The IRON being absorbed by the blood, and thus circulating through the whole system, no part of the body can escape their truly wonder-ful influence. The experience of thousands daily proves that no preparation of Iron can for a moment be compared with it. Impurities of the blood, de-pression of vital energy, pale and otherwise nickly complexions indicate its necessity in al-most every conceivable case. In all cases of female debility (fluor albus, chlorosis, etc.), its effects are delightfully renovating. No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, com-plete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use. a perfect cure is warranted when the above quantity is taken. Beader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.-So sure as water will extinguish fire, so sure will this cure bumor. I never sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this bett that appear surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has nown been known nutil I discovered it is sold this bett that appear surprising; and yet itself. There are two things about this bett hat appear surprising; drag two its poularity of the discovery, I will state that in April, 1853, I peddled it and sold about sir hottles per day—in April. 1854, I sold over one thousand bottles per day—in April. 1855, I sold over one thousand bottles per day of it. Some of the wholesale Druggists who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was even like it. There is a universal praise of it from all quarters. In my own practice I always kept it strictly for humors -but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected. Beveral cases of epileptic fits—a disease which was always considered incurabie, have been cured by a few bottles.-0, what a mercy; if it prove effectual in all cases of that awful malsy--there are but faw, who have seen more of it than I have. I know of several cases of Dropsy, all of them aged pap-ple, cured by it. For the various disease of the Liver, block thed abney, &c; the discovery has done more good than and enough of it. In their last annual report, the Inspectors, in remark-ing upon the evils and cost of vagrancy, observed that "no remedy for the abatement of this growing and in-tolerable nuisance has as yet been provided;" " that the number of that class of immices had reached 640, who ware fed at the annual: cost of \$3,736.22," " and the efficient remedy for the removal or diminution of the evil was a problem which the Board was numble to solve," but suggesting as the only feasible modes of mit-igating the evil, in their opinion, was, either, by an an-largement of the Prison to afford facilities for working them, or by legislative action. The suggestion for an enlargement of the Prison meeting with no favor from the County Commissioners, the only alternate left was to make the attempt to obtain legislation which was coordingly done by the joint petition of the County Commissioners and Prison Inspectors to the Legialature, setting forth, " That' whereas, the laws of this Commonweith rel-

**CARMEERS, LOOK TO YOUR INTER** BET - Received the First Premiums this Fall at our County Fair, a Silver Medal on the Telegrah Fodder Cutter and Coleman's Farm Chooping Mill, with Proceet's improve-ment. I have received at my Agricultural Implement and Seed Warehouse a large stock of the Telegraph Hay, Straw and Confoder Cutters, four sizes, Noz, 1, 2, 3 and 4, suit-able for large or small Farmers. The Telegraph Hay, Straw and Cornfodder Cutter is acknowledged to be the best Cutter now in use. We claim a great many advantages over any new manufactured: 1st, It has the down cut, all the strain is on the frame where it should be; 2d, It is geared on both sides, and is not lla-ble to wear or get out of repair; 3d, The Nos. I and 2 are double geared, and can be changed to cut different lengths; the shortest cut is 7 pieces to one inch for Cornfodder; in fire minutes they cas be changed to cut sufficient lengths; the shortest cut is 7 pieces to cutter to power.— The greatest advantage we claim is the power. We can do as much work with one hores as those can (that first cut, then crush) with three. Our cutter will cut shorter and make better feed then

as much work with one hore as those can (that first cut; then crush) with three. Our cuttor will cut shorter and make better feed, than those those that, first cut; then crush. We all know the more power it requires to drive a Cutter the sconer it will got out of repair. We will give a few references to Farmers wanting Cutters this fall: John-Sener, Christian Hees, Abm. M. I have also received a full supply of Coleman's Premium Farm Chopping Mill with Prosen's improvement. There are a great many of our Mills now in use in this county, and all give very good satisfaction. The Mill is very much improved over those sold two years ago. The grinding parts are 100 per cent. harder. There is a Mill running in Philadelphis which has ground from 15,000 to 20,000 husb-els of grain, and is running yet without having any reparts done to it.
