the least injured. There are not a dozen whole panes of glass left in the town facing the north-the hall riddling glass,

Since writing the above, we see that the Abolitionists The result in the Ninth Ward was especially attacked are to have a glorification meeting on Tuesday night—to because there a heavy majority was cast against Blair. It think their days are numbered in Missouri-this act of the election contested by Blair, was in that Ward 1,601. At corrupt majority in Congress, has driven all good and law abiding citizens into the Democratic party, and you can rest assured the Hop. J. R. Barret will be retarded at our ret was elected, 2,450 voters in that Ward, or 849 more voters | next August election by a still larger majority, and we will then see if they will dare attempt another such outrage.

OLD GUARD.

PHILADELPHIA CORRESPONDENCE. PHILADELPHIA, June 13th, 1860. MESSES EDITORS: Well, the Japanese have come, and Philadelphia has gone crazy. The tawny-skinned, pigtailed, big trowsered representatives of the land of bright polishes came with all the eclat of conquering heroes, yet with very modest demeanor withal, as far as they are concerned. Veni, vidi, vici, was the curt and saucy language f Moses when he entered the land of the Philistines; and Nahum-tsi-yang to-soo-beadle, and the tribe of Gadarenes and Nangasakis which accompanies him may roll the same pleasant reflection under the soles of their feet in view of the flush scenes they have encountered in the city of brotherly love. It is estimated that about one hundred thousand million people were in our streets on Saturday st, (New York is great on figures, can the small town of Manhattan do as well as that?) to give welcome to the distinguished strangers. Barnum was on hand, and Bennett of the New York Herald, and George Munday. The former came to see if the Embassy rode woolly horses, the second to make proposals to the Japanese for settlement on "Washington Heights," and George to secure them for his bail the next time he should lose his reckoning through his too deep devotion to the "rosey." They all met with uccess but Bennett poor Bennett who has gone back ome, much crushed, to give another lick at Philadelphia

in his contemptible paper. We have seen crowds in our time, and extempore gath erings not a few. But the ne plus ultra, the magnum bonum, the crowd of crowds was that specially attracted into our streets on Saturday afternoon last, to greet the arrival of our distinguished guests as above. And yet even the half million people that lined the route from the railroad depot to their quarters in the "Continental" that "Higher Law" which the Black Republican party has must have appeared insignificant in numbers to the Japanese who come from a land literally alive with population. It was our buildings, and the show and glitter of the occasion, which interested our new friends, and kept their eyes wide open until they were safely housed in the

nental." The suites of rooms at this splendid house set apart for the Embassy are as complete as if they had be built for the strangers. In one sense they have been s built. The Messrs. Allen of Second street, and the Messrs. Carvhl, the Upholsterers and Cabinet Makers of the Continental, have supplied furniture and hangings expressly fo the occasion. Instead of torturing the visitors with modern beds, such as they are wholly unaccustomed to, and against the use of which they so earnestly protested while in Washington, the Messrs. Allen have furnished luxurious divans with pillows such as Japanese alone can sleep upon. In their drawing rooms by means of screens they are quite adorned with fine historical paintings, the galleries of some of our wealthy citizens having kindly furnished such handsome specimens of art as Benjamin West' painting of Penn's Treaty with the Indians, Rothermel's gesses, etc. In fact, throughout all these arrangements a

real Oriental luxury prevails which will long live in the memory of our guests. On Sunday their excellencies epioyed a day of quiet and rest in their apartments, a grateful relief to them after the travel and fatigue of the preceding day. Since then they have been busily occupied in visiting our institutions and manufactories, etc. In this latter department especially they can, and have, witnessed developments which no other city in the Union can show them, as the Keystone City is the acknowledged manufacturing centre of the country. Their visits to the Stereotype Foundry of L Johnson & Co., the Sewing Machine Factory of Sloat & Co., the Steam Confectionary Establishment of Whitman & Co., the Locomotive Works of Norris & Son, the Gas Fixtures Factory of Cornelius & Baker, (famed even in Japan,) the Jewelry Establishments of Bailey & Co. and Caldwell & Co., the Dry Goods Palace of Levy, the Book but time and space fail us-all gave them immense pleas ure and satisfaction. At every place they are loaded down with trophies, and it will require a small ship almost to take back their mementoes of Philadelphia alone. Besides the establishments of this nature, they have visited our peerless Academy of Music, enjoying a treat of Opera Ballet, and Dramá; the Girard College, the United States Mint, Fairmount Park, Independence Hall, etc., etc. They will stay here the remainder of the week and then go

north as far as Boston. As a very little literature will do just now at a time when the real subject is so engrossingly something else, we will only detain the reader with a fewewords on the eve relcome appearance of Messrs. Scott & Co's faithful re print of the Foreign Raviews. Last week thevissued the ondon Quarterly for April. This week they complete the whole series for the quarter, with the publication of the North British Review for May. Both of these are fine numbers-the latter containing a splendid article on the Origin of Species, one on Redding's delightful Reminiscences of the Poet Campbell, and others on Heine's Poems

