FROM WASHINGTON.

WASHINGTON, March 22. Among the confirmations by the Senate toay, were those of Mr. Anson Burlingame, of Massachusetts, as Minister to Austria, and Mr. Corwin as Minister to Mexico. Charles Lee Armont, of Maryland, has been nomina-ted as one of the Associate Justices for the Territory of Colorado, and Joshua B. Giddings as Consul at Montreal. The President has submitted to the Senate

for its advice and consent, the proposition of the British Government to refer the San Juan question to the arbitration of Sweden, the Netherlands, or Switzerland, From these it is for the United States to make the selection.

The Committee on Foreign Relations, has made a favorable report upon the subject, and recommend the choice of Switzerland. This This matter was, it is understood, debated in Executive session to day, without coming to a con-olusion. Senstor Nesmith, of Oregon, is opposed to the proposition, not being willing to agree to any plan involving, by any possi-bility, the surrender of the islands in dispute.

The rumors of the non evacuation of Fort Sumter are supposed to be put forth for political effect. It is positively certain that it will be abandoned speedily, and it is equally cer tain that Fort Pickens will not be reinforced. All signs are favorable to a peaceful solution. The Republican Senators in caucus to day

resolved to supercede the present Sergeant at Arms, Door keeper, and Assistant Door keeper, by a new election. They are finally to deter mine on the candidates to morrow morning. There is no determination in administration circles relative to an extra session of Congress. The chartered vessels which recently left New York on government business, sailed

with sealed orders. According to the present indications the

nomination of Mr. Halloway for Commissioner of Patents cannot be confirmed, the Com mitte on Patents not having reported on the subject. Therefore, it will probably be withdrawn.

Col. Alfred M. Barbour, Superintendent of the Harper's Ferry Armory, tendered his resignation to the War Department to-day.

DISTRESSING CASE OF HYDROPHOBIA.-The Binghamton (N. Y.) Republican says :- "We have just heard from one of our citizens who returned from Arrarat. Pa., about twelve miles south of Susquehanna Depot, of a singular and distressing case of hydrophobia. About two years ago, Miss Sarah Low, daughter of Lewis Low, a respectable farmer, started to visit a neighbor across the fields a short distance, and after going a little way, was furiously attacked by a large dog, (afterwards ascertained to be mad,) who tore nearly all the clothes off her ; but, reaching a stone fence. Miss Low succeeded in getting over, and the dog, in attempting to follow, pulled down a large stone, which falling on his foot, held him fast, and Miss L. escaped, as she supposed at the time, without being bitten. A few months sgo Miss Low was married to Mr. Albert ownsend, and on Sunday, the 3d inst., while herself and husband were riding in a carriage to her father's house, Mrs. T. exhibited symptoms of hydrophobia. Mr. T. ourried on to their destination, and during the night Mrs. T. was attacked with spasms, which were so violent that it required several men to restrain her-she attempted during the spasms, to bite any one within her reach. She continued in the same way up to the time our informant left, (Friday morning last,) and it was supposed that she could not survive much longer. It is believed by her friends that when attacked by the mad dog two years ago, there must have been some abrasion of the skin not observed at the time, through which some virus from the mad dog penetrated the system.

WONDERFUL INSTANCE OF SUFFERING AND ENDURANCE.—The Monticello Watchman is furnished with the particulars of a remarkable On the 6th of February, case of suffering. Clark Brown, between fifty and sixty years old, and his daughter, aged about fifteen, started to go through the woods of Sullivan county, a distance of seven miles. As there was no track through the snow, they lost their way, and were obliged to sleep in the snow for three nights. On the 9th they succeeded n finding a bark road, Brown dragging himself along by his arms, his legs being frozen stiff. The daughter followed the road, and obtained assistance for her father, who was so badly frozen that he died in about twelve

THE WHEAT GROP IN ILLINOIS .- The farmers of Illinois have every reason to be satisfied with the appearance of the wheat crop at this time. We have reliable information from more than twenty counties of Southern Illinois, giving assurance that during the past ten years the wheat fields in March have never appeared so promising as now. The growth is admirably well set, covers the ground well, is healthy and strong, encour-

aging large expectations of full granaries at the close of the season. The amount sown last fall was unusually large, and 1861 bids fair to be as distinguished in Illinois for the affluent wheat harvest as was 1860 for the plethoric corn crop in Central and Northern Illinois.-Missouri Republican. GRAIN AT THE WEST .- It is stated that

among the immense quantities of grain now in store at the West, destined for shipment to Buffalo and Oswego, on the opening of navigation, there is at present stored in the great warehouses of Sturges, Buckingham & Co., on the Illinois Central Depot grounds, in lorn, old Chicago, the amount of nearly a million and a half bushels of grain. In warehouse "B" there are 214,585 bushels of spring wheat, 567,534 bushels of barley, 7,883 bushels of oats. Total 801,148 bushels, or by weight, 22,672 tors. In warehouse "A" there are nearly 700,000 bushels of grain, and the quantity will increase until the amount in the other is reached, unless in a short time owners

commence putting it on board vessels in the river. LATE FROM TEXAS.

New OBLEANS, March 19.-Forts Brown

and Ringgold, and the barracks at Brazos and Santiago, have been virtually surrendered to the Texas authorities.

The entire evacuation by the Federal troop will take place on the 20th instant. Posses sion will then be taken by the Texas troops who have enlisted for six months. A resolution has been unanimously adopted by the Texas Convention, tendering their

thanks to Gen. Twiggs.

