Ap "Reduced by Dyspepsia to a mere Skeleton "--Cored by " Borhaws Holland Bitters"-Mr. A. Matchett, a trader probably as well known as any man in Western Pennsylvania, states as follows:. "I met with a farmer fir Armstrong county who was reduced-by Dyr-pepeis to a mere skeleton. I personded him to bury a bottle of Borhave's Holland Bitters, believing it would cure him. Meeting him some months after, what was iny satoniah-ment at finding him is hale, hearty man; he told me he now weighed 200 pounds, and that this wonderful change had been produced by Borhave's Holland Bitters to which he attributed solely his restoration." deo 18 10 49

AT Coughs....The sudden changes of our climate are sources of PULNOVARY, BROMMIL, and Arri-MATIC ATFRONME. "Experience having proved that simple remedies often act speedily and certainly when- taken in the early stages of the disease, recourse should at once be had to "Brown's Bronchial Troches," or Losenges, let the Cold, Cough, or Irritation of the Thiroat be ever so slight, as by this precaution is more serious stack may be effectu-ally warded off. the advertisement. [nov 27 6m 46 Ap Spalding's Prepared Glue:-Prepared Ar Spalding's Prepared Glue:-Prepared Glue: a very useful and convenient article for housekeep-ers and others, is "Spaldny's Prepared Glue." It is one of those inventions, small in themkelves, which, newerthe-less, go far in the economies of household management, and are an ever-present aid in saving time, expense and trouble. The number of small repairs to formiture, picture-framed, crockery, children's toys, leather, shell and other fancy work, with the almost innumerable uses to which in every household a really good and ever-ready article of this kind may be applied, will at once suggest themical way to the ladies. Damaged book-covers, loosened leaves, di-lapidated maps and herbarious, will remind the student and book worm of its value. This glue is compounded with chemicals which hold it permanently in solution until it is applied, without affecting its trength, and which serve to glue the adhesive matter a firmer hold on the surfaces to be united, after which they quickly exported, leaving the glue to harden with rapidity and tenacity. It is estimated that there are at least fire millions of house-holds in the United States, and that an outlay of from one to ten doliars is annually required to make small repairs to furniture alone, apart from the numerous neglects and make-white that are necessarily resorted to. dec 18 4t 49 dec 18
