41 45 FARMERS, LOOK TO YOUR INTER-ESCI-Baceived the First Premiums this Fall at our County Fair, a Silver Medal on the Telegrah Fodder Cutter and Coleman's Farm Chopping Mill, with Prosen's improve-ment. I have received at my Agriculturel Implement and Beed Warehouss a large stock of the Telegraph Hay, Sitraw and Confodder Cutters, four sizes, Nos. 1, 2, 8 and 4, suit-able for large or small Farmera. The Telegraph Hay, Sitraw and Confodder Cutter is actnowledged to be the best Cutter tow in use. We claim a creat inany advantages over any now manufactured: 1st,

acknowledged to be the best Gutter now in use. We claim a creat many advantages over any now manufactured: lat, if has the down cut, all the strain is on the frame where it should be; 2d, It is geared or both iddes, and is not lia-ble howear or get out of rapair; 3d, The Nos. 1 and 2 are double geared, and can be changed to cut different lengths; the shortest cut is 7 pieces to one linch for Cornfolder; In dive minutes they can be changed to cut scatt 1/ inch for Hary or Straw. The hand wheel can (on the No. 2) be changed on either side of the Cutter to guit the power.— The greatest advantage we claim is the power. We can do as much work with one horse as those can (that first cut, then ornsh), with three.

Ine greatest samings work with one horse as those can (that first cat, then ornsh) with three. Our outer will cut shorter and make better feed, than those those that first cut, then ornsh. We sill know the more power it requires to drive at Cutter the sonari it will get out of repair. We will give far references to Farmers wanting cutters this fail: John Sener, Christian Hees, Abm. M. Hees, Benjamin Mylin, near Willow Street, Chris-tian Ziumermaz, John Weaver, A. Ekonfer, near Goodfulle, John G.
