The present number closes the fifty-fourth volume of the KNICKERSCEEL, and while we thank our patrons, for their past favors, we shall strive to increase their samber by redoubled care and effort in every sapartment of the Magazine. We expect in our next number to be able to announce a series of articles on Popular Astronomy, by the most distinguished writer upon that science in the land. Offered as a greenlum in this country.

Reader, I peddled over a thousand bottles of its in the vicinity of Boston. I know the effect of it in every case.—So sure as water will extinguish fire, so sure will this cure after a trial it always speaks for itself. There are two things about this herb that appear surprising; first, that it grows in our pastures, in some places quite length, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor, In order to give some idea of the sudden rise, and great popularity of the discovery, I will state that in April, 1853, I sold over one thousand bottles of these rate is a may be used in the business twenty and from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I great and wonderful virtues have been found in it that great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles.—O, what a mercy if it prove effectual in all cases of that awful makedy—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsis, Asthma, Fever and Agus, pain in the side, Diseases of the Spine, and particularly in diseases of the Kidneys, &p., the discovery has done more good than any medicine ever known.