SNOW STORM IN THE SOUTH. WILMINGTON, N. C., March 19.-A heavy snow storm occurred here last night; the snow fell four inches deep on the level, accompanied with sleet and a high wind. The storm continued till four o'clock this morning. It extended as far south as Milledgeville, the xtreme point heard from. During the storm the roof of the engine and ocomotive house here fell in. Only one man

was hurt. The building was a large one. THE REPUBLICAN PARTY DEAD IN PENNSYL-VANIA-A few days ago we heard a prominent Republican say that if the bill for the Repeal

of the Tonnage Tax, and the Relief of the Sunbury and Erie Railroad were passed, and signed by Gov. Curtin, there would not be twenty Republican members elected to the Legislature next winter. The bills have both been passed, and the great State robbery completed. The Republican party is respon-sible, and the people will hold those who voted away their money to account.-Brownsville Times.

THE CHANGE .- During the last week the importation of specie at New York, with the amount en route from San Francisco, as advised by the Pony Express, amounts to \$4,066,469. This avalanche of specie adds largely to the vast amount of money lying idle in the bank vaults waiting for a settle-ment of the irrepressible conflict, and the consequent revival of business.

THE FOREIGN MISSIONS .- The New York Republican journals are all after the "spoils." The Post's office carries off the Alexandria consulate, the highest post in Egypt; the Tribune's office is reported to be nestling into the St. James secretaryship; and the Courier turns up in a mission to the Sultan and the Sultanas.

SHAD FISHERIES IN NORTH CAROLINA .- WO are informed by gentlemen from that section that the shad fisheries of North Carolina are unusually productive. One seine brought in at one haul one day last week one thousand and five hundred shad. The herring fisheries seem to have taken the place of that once numerous class of fish in the principal waters of the Old North State .- Norfolk Day Book. -SPECIAL NOTICES.

SCI OILLIN, OF KILLS'S LIVII, is a constitutional disease, a corruption of the, blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may, not destroy. The scrofulous taint is variously caused by marcurial disease, low living, dis-ordered or unhealthy flood, impure sir, filth' and filthy habits, the depressing vises, fill, above all, by the venereal infection. What, ever be its origin, it is hareditary in the can-stitution, descending "from parents to children, into the third and fourth generation ?" indeed it seems to be the rod of Him who says, "I will yish the iniquities of the fathers upon.

Its effects commence by deposition from the

ANOTHER SWINDLE PROJECTED.

Senator Irish, of Allegheny, about a week ago, read a bill of very great importance to the Commonwealth. It is styled "an Act relative to the securities of the Commonwealth," but is really an act to assist in the completion of the Pittsburg and Connelsville, and the Allegheny Valley Railroads. To the first named company it proposes that the State should exchange \$3,000,000 of the bonds of the Pennsylvania Railroad Company, out of the seven millions now in the sinking fund, for an equal amount of first mortgage bonds on the Connelsville R ad; and to the Allegheny Valley Railroad Company it is proposed to exchange one million and a half of the Pennsylvania Railroad Company's bonds for an equal amount of her bonds.

We will not be the least surprised if the above project also passes the present session, for we believe the Legislature, as at present constituted, is capable of any villainy. They have just repealed the tonnage tax, which is a yearly loss to the State of \$370,000 and in few years would have amounted to half a They have also cancelled the mortmillion. gage of \$3,500,000, that was held by the State against the Sunbury and Erie Railroad. Now, according to the bill-introduced by Mr. Irish, they are after \$4 500,000 of the money in the sinking fund. This project is similar to that first adopted by the Sanbury and Erie Railroad to obtain money from the State. That road then gave a first mortgage to the Commonwealth as security for the amount borrowed. After spending the money, the Legislature wipes out this first mortgage-in other words, the debt is canceled, and the State robbed. We repeat, we will not be astonished f Mr. Irish gets his bill through. Go it, Republicans.-Easton Sentinel.

STATISTICS OF MORMON POPULATION .--- The Valley Tan copies the following statistics of Mormon population: The population of Mormous in the United States and British dominions in 1856 was not less than 68,000, of which 38,000 were residents in Utah, 5,000 New York State, 4,000 in California, 5,000 in Nova Scotia and in the Canadas, and 9.000 n South America. In Europe there were 36, 000, of which 32.000 were in Great Britain and Ireland, 5,000 in Scandinavia, 2,000 in Germany, Switzerland and France, and the rest of Europe 1,000; in Australia and Polynesia. 2,400; in Africa, 100; and on travel, 2,800. To these, if we add the different branches, including Sarangeties, Rigdonites and Whiteites, the whole sect was not less than 126.000. In 1857 there appears to have been a decrease in the population of Utah, the number being only 31,022, of which 9,000 were children, about 11,500 women and 11, 000 men capable of bearing arms. There are 2.388 men with eight or more wives; of these thirteen have have more than nine wives; 730 men with five wives; 1,100 with four wives, and 2,508 with more than one wife. Recapit ulation-4,617 men with about 16,500 wives.

LANDLORD AND TENANT .- The following supplement to the act of 1830, relating to landlords and tenants, has passed both branches of the Legislature: "That so much of said act as requires the lessor to make complaint before any two Aldermen or Justices of the Peace, as the case may require, is hereby repealed, and it shall be lawful for any such lessor or his authorized agent to appeal, before any Alderman or Justice of the Peace of the County, and making such com-plaint on oath or affirmation, which shall be sufficient for the Alderman or Justice to issue his precept, and to hear and determine the case as fully and effectually as the two Aldermen or Justices were required to do."

"THE PRESIDENT'S LIFE IN DANGER."-The New York Commercial (Rep.) announces seriously that Mr. Lincoln's life is in danger seekers are killing him. On his way _office to the seat of government, rumors were rife ce of secret conspiracies against | the existence hads of Republicans that the greatest dampineties against beads of Republicans that the greatest dan-ger to be apprehended arose from shoals of office seekers: "The effects of these worrying importunities," says the Commercial, "have ger to be apprenenueu atos total office seekers.
