The command of Capt. Dent, United States Army, has just reached this point from the

scene of the late Indian massacre near Fort Boise, bringing with him twelve men, women and children, who have been rescued from this massacre, which has been one of the saddest that has ever occurred on the emigrant route. These wretched creatures were found almost naked, and eating the dead bodies of those that had been massacred, and in one case eat-ing the head of a man that had been buried for ten days. The party numbered forty four souls, out of which twenty-nine were massacred and fifteen saved. They had moved from Wisconsin up to Fort Hull, where they received an escort of dragoons, who guarded them to near Salmon Falls, on Snake river. when the dragoons turning back, they were left alone for 300 miles, when they expected

to reach Walla Walla. Near Fort Boise they were attacked by from 150 to 200 Snake Indians. They fought for two days, when finding their men falling, they abandoned everything and fled for their lives. The next day they saw by the smoke that their train had been destroyed. They moved on for several miles on foot, the mothers, many of them, carrying their infants at their breasts, until they came to a small creek lined with berries, where they had remained five weeks, until the troops found them. Two men had made their escape and gave the informa tion, upon which Colonel Wright ordered out

troops to their relief. The troops moved rapidly, and when they came up with the emigrants it is said that the heart of every soldier was moved at the saddest spectacle that humanity ever witnessed. The poor people, men, women and children, bowed themselves on the sandy desert where they were found, and offered up a solemn and fervent prayer to God at their most miraculous escape, and with one feeling the soldiers swore vengeance against the savages who have reduced this band of emigrants to this condition.

But the most horrible sight was yet to be witnessed. They were without food or clothing, and had made shelters for themselves out willow and grass, and the infants that had been left after their mothers had been massacred, were eaten most ravenously, and one lady ate two of her own children that had died of starvation, and afterwards dug up her own husband, and the troops found his head roasting over the fire when they reached them .-They said it was not until starvation drove them to it that they could allow themselves to be thus reduced to live upon human flesh, and that, too, in a putrid state.

The women had been ravished by the hellish savages, and their naked dead bodies bore all the marks of horrible brutality. When will our government take some action to guard and protect our emigrant roads to the Pacific coast? This last act calls for vengeance loud and deep. A rumor has also reached here that the Flathead Indians in the Bitter Root Valley had risen, and were giving great

Everything has been done by Col. Wright, commander of this department, that a humane and noble commander could do, and much credit is due the officers and troops under Captain Dent, for their efficient aid and kindness to these emigrants. Lieutenants Anderson and Reno, and Dr. Taylor, United States Army, the officers with the command, did everything that could relieve these poor people in their distress.

A body of troops had been sent out from this post, as it was supposed, to bring in and protect any emigrants that might be left on the road, but the troops returned in August without bringing in any emigrants. We can only trust, that the government may take warning from this, and initiate such steps as to prevent its recurrence.

A Modern Nimrod .- In Cassville, Hunt-Jacob Miller, whose exploits as a hunter are worthy of note. He has killed 59 bears, between 50 and 60 wolves and deer, and the various smaller species of wild come. ingdon county, Pa., lives an old man named various smaller species of wild game, in num. bers too great to count. This modern Nimrod was born on the Schuylkill, near Hamburg, Berks county, on the 12th of July, 1774, and is therefore now in his 87th year. His great achievements in killing bears, have given him the distinctive name of "Bear Miller."

UNIONMEETING AT MEMPHIS, TENN. MEMPHIS, Dec. 28.—An immense and enthusiastic Union meeting was held here last night. Speeches were made by Neill S. Brown and others. Resolutions were passed opposing separate State secession and coercion, and in favor of a Convention of the Southern States to demand the rights of the South, and if they were refused, to take the proper action.

SPECIAL NOTICES.

