THE NEW CONGRESSIONAL APPORTIONMENT. By the new Congressional Apportionment, based upon the census of 1860, the slaveholding States will lose five members, and the free States gain one; the whole number of the House being reduced from 238 to 234, allowing one member to Kansas.

Maine, Massachusette, and Bhode Island each lose one member; Vermont, New Hamp-

shire and Connecticut retain their present representation unimpaired. New York-loses 3 members; Pensylvania loses 2; Ohio loses 2; Minnesota loses 1. On the other hand Iowa gains 3, or 150 per cent., and Illinois gains 4; a most extraordi nary increase in both cases; Michigan gains 2; Wisconsin gains 2; California gains 1. 2; Wisconsin gains 2; California gains 1.

In the slaveholding States, Virginia loses
2; South Carolina loses 2, (reducing her to an equality with Connecticut, and placing her below Iowa,) Tennessee loses 2, North Carolina, Georgia and Alabama lose 1 each; Texas gains 2, Missouri gains 2. Arkanasa gains 1 gains 2, Missouri gains 2, Arkansas gains 1, and Mississippi gains 1.

In the next election of President, the whole number of electoral votes will be 302, (one less than last year;) necessary for a choice 152, (the same as last year)—the slaveholding States will have 114, (instead of 120) and the free States 188, (instead of 183.)

THE CITY OF SPINDLES.—The number of spindles in Löwell is 403,696, or 123,696 more than in all New England in 1826; contained in mills running from 10,000 to 25,000 spindles each, averaging 11,000 spindles each, consuming 823,000 pounds of cotton per week equal to 42,795,000 pounds per year, or 3,-596,000 pounds greater than all New England at the above mentioned period. The yards of cotton goods printed in Lowell, at this time, per week, average 550,000 yards, 490,000 yards more than all Yankeedom in 1826!

Do you classify Dr. Broxson's Blood Food with other

It would be impossible to let you know of the Blood

in our medical colleges, and a very celebrated lecturer on
physiology; and his preparations—not patent medicines—
are the result of an old physician's great experience
and knowledge. Then do not despair. Though you have

AP What is Life?—Ask this question of the forests, which teem with sturdy life. There stand vet-rans of centurial agea, rearing their rugged and far-reaching srms aloft as if in deprecation of the ignorance of maskind as to the means of preserving as surely and as distinctly as you do. To kill it you must strike deeply into its heart, and then it dies reinctantly and with many theoretical struggles. Life, everything has life, even to the poor sponge and the trodden down pebble. How beautiful is the economy of health. How simple the methods of priologing life, and preserving it from the assaults of the emissaries of our arch enemy, Death! Unlike the lesser, living things of the world, we induige in many habits that poison the blood, weaken the muscles, wate the fiesh, stuitfy the mind, rob the nerves of their electrical forces, and, after keeping us invalids for weary years, finally consign us to premature graves. A life half lived out is like a fortune thrown into the fathomless occan. It is a boon priceless but useless. How careful then shruld we be never to get sick; but if, by any mischance, we have become ill, how earnestly should we seek to recover. D ctors who go exclusively by "the books," and who practice medicine as it was practiced when our grandmothes were children, are not the persons to recover us. It is the progressive doctor—the man alive to the requirements of the age—the man who is neither to idle nor too old fogyish to study for the benefit of his fellows, and to give them a specific remedy—the result of his fellows, and to give them a specific remedy—the result of his fellows, and to give them a specific remedy—the result of his fellows, and to give them a specific remedy—the result of his fellows, and to give them a specific remedy—the result of his fellows, and to give them a specific remedy—the result of his fellows, and to give them a specific remedy—the result of his fellows, and to give them a specific remedy—the result of his fellows, and to give them a specific remedy—the result of hi

WIFE TAMING

BY THE BARD OF TOWER HALL. A Mr. Blank, who had a wife, A vixen, christened "Carrie," A vixen, christened "Carrie," Went in, one night, that he might see Some horses tamed by Rarey. He saw the plan, and swere with caths As thick as drops then raining,
That he would break his victous wife,
By Rarey's way of training.

He bought a strap, and then went home To greet his household Tartar; He said, "My nag, I've suffered long But I'll not die a martyr. That you may do no kicking,
And then I'll break your will, or bones,
With one well-needed licking."

"You will!" replied his lady bold—
By what he said made bolder—
"Take that!" and she "let fly her left,"
Directly "from the shoulder." Her husband dropped and then she seized The strap for her intended— The stripes he felt, and stars he saw Before the matter ended.