The London Quarterly contains eight brilliant articles on as many subjects, one of which is especially interesting in view of the publication next week, by Messrs. Ticknor & Fields, of the very book it reviews-viz: The Autobiographical Recollections of Charles Leslie. Another timely acticle to Philadelphians is on the Bar of this City, so famed all over the world. The sketch of Fox Hunting is capital. If there could be a better investment of \$3 than a this Review, or of \$10 than in the whole five of Scott's

reprints, we should like to hear of it. Now that Mr. Gleason, the well known Boston news-paper publisher, has consolidated his two papers, The Pictorial and the Literary Companion, adopting the latter title exclusively, he gives his whole energies to the one peper, making it a very readable and agreeable sheet. One of Prof. Ingraham's thrilling novels is now running through its pages, and next week a new story by Edga Davies will be commenced. Among the regular contrib tors to the "Companion" we notice Mrs. Dennison, Mrs. Gerry, and Clara Augusta, three of the very best lady

story writers of the day.

The June number of that admirable monthly The Historical Magazine (C. B. Richardson, Esq., New York,) is as usual full of interesting and valuable matter relating to the early history of the country. For all persons interested in the Antiquities, History or Biography of their country this publication has no equal. It is the only one of the kind published in this country.

THE APPROACHING HARVEST. -The wheat crop is just maturing, and in many parts of the country, particularly at the South, harvest is in progress. At isolated points all through the Northwest harvesting has commenced, so that the extent of the crop will be soon known. After a thorough examination of the newspapers, the conclusion is unavoidable that the forthcoming harvest will be one of the most abundant ever gathered, taking the country to a fair average-unless we except Virginia, which has suffered severely from insects.—N.

THE YELLOW FEVER AT ACAPULCO, MEXICO. —A gentleman who was a passenger in the steamer of the 20th, from San Francisco, says the virulent type of yellow fever was raging at Acapulco, Mexico. Five hundred deaths opposite sides of the river, and five miles south of Clinton, bad taken place in six weeks, including the posits sides on the nyer, and are miles south of clinton, are campletely demolished. In the former place thirty demolished. In the former place thirty demolished the former place thirty men. The inhabitants were deserting the city.

SHOCKING ACCIDENT .- A terrible accident occurred in the town of Delhi, Delaware county, a week ago yesterday, which resulted in the death of a little girl, seven years old. The parties to the sad occurrence were William Scott, a boy seventeen years old, and his halfsister, Elizabeth Doby, the victim. The boy had been sent to take cows to the pasture, the little girl accompanying him. He had with him a piece of rope, with which he was to bring back some hay. On his way he play

ully tied one end of the rope around the body of his sister, and the other end to the cow When the cow had proceeded a short distance in this way, followed by the girl, the latter stumbled and fell, which so frightened the cow that she ran off at a furious rate, dragging the poor girl after her. After run ning some distance the girl's head struck a solid rock, crushing in the skull, and at the same time the cow's tail pulled out, so great was the force of the resistance. The girl was also badly cut around the face, neck and head. She was taken up by the boy and carried home, where she breathed but times before expiring. The boy is said to be rather deficient in intellect, and it is not supnosed that he realized the imminent danger in which his sister was placed by his mischievous conduct.—Albany Argus, June 8.

THE CAPTURED AFRICANS .-- The exact num ber of negroes at Key West is 1,350, eighty having died since their arrival. Three vessels will be required for their conveyance to of which have already been engaged. Government pays for each of these vessels \$10,000 or 12,000, and the Colonization Society gets \$50 a head for transportation; the latter also being under obligation to supoly clothing at Key West and on the African coast. The negroes will be landed at Cape Mount, in Liberia, and will be dispatched thither by the 1st of July.

SHOCKING TRAGEDY IN TEXAS .- The Hopkins Monitor has a lengthy account of the doings of the negroes in Grayson county. Texas. Near Kentuckytown a man named Kincade whipped his negro boy. That same night the negro, while all else were asleep, killed the entire family with an axe: first his master, then his mistress, then an orphan boy and a little babe. The negro confessed hi guilt, was tried and hung. Several white men were implicated, but nothing definite known. A few days after, three more negroes were hung as implicated in the murder. bodies of the negroes were not suffered to removed from the trees, but will be allowed to hang there as warnings to others.

