A LITTLE SONG.

BY THE BARD OF TOWER HALL. There's a little Mr Little, And a little wife has he, With a little heart that's constant, As a little wife's should be. By a little cot they're sheltered:
By a little farm are fed;
And they have a little Little,

tf 24

And this little pair of Littles, With their little baby-boy, Of their cozy little cottage Make a little ark of joy.

Short his little wife, and Little Sweet'y sings the little song: "Here below, man wants but little, And that little wants not long." With the world but little mixing, Of the world he little knows;

At the Tower Hall, with little

And that little is too little, With no little bills against him,

And, at least, that busy Little
Is a little better man
Than an idle, little souled one,
On a little bigger plan.

We've but little time to labor In our little spheres below; And, if little our deservings, Little joy in heaven we'll know. May we all, the big and little, Keep this little fact in view:— As we, here, can do but little, We should all that little do.

Scrofula, or King's

is a constitutional disease, a corrunteer of blood, by which this fluid becomes visia blood, by which this fluid becomes recommendation weak, and poor. Being in the circulation pervades the whole body, and may burst on in disease on any part of it. No organ is from its attacks, nor is there one which it may be destroy. The scrofulous taint is variously not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, fifth and fifthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise

are aggravated by the same cause. One quarter of all our people are scrofulous: their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in AYER'S

Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is con-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affec-tions which exist from its pack as Expurgers tions which arise from it, such as Enurrive and Skin Diseases, St. Anthony's Firm. Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and SALT RHEUM, SCALD HEAD, RINGWORM RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLANTS ARISING FROM VITLATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Naussa, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

The superior quality of Norfolk Oysters is well known,
and no city in the Union possesses such advantages for
putting up Oysters as Norfolk is favored with.
They are procured fresh from the extensive oyster
grounds in the immediate neighborhood, and are consequently put up in a healthy state, being spiced a few hours
after they are taken out of salt water. after they are taken out of salt water.
