EXTENSIVE DEPREDATIONS UPON THE UNITED STATES MAIL—ARREST OF THE ROBBER.—For a month or two past there has been an extensive and systematic robbery of the mail bags between Montreal and this city, and between Montreal and New York, something like a dozen mails between Montreal and New York Montreal and this city. The robber was evidently well provided with keys to the bags, for though provided with keys to the bags, for though upon the arrival of the plundered mails at the post office in this city the bags were locked and had no appearance of having been tampered with, yet it was in every case found that the Boston packages were missing.
These packages undoubtedly contained a large amount of drafts and other property of value, but it is not known that any very large

amount of money was secured by the robbers. As it was suspected here, that the robbery was effected at or near Rutland, where the bags remained for the night, the post office authorities gave order a week or two since, to change the mails to the Grand Trunk route, and they have since been received in an undisturbed condition. For a number of weeks the United States post office detectives have been on the alert, and the telegraph informs us that they yesterday arrested John Whitcomb, for robbing the American and Canada mails, while under his charge, at the Rutland post office. He bad spent \$600 lately, in Canada money, and had a number of skeleton keys upon his person. In addition to the above we learn by a telegraphic despatch from Vermont that there is no doubt that Whitcomb is the person who has been committing the late wholesale plunder of

Ex Blood Food! Blood Food!!

We have varied feelings in reading the advertisement of Dr. Bosson's Blood Food. In another column; but wer think gratification predeminates; for, though we regret to see so celebrated a man coming lorward, even in appearance, under the same flag as quacks,—that is, by resorting to advertising,—yet we take satisfaction also in knowing that there is now a reliable preparation before the people for that most melancholy and fatal disease—Consumption, and other organic complaints.

Dr. Bronson is a lecturer in our Medical Colleges, and his success in his speciality has been so wonderful that he has consented, at variance with the prejudices of every regular practitioner, to make it known, as he is doing, for the benefit of suffaring humanity.

He has secured for Agents, however, a firm whose respectability s-parates entirely his preparations from all tings of quackery. Messrs, Glusca & Diproparations, Dr. Earon's Invastrille Constal. If mothers could know the great care taken in putting up this article,—some idea of which they can form by comparison of it with any other article of the kind,—they would prefer it to anything that has ever been offered them. For our own part, if we had a child suffering, we would not hesitate to administer this preparation, knowing that such careful druggiets would not engage in anything that was not perfectly safe and effectual.—Quebec Gazette.

MRS. FLUTTER. BY THE BARD OF TOWER HALL Mrs. Flutter, having pride, She sent her invitations out, On paper edged with gold, And then, to make a fine display, She worked with efforts bold.

She borrowed dishes, knives and forks,
And eliver plated ware,
Until she had enough to make
Her guests with wonder stare. Preserves and cakes and fruits she bought On credit at a store:— With dainty things her table groaned Which no'er had groaned before. Her guests arrived, and glibly talked
Until the hour for tea:
Their gussip very few escaped—
They went from A to Z.

A daughter Mrs. Flutter has—
A Jenny, five years old—
The guests of her made such a pet.
Her little tongue grew bold; And when upon the table fare
The happy party smiled,
Proud Mrs. Flutter's "fun was spoiled"
By secrets from her child.

She said, "O'see these silver things! These pretty things so bright! My mother borrowed them, she did, Of Mrs. Brown, last night! "And all these China cups and plates
Which you have never seen,
And thuse white-handled knives and forks
Belong to Mrs. Green.

"This pretty linen table-cloth, She got of Mrs. Knowles; And full of stains and holes."

Poor Mrs. Flutter, faint and weak,
Looked ghastly pale, and wild:

Quite choked with shume, she gasped for breath,
And murmured, "Hush! my child."

Too-late, alas!—the "cat was out,"
And Mrs. Flutter's pride

Was humbled to the dust—she stood

Exposed and mortified.

A moral to our truthful song
We'll sing in earnest tones:—
A wife should entertain her friends
With what she really owns: Then, with a husband neatly dress i In clothes from Tower Hall, be'll win respect: her honest pride Will never have a fall.

OOK OUT: GOOD NEWS FOR ALL!

The never-failing MRS. VANHORN is the best. She succeeds when all others have failed. All who are in trouble,—all who have been unfortunate,—all whose fond hopes have been disappointed, crushed and blasted by false promises and deceit,—all who have been deceived and trifled with,—all if yo her for advice and satisfaction,—all who are in doubts of the affections of those they love, consail her to relieve and satisfy their minds.

IN LOVE AFFAIRS SHE NEVER FAILS:
She has the secret of winning the affections of the opposite sex. It is this fact which induces illiterate pre-lenders to try to imitate her, and to copy her advertisenends. She shows you the LIKENESS OF YOUR FUTURE WIFE OR HUSBAND, or absent friend. Scrofula, or King's Evil is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and above all, by the venereal infection. Whatever be its origin, it is hereditary in the conabove all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children.

their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous constitutions not only suffer from scrofulous complaints; but they have far less power to withstand the attacks of other diseases; comesquently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver his cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate To cleanse it from the system we must renovate the blood by an alterative medicine, and in-

vigorate it by healthy food and exercise. Such a medicine we supply in AYER'S

Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is con-bined from the most active remedials that have

been discovered for the expurgation of this foul disorder from the blood, and the rescue of the from its destructive consequences, t should be employed for the cure of system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUTTVE and SRIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OF ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA. DEBILITY: and system EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills. FOR ALL THE PURPOSES OF A FAMILY PHYSIC

FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaunaice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in merous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to every observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten. be forgotten.