He screamed and begged-his lady said. "Arise, and go to Tower HATL, And, while repenting deeply Of wrongs to me, of Bennett buy A suit of clothing cheaply!"

He did, and happy as a lord, He now declares to Carrie, That wives can never broken be, As horses are by Rarey. Winter Stock closing out at greatly reduced prices, at TOWER HALL, 513 MARKET Street, Philadelphia. BENNETT & CO.

BEAUTY WITHOUT PAINT Dr. F. W. Boswell's Beautifier,

FOR REMOVING TAN, PIMPLES AND FRECKLES. And imparting a permanent BLOOM to the COMPLEX ION. It renders rouge, vermillion, pink-saucers and all other coloring material for the face, wholly superduous. It supersedes entirely all such dele terious mixtures. It is the most autonishing Regenerator of the Natural Hue of the cheeks, and health to the complexion ever presented to the world.

This BEAUTIFIER is just what its name imports.

It is another of the extraordinary developments of chemical electric affinity, and operates like magic in

Making the Homeliest Face Handsome, curing by degrees all the blots and discolorations of the cuticle which so often disfigure the most regularly constructed visage. It imparts at the same time that permanent

Bloom to the Complexion, which is only the result of the skin's excellent health, and of the perfect restoration of its natu-ral stamina. It thoroughly and immediately cures Tan, Freckles, Sunburn, Blotches, Pimples, Scurf, Skin-Worms, Moth and

Small-Pox Marks. Indeed, its effect in such cases is almost miraculous.—Its anti-inflammatory nature is irresistible. It softens, soothes, calms, neutralizes the irritating principle, and restores the health of the partial feeted; imparts a brilliant bloom to the cheek and lips; it produces a tint only excelled by nature itself, without the possibility of detection.

Freckles are at once Obliterated: Pimples disappear as if under the operation of a spelt. POCK MARKS FADE OUT in a manner scarcely to be credited even by those who witness their gradual extinction. In short, the BEAUTIFIER is placed before the world for just what its inherent and unexampled medical properties warrant: not only as an article for the Tollette Beyond all Equal,

unquestionably, a Radical Face Embellisher never approached in its perfection by any thing yet produced in the world. PRICE, 60 CENTS PER PACKAGE, which can be sent to any part of the world, by mail, in perfect safety. When purchased of my Ageuts, or at my office, the Price is 50 Cents. The exica 10 cents is for postage.

DR. F. W. BOSWELL'S Superfluous Hair Eradicator

For removing the unnecessary and disfiguring hair that sometimes obtrudes itself upon a fair lady's lips, chin, neck, arms or shoulder; or persists in growing too low down upon her forehead. Dr. Boswell's Superfluous Hair Eradicator sweeps away all these little but annoying irregu-larities, leaves the skin white and clean, arrests the halr in its growth, and makes each spot look as if it had been originally produced by nature in its state of darning purity and perfection.

The Bliss of Marriage, one volume, 200 pages, 82mo. Price in cloth 20 cents.
This is decidedly the most fascinating, interest ing, and really useful and practical work on Court-ship, Matrimony, and the Duties and Delights of Married Life, that has ever been issued from the All Dr. Boswern's articles are sent by mail, free postage.

Scrofula or King's Evil is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation is pervades the whole body, and may burst be in disease on any part of it. No organ is the from its attacks, nor is there one which it may be desired. The scrool-lens taint is restoodly

from its attacks, nor is there one which it may not destroy. The scrotlous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, fiith and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cotruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-

Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, destructive diseases of the liver, kidneys, bram, and, indeed, of all the organs, arise from of are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it.

To cleanse it from the system we must renovate the blood by an alterative medicine, and in.

When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgottena

From Ren. Jacob Sechler, well known and highly respected throughout the State of Pennsylvania.

HANOVER, PA., Feb., 16, 1859;

Messirs. S. W. Fowler, & Co., Bosedon. — Dear. Sire. Having realized in my family important benefits from the use of your valuable preparation. — Winter's Balacs of Wild Cherry, — it affords me pleasure to recommend it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were entertained. I then procured a bottle of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her health. I have, in my individual case, made frequent use of your valuable medicine, and have always been benefited by it. I would, however, caution the public against imposition, because there is a good deal of sparious Wistar's Balsam of Wild Cherry aftent throughout the country.