A VALUABLE Log .- Recently the adminis trators of one Elisha Harris, deceased, late a resident of Luzerne county, Pa., offered his effects at public sale, among them an uncouth blook of wood, supposed to be a part of a cheese press, and which was purchased for 15 cents, by one David M. Hatmacher. the morning succeeding the sale, the purchaser in a spirit of enquiry "characteristic of the age we live in" split the block open, when he discovered a queer secret door, opened by the pressure of a long rod, and containing b notes, and other matters, besides about \$2. 000 in silver coin. To test the right of ownership in the treasure, an amicable suit DRAMATIC COMPANY. for its recovery was instituted in the Common Pleas of Luzerne county, resulting in a ver-dict for the executors for \$1,000.

SENTENCE OF ATTEMPTED RESCUERS .- The olored men in Philadelphia, convicted of an attempt to rescue Moses Horner, the fugitive slave from Virginia, have been sentence to the penitentiary for thirty days, and fined \$25 each.

NEW DEMOCRATIC PAPER.-We find among our exchanges this week, a new Democrati paper, lately established at Mifflintown, in this State, called the Juniata True Democrat. It is edited by Messrs. A. J. Greer, and Calvin B. Harris, and presents a neat, and professional appearance. The articles are well written and evince considerable ability. We have placed it upon our exchange list.

In Washington county, Va., last week. Woodson, who is worth upwards of \$100,000 was convicted of hog stealing, and sentenced to one year in the Penitentiary.

The Housekeeper's Friend .-- Spalding's Prepared Glue.—Small conveniences for family use are often of more value than what are great inventions." It is estimated that in the States there are at least five millions of households "great inventions." It is estimated that in the United States there are at least fire millions of households, in all of which the aunoyance of squeaking, rickety chairs, sofas, tables, etc., is constantly experienced, and so long as furniture is in this condition there is always danger of a "smash-up." The experience of the city housekeeper, with May-day before her eyes, will readily suggest the value and convenienc of really trustworthy prepared glue, that can be instantly brought in requisition where repairs to furniture and other household ware are needful. The want of such an article is as constant and universal as the family, and hitherto it has been awant unuspilled. This, however, can be truly said no longer. Spalding's Prepared Glue seems to be all that has been desired in this direction. It is kept soluble by chemicals, retains its strength and tenacity, is convenient and always "up to the sticking point," is put in a bottle with a brush, and sold at twenty-five cents. No housekeeper in the city or country can well afford to be without a bottle of Spalding's Prepared Glue. It is just the thing for the library and schools, where books are constantly in need of repair.

SONG DURING THE VISIT OF THE JAPANESE.] BY THE BARD OF TOWER HALL.

"Sweetly sleep, my precious baby: Be not waked by flies nor fleas; For your mother dear is going Out to see the Japanese.

"Yery well on paregoric,
You, my darling babe, have thrived:
Twenty drops you've had each morning,
Since the Japanese arrived. "Wives and maids by scores are flocking Round that charming, little man, Known as Tommy, witty Tommy, Yellow Tommy from Japan;

'And, while Tommy's in the city, Paragoric you must take, And must be a sleeping baby Of a mother wide awake. "I'll go by the Continental,
And the Tommy I shall see

e will catch my eye, the darl And a kiss will throw at *me* "He's a very gallant Tommy, And I'd like him for a beau; But if Charley knew I said it, I'd be tomahawked, I know.

"Sunday night, I dreamed of Tommy,
And, with lips to Charley's ear,
Fondly whispered in my dreaming,
'Well I love thee, Tommy dear!'

"Charley started up, and asked me, What I meant by saying that? And I answered, 'I was dreaming Of our little Tommy-cat!'

"Sweetly sleep, my blessed baby; Soundly sleep, and loudly anore, While I go to see the Tommy, Such as ne'er was seen before.

"'Mid the men of all creation, He would be the best of all. If he dressed in stylish rain From the MAMMOTH TOWER HALL "He shall have a hint to do it, And will take the hint, I know;

I will be the one to give it:— Darling baby, I must go!" THE LORETTO SPRINGS,

CAMBRIA COUNTY, PENNSYLVANIA,

Will be opened for the reception of Visitors, on the 20th day of June next, under the Management of Major John Brady, well-known as the highly competent and experienced landlord, for many years, of the Brady House, Harrisburg, Pennsylvania.

This new and delightful resort for those seeking either health or pleasure, is situated one mile from the village of LORETTO, and four miles from CRESSION STATION, on the PENNSYLVANIA CENTRAL RAILBOAD,—from which, to Loretto, there is a well-constructed Plank Road.

The Springs are about 2,600 feet above tide-water, and the air is always bracing and invigorating, the thermometer seldom ranging above 75° in Summer. The head waters of the Susquehanna and Clearfield, abound in trout, and the mountain ranges are filled with game, affording fine sport to those who are fond of such amusements.

