No matter how broken down one may be with either Consumption, Asthraia, Bronchitis, Liver Complaint, Diseases of the Heart, Coughs, Colds Nervous Afflictions, or what is termed General Debility, a remedy of a pleasant and certain character can always be commanded. Let nobody say that any of these maladies, in their most appailing stages, cannot be cured, for they can Thousands in the United States can feelingly testify to this truth, and offer themselves, and their experiences, as evidences. With the spread of intelligence to all quarters of the gl. be (thanks to steam and the magnetic telegraph) comes a corresponding acknowledgment of truths which were hitherto concealed beneath the rubbish of traditionary ignorance. People no longer believe that they must be doctored in the old style to get well. They now feel assured that no case of physical suffering (of course excepting such cases as are the result of acclients and direct injuries) is hopeless. Nothing has done more towards establishing this beneficent fact than the scientific preparation by Dr. O. PHELES BROWN, No. 21 Grand street, Jerssy city, N. J., called This Acatoma Blatziak. "It is a great medicine," writes one of the prominent members of the Medical Academy: "I have witnessed its benefits in many cases, and am truly thankful that so grateful a panacea has been discovered." It strengthems and invigorates with the first doses. It pervades every part of the system, driving out impurities, giving strength for weakness, cheerfulness for despondency, flesh for emaciation, ruddiness for palences, activity for languor. It is, indeed, an "Ellist of Life," and as such it should be prized by the people at large. A large bottle of Acadam Basan can be obtained as above by all who wish to give this remedy a trial.

Hundreds of stimulants have been favented and sold, purporting to be specifio in the various diseases and decangements to which the delicate form of woman render her subject. The result of all these stimulants has been to impart momentary activity to the mercous system, and false vigor to the mustles; but the relief has been succeeded by a depression and prostration greater than before; and the repeated attempts of invalids to build themselves up by these false remedies, have finally lended in destroying what little vital organisation was left. But in using "Barhave's Holland Bitters," you will find no such diseastons results. My family and friends all concur in the opinion that the (Newell) Picture is more life-like than any-thing they even saw. My likemess has been repeatedly taken by. different Artists in various ways, but I have never yet had one which presents so true to nature, all the features and expressions of countenance as this.

THE COUNTRY EDITOR.

BY THE BARD OF TOWER HALL, A country Editor was seen A country was a full of the first three for the hearts of feeling men to pity. He looked as if in party strife, He had been badly treated; He looked as many others look Because they've been defeated. The hope of office all had fled,

His face was long; his upper lip Was trembling ev'ry minute; He tried to keep it stiff—alas! There was no stiffness in it. I asked him why he badly felt, And this was his confession; "I'm worried, sir, almost to death, With fears about secession. "Old Jersey is my native State!
If Southern States second air. If Southern States secede, sir, What will become of Jersey then? I fear the worst, indeed, sir."

"Don't cry," said I; "I must," said he,
"My tears I cannot dry, sir;
The thought, that sister States may part,
Bbould make the angels cry, sir." "Come! go," said I, "to Tower Hall, And buy a suit of kersey, And then I'll show you how to save The good, old State of Jersey." He cheaply bought a suit in which
To brave the storms of Winter;
And paid with dimes, some honest men
Had used to pay the printer!

"Now, then," said I, "go home and be A loyal man in Jersey; And pray for Union till your knees Stick through your pants of kersey. "The lines our Constitution draws, We'll toe without digression; Then ev'ry State will have its RIGHTS, And none will, cry, "SECESSION!" "Our loyal freemen then will keep
The Union vows they're plighted;
And Tower Hall will clothe them a
In happy States United."

In happy States United.

BEAUTY WITHOUT PAINT Dr. F. W. Boswell's Beautifier, POR REMOVING TAN. PIMPLES AND FRECKLES.

And imparting a permanent Broos to the Courier.
108. It renders rouge, vermillon, pink saucers, and all other coloring material for the face, wholly superfluous. It supersedes entirely all such deterious mixtures. It is the most astonishing the terious mixtures. Regenerator of the Natural Hue of the cheeks, and health to the complexion ever-presented to the world.

This BEAUTIFIER is just what its name imports.
It is another of the extraordinary developments of chemical electric affinity, and operates like

Making the Homeliest Pace Handsome, curing by degrees all the blots and discoloration of the cuticle which so often disfigure the most regularly constructed visage. It imparts at the same time that permanent Bloom to the Complexion, which is only the regult of the skin's excellen health, and of the perfect restoration of its natu

al stamina.

It thoroughly and immediately cures Tan, Freckles, Sunburn, Blotches, Pimples, Sourf, Skin-Worms, Moth and Small-Por Marks. Indeed, its effect in such cases is almost miraculous. Its anti-inflammatory nature is irresistible:
It softens, stothes, calms, neutralizes the irritating principle, and restores the health of the part
affected; imparts a brilliant bloom to the cheek
and lips; it produces a tint only excelled by nature
itself, without the possibility of detection.

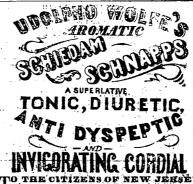

Freckles are at once Obliterated; Pimples disappear as if under the operation of a spell. POCK MARKS PADE OF in a manner scarce-ly to be aredited even by those who witness their gradual extinction. Reliable Testimony. We call the attention of the reader to the following letter from President Smith of Wesleyan University!

MIDDLETOWN, Conn., Feb. 98, 1859. MIDDLETOWN, Conn., Feb. 28, 1839.
SETH W. FOWLE & CO. — Gentlemen — I first made use of the Orygenated Eliters some seven to eight years since. Having suffered for twenty years from a form of dyspepsia, which was atter nervous headache, on an average of not less than one day in a week, I was induced, by the unpretending recommendation of Dr. Green, "to try one bottle, and if no benefit was received to discontinue the use." no benefit whe received to discontinue the use."

The use of one bottle warranted a further trial, to the of the accompanying directions. The result was, an almost entire relief from the usual dyspeptic symptoms

and their depressing, painful consequences. I believe these Bitters produced an entire change in the habits of

my system, and upon the active energies of the digestive organs. I now deem myself as exempt from Dyspensia. vice to other members of my family. Very respectfully yours,
AUGUSTUS W. SMITH.

STODDARD, N. H., Sept. 30, 1859. Mesers, SETH W. FOWLE & Co., Measure, SETH-W. FOWLE & Co., Gents:—I was, for many years, a great sufferer from Dyspepsia or Waterbrash, and tried almost everything within my reach, but to no benefit, until I was induced by the recommendation of my physician, Dr. Hazziton, to make use of the Oxygenated Bitters. The first bottle produced but a slight alteration in the disease, and had it not been for the urgent request of my physician, I should then have discontinued their use, thinking them to be of no avail; but his confidence inspired me to persevere and after using to the extent of half a dozen buttles, I had entirely regained my health. I hope all Dyspeptic persons will be induced to give them a fair trial, being confident that the remedy is the most potent,

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; consestand the attacks of other diseases; consequently, vest numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is con-bined from the most active remedials that have bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUFTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OF ERYSPIELAS, PIMPLES, PUSTULES, BLOWNER BLANKS and BOLLS, THOORES, THE BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORK, RHEUMATISM. SYPHILITIC and MERCURIAL DIS-RASES, DEOPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIAindeed, ALL COMPLAINTS ARBING FROM WITA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. Patients in advanced stages of the disease. So wide is the field of its usefulness and so nu-So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkshie to be forgotten.