& Coughs .-- The sudden changes of our climate are sources of Pulmonary. Browning and Asthard Affections. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "Brown's Bronchial Troches," or Lozanges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. Public Speakers and Singers will find them effectual for clearing and strengthening the voice. See advertisement. [nov 27 cm 46]

*** Spalding's Prepared Glue.-Prepared Glue: a very useful and convenient article for housekeepers and others, is "Spalding's Prepared Glue." It is one of those loventions, small in themselves, which, nevertheless, go far in the economies of household management, and are an ever-present aid in saving time, expense and trouble. The number of small repairs to furniture, picture-frames, crockery, children's toys, leather, shell and other fancy work, with the almost innumerable uses to which in every household a really good and ever-ready article of this kind may be applied, will at once suggest themselves to the ladles: Damaged book-cover, loceneed leaves, dilapidated maps and herbariums, will remind the student and book worm of its value. This gue is compounted with chemicals which hold it permanently in solution until it is applied, without affecting its strength, and which serve to give the adhesive matter a firmer hold on the surfaces to be united, after which they quickly evaporate, leaving the glue to harden with rapidity and tenacity. It is estimated that there are at least five millions of households in the United States, and that an outlay of from one to ten dollars is annually required to make small repaire furniture alone, apart from the numerous neglects and make-whilts that are necessarily resorted to.

chaify, for yourself, and if you are sick you may soon get well, and the cost will be very trifling. Always bear in mind that there is no physical or mental malady for which there dees not exist a remedy. There is no such thing as an incurable disease, and it is only those who profess to be what they are not—skilful physicians—that say Consumption, and other kindred affilictions are beyond the power of remedy. Nearly all diseases spring from two causes, impurity of the blood, and a lack of electrical force. It is a trite but important piece of information to be kept in mind, that when the blood, from any cause, is impure, the impurative will seek out the weakest spot in the system, lodge there, and produce both local and general diseases. This, of course, weakens the vital energies, and if something be not done to restore the body to its original condition of health, Death will be the pitimate consequence. Now, however much we may hear vital energies, and if something be not done to restore the body to its original condition of health, Death will be the ultimate consequence. Now, however much we may hear about the so-called folly of a specific remedy for allments with as moralled folly of a specific remedy for allments with as many names as a good-sized tree has leaves, we should not allow our judgment to be blased; for although these names are so various, the diseases they represent are simply one and the same, existing only in different degrees, and in different phases of demonstration. Hence, what will surely remove the difficulty, and establish a cure in one case, will do so in all others. These facts have been incontestably shown in the wonderful renovations and restorations produced by Dr. O. Philips Brown's celebrated preparation, the Acacian Balsam. It has made thousands of permanent and speedy curse of Consumption, Asthma, Bronchitts, obstinate Coughs and Colds, Nervous Complaints, Diseases of the Liver, Heart Affections, &c., and for that terrible precursor of dissolution, General Debility, it is acknowledged to be the only certain remedy. The Acacian Balsam penetrates at ones, with electrical speed, through the whole system, giving immediate life and strength to every organ, imparing cheerfulness to the mind, and flesh to the wearled and emsclated body. A pamphlet describing this remedy thoroughly, may be had from the Doctor's agents. The Acacian Balsam is sold at \$2 per bottle by

PUBLISHERS' ADVERTISEMENT.

Twenty-Six Thousand Copies of this elaborate work have siready been sold! The flattering confidence indicated by this liberal patronsgs has induced the Author and Publishers to revise the Work thoroughly, to bring it down to the latest period, and to introduce to the latest period, and to introduce NEW AND SUPERIOR ILLUSTRATIONS.

Thus improved and periocted, it is believed that no other Universal History can compare with this, for the fullness and accuracy of its statements, the convenience of its arrangement, the elearness, simplicity and digoity of its style, for the consequent interest which it excites, and the rangulable instruction which it imparts, or for the durability and neatness of its mechanical execution.

The Work hereafter will be Annually Revised, and can therefore at all times be relied upon, as containing the latest important events connected with the progress of mankind, in Politics, Society, Arts, Sciences—in all that belongs to Civilization—and in a form convenient, cheap and durable.

belongs to Civilication—and in a form convenient, cheap and durable.

• ** It is believed that this work, by Mr. Goodrich, will be very acceptable to the whole reading public. This is the result of years of toil and labor, assisted in his researches by several Scholser of known ability, and has been got up at a great expense by the Proprietors. No pains have been spared in the execution of the Illustration and Maps, which are entirely new, prepared by the distinguished author expressly for the work. Indeed, all the other historical writings of Mr. Goodrich sink into insignificance, when compared with this, the result of his riper and maturer years It is admitted that One Hundred Dollars could not purchase the same matter in any other shape; and the Publishers confidently expect that, in consideration of the great literary value of the work, the large sum expended in preparing it for the press, and the exceedingly moderate price at which it is offered, that it will be favorably received by every lover of good books. The demand is now so great that it is difficult to keep up the supply. Many of our first scholars, divines, and gentiemen, who have examined the work, have given it their unqualified approhation and commendation, which it richly deserves, as it is the fruit of years of labor of the distinguishedjanthor, and of great out to its Pruprietors.

