This proof of PHILADELPHIA. There is no darging that there is an im mense amount of rinforms among the poor of the city of Philadelphia. In the winter sea son, in our Northern cities, there is always more or less human suffering -but est his the distress suffering to the familiant of the sent family of dame train the city of Philadelphia. In the winter sea son, in our Northern cities, there is always ime in Philadelphia, but est his corridore, the Providence, James Tassone to Mari on the stating to the sent family of the trained family of the sent gree terrible to contemplate.

We observe that the same state of things exists in New York, and we copy the followexists in New York Harada, with 8 view of commending the suggestions therein, as worthy of the attention of the wealthy and business men of our city, who, by their support of the Republican party, have prodiced in a great degree this state of things: --Philody great degree this state of things :- Philadel. phia Arous. to contrary of

THE POOR OF NEW YORK INSTHE CRISTE The official reports of the Commissioners of Charities and Correction show that they have Charities and correction show that they have now under their charge 8777 persons as in-mates of the city institutions, an increase of 465 over 1860 and of 850 over 1859—corresponding periods. Statistics as to the condiion of the outdoor poor are still more suggestive. Our reporters have ascertained that the tive. Our reporters have ascertained that the distress among the laboring classes in this city is unprecedented. As many as tweaty-eight thousand persons, able and willing to work, are now idle. The Superintendent of Outdoor Poor has received no less than ten thousand applications for coal during the last two or three weeks. The same effect two or three weeks. The same official receives daily applications from mechanics who wish to be committed to the Workhouse. Beyond this there is, of course, an immense amount of suffering which is concealed through false pride and shame. Would it not be well for our Republican friends, bank presidents, and so on, who voted for Lincoln, to devise some plan for the alleviation of the misery which the political excitement consequent upon his election has caused in the Northern cities? In the South we find the negroes sleek, fat. comfortable and devoted to their masters. In the North the white laboring classes are walking about the streets with the alternatives of pauperism, starvation or crime. The contrast is not a very pleasant one for us, but it is absurd to deny that such is the state of things.

108.57. Avriour's First, and indeed the whole class of complaints arising from Investor of THE BLOOD. This compound will be found a great pro-moter of health, when taken in the spring, to expel' the foul humors which fraiter in the blood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bad. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will atrive to ind itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find it is ob-structed and singish in the veins; cleanse it whenever it is foul, and your fielings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else.

contain but little of the virtue of Sarsaparilla, or any thing else. During late years the public have been mis-led by large bottles, pretending to give a quart. of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa-rills, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intend-ed to cure. In order to secure their complete eradication from the system, the remedy should eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