The Buildings are admirably constructed with respect

MENT IN THE WORLD. THE IMPROVEMENTS FOR 1860, are: THE IMPROVEMENTS FOR 1889, are:
1st. A more compact frame,—thus decreasing the width
of the machine, while increasing its strength; at the same
time allowing a material reduction in weight.
2d. A most important item, a lighter driver and sickle; 2d. A most important item, a lighter arriver and siekle; thus permitting an increase of motion not practicable in other machines.

The wear and tear of a reaper or mower is occasioned mainly by the weight and motion of the sickle. The improved driver and sickle of the "McCormick" will weigh but 9½ pounds, while those of other machines are from proved driver and sickle of the "McCormick" will weigh but 9½ pounds, while those of other machines are from fifty to one hundred per cent. heavier. Every pound thus added to the sickle and driver, when in motion, is just so much wear and tear—not only upon the sickle itself, but also the driver boxes, crank, and all the journals. It is a strain upon the whole machine as well as horses.

The slight indentation and peculiar cut of the sickle, with the combination of the spear-shaped fingers in our machine, gives us this advantage; and it is one of paramount importance to the farmer. As proof of what we state, we ask purchasers to weigh the sickle and driver of other machines. Owing to improvements for 1860, we are enabled to increase the motion of our sickle nearly obe-fifth, without danger of breaking or additional power—hence, can do good work even with a slow team.

3d. A Castor Wheel upon an entirely new principle has been added to the grain side of the machine, wholly relieving the horses from pressure in turning, and materially lessening side draught.

4th. A Lever-shipper for throwing in and out of gear. 5th. The machine is now so balanced, that in connection with our patented semi-jointed tongue, the cutting apparatus is completely and easily thrown over obstructions while in motion, simply by the weight of the driver in his place; thus dispensing with all levers and complicated arrangements to effect the same object. This obviates an objection urged against the "McCormick" as a mower, and will be found to work perfectly, without endangering the durability of the machine.

5th. New Fingers. Shorter and narrower—thus more penetrating, yet with same angle as herectore.

Sth. The Shield to Spur Wheel is attached to the bridle,

7th. New Fingers. Shorter and narrower—thus more penetrating, yet with same angle as heretofore. 8th. The Shield to Spur Wheel is attached to the bridle, so that in raising and lowering it mores with the bridle. 9th. Angle Board dispensed with, and replaced by an adjustable iron rod.

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by exper-iment on many of the worst cases to be found

of the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISPASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIO AP-PECTIONS, MERCURIAL DISPASE, DROPSY, NEU-BALGIA OR TIC DOULOUREUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSTPELAS, ROSE OR St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity or THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are mipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do
this through the natural channels of the body
by an alterative medicine. Cleanse out the
vitiated blood whenever you find its impurities
bursting through the skin in pimples, eruptions,
or sores; cleanse it when you find it is obstructed and sluggish in the veins; clea whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well have the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most

of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa-rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle. PREPARED BY

DR. J. C. AYER & CO. LOWELL, MASS.

FOR SALE.—THE UNDERSIGNED OFfers for sale 1640 ACRES OF LAND, in the County of
Fayette, and State of Iowa, at the town of Fairbank, a few
miles from the Wapsipinica River, and 15 miles from the
Dubuque and Pacific Haliroad, now finished to Independence, on the Wapsipinica River, and surveyed and located
to Nebraska and designed to be extended to Oregon.

This Tract of Land is beautifully situated and all Limestone, and is well watered—four fine springs being on the
premises, and spring creek passing through the land.—
About 560 Acres of this is Woodland, and scattered over
various parts of the Tract, is growing Hickory, White Oak,
Spawn and Black Oak, Walnut, Ash and quantities of Hazel
Wood. There is also a fine grass bottom, and open, rolling
prairies, excellently adapted for raising Grain, 160 Acres of
which are in cultivation. It is in a region moted for its
fine and bealthy climate, and the adjoining lands are sattited by Indians, Illinois and Ohio Farmers, and by Germans and a few Irish and Englishmen, and is noted for its
good society. Fairbank, immediately south and adjoining
this land, has Churches, School Houses, two Hotels, five or
six Stores, a fine Grist Mill, Wagon Maker's Shop, Blacksmiths and a Distillery, and is a fourishing town. The
east branch of the Wapsipinica River, passes through the
estate and has some fine sistes for Grist or Saw Mills.

This land is all rolling, lying in one body, and would
make 8 or 10 excellent Farms, or could be used for a Stock
Farm. In less than five years the Wapsipinica Valley
Railroad, now about being finished from Fulton, on the
Mississippi, to Anamosa, a distance of 60 or 80 miles, will
be made through this land to St. Paul, Minnesota, passing
through one of the most fertile valleys of the West.

Any one wishing to see this land can do so in 2½ or a
days from Philadelphis, Lancaster, Easton or Reading.