We state positively that this Work is not, and will not be for eale in any bookstore in the country. It is offered only by our Boliciting Agents, one of which is the distributor of this Circular, and by whom alone the Work is sold in this locality.

Neuralge Affections, it has in numerous instances proved
highly beneficial, and in others effected a decided cure.
This is a purely vegetable compound, prepared on strictly
scientific principles, after the manner of the celebrated
Holland Professor, Berhave. Its reputation at home produced its introduction here, the demand commencing with
those of the Fatherland scattered over the face of this
mighty country, many of whom brought with them and
handed down the tradition of its value. B is now offered
to the American public, knowing that its truly wonderful
medicinal circuse must be acknowledged.

It is particularly recommended to those persens whose
constitutions may have been impaired by the continuous use
of ardent spirits, or other forms of dissipation. Generally
instantaneous in effect, it finds its way directly to the seat
of life, thrilling and quickening every nerve, raising up the
dropping spirit, and, in fact, infusing new health and rigor
in the system.

NOTICE—Whoever expects to find this a beautopy of the dropping spiris and, and a spiris and a beverage will be disappointed; but to the sick, week and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

READ CAREFULLY! The Genuine highly concentrated Berhave's Holland Bitters is put up in half-pint bottles only, and retailed at Our Bollan per bottle, or six bottles for Five Bollans. A STRAY COW.—Came to sand of the subscriber, in Providence township, Lancaster county, on the 7th of August last, a large light RED COW, supposed to be about 12 years old, with a white stripe over the back and white forehead, and alled of the right eya. The owner is requested to come forward, prove property, pay expenses, and take there away—otherwise she will be disposed of according to JOHN CHANAN.

suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afficted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROPULA AND SCROPULOUS COMPLAINTS, BRUFTIONS AND ERUFTIVE DIBMARS, ULCURE, PIMPLES, BLOTCHES, TUMORS, SALT RHEUK, SCALD HEAD, STPHILLS AND SYPHILLY AFFORTONS, MERCURIAL DEBRARS, DROPEY, NEU-BALGIA OR THE DOULDURGUE, DREITHY, DYS.

PROTONS, MUNICIPAL DEBANA, DECISY, NEW-BALGIA OR TWO DOULOURSUX, DEBLITY, DYS-PERGIA AND INDIGESTION, ERTHIPSIAS, ROSE OR ST. ANTHONYS FIER, and indeed the whols-class of complaints arising from Theventy or

rne Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not essisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart
of Extract of Sarsaparilla for one dollar. Most
of these have been frauds upon the sick, for
they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should has followed the use of the various extracts of eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

FOWLE & Co., 18 Tremont Street, Boston, and has their PRINTED name, as well as the WRITTEN signature of I. BUTTS, on the outside wrapper. All other is worthless, and to purchase it is money thrown away. Let the sick and the invalid, as they

desire and hope to be cured, take no other, and avoid all other, as they are impositions. VALUABLE TESTIMONY From Rev. Jacob Sechler, well known and highly re-spected throughout the State of Pennsylvania. spected throughout the State of Pennsylvania.

HANOVER, PA., Feb. 16, 1859.

Messrs. S. W. FOWLE & CO., BOSTON.—Deer Sirs. Having realized in my family important benefits from the use of your valuable preparation,—Wister's Baless of Wild Cherry,—it affords me pleasure to recommend it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recoverywere entertained. I then produred a bottle of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her health. I have, in my individual cased made frequent use of your valuable medicine, and have always been benefited by it. I sweld, however, caution like public against imposition, because there is a good deal of sperious Wister's Balsam of Wild Zherry chout throughout the country.

3T Bewers of vile and worthless counterfeits! The only Gennics, Perc, and Medicinal Balsam has the name of "I, BUTTS" written with a pen, and the printed name of the proprietors, "S. W. FOWLE & Co.," on the outer wrapper.
