PREMIUM FOR 1860.

In order to increase the already large circulation of the KNICKERBROKES, we publish this month a splendid line engraving of Frith's picture of 'Merry-Making in the Olden Time,' which we shall present exclusively to the \$3 subscribers to the Magazine for 1860, whether old or new. The subject represents the pastitues of our ancestors, and is eminently of a genial, domestic character. The plate, engraved in England at an expense of 2000 dollars, is entirely new, measures twenty fire by nineteen and a hali inches in '12c. contains thirty-nine fixures, and is beyond comparison the finest work of the kind over offered as a premium in this country.

'The engraving of Frith's picture of Merry-Making in the O'den Time, represents the humors of an English holiday in the county in those good old times whou' the men wore cocked-hats and knee-breeches, and the women stays and hoops—a costume not essentially differing from the corset and crinoline of the present day. Almost in the centre of the picture and a little to the back-ground is accountry dance on the green, with a hard-featured fiddler perched on a high seat, and another mu-idan in a tie-wig standing by him, playing with all their might. On the right two bouncing girls are gaily polling toward the dance a gray-haired man, who seems valuy to remoustrate that his 'dancing days are over,' while a waggish little child pushes him forward from behind, greatly to the amusement of his spouse, who is still sitting at the teatable, from which he has been drazged. On the left, under a magnificent spreading oak, sit the 'squire and his wife, whom a country man with his hat off is respectfully loviting to take part in the dance. To the left of the 'squire is a young couple on the grass, to whom a gipsy with an infant on her shoulder is telling their fortune. Over the shoulders of this couple is seen a group suitable apparatus. Full sets of deographical and Physiological Vaps, and Minerals, are provided for illustration and experiment

A benefit is always experienced from the first bottle, and a perfect cure it warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish five, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite plentiful and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor, In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a niversal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that in ever suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles—O, what a mercy if it prove effectual in all cases of that awful malady—there are but faw who have seen more of it than I have.

awful malady—there are but few who have seen more of it than I have.

I know of several cases of Propsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepia, Asthma, Fever and Agus, pain in the side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of dist ever necessary—eat the best you get and a nough of it.
