PHILADELPHIA CORRESPONDENCE.

PHILADELPHIA, March 27th, 1861. MESSES. EDITORS: The news this morning is that Lincoln and the Cabinet have finally withdrawn "that order about Sumter"-a very luminous piece of information which will probably be qualified by the additional infortion to-morrow that it hasn't been withdrawn. The Rail Splitter is playing with fire, with infinite danger of having his new whickers singed. (These are the whickers about which everybody was bragging as he passed through the Keystone city, when he was complimented upon his improved personal appearance, all owing to the new whiskers. Rumor says they turned white on the night of his entirely uncalled for by the people, and is not necessary to meet any actual want. The law eventful flight to the Capitol !) Even the small remnant of his own party are beginning to grow disgusted with the excluding small bills has acted as a purifier of nasterly inactivity" which he displays, and those who the currency in the law abiding portions of the blamed the policy of Mr. Buchanan, and shouted with ex-State; having brought into general use gold ultation at the idea of a President of their own who would and silver in all transactions involving sums show the South thunder, and let the world know that we have a government! We can't say how the Comanches treely in portions of the State, and that it is better to displace them by notes of similar de will like the appearance of a Black Republican among m. No doubt they will feel highly complimen The outrage committed by our Legislature upon this city n postponing the time of the local election to next fall, is a very inadequate reason for flooding portions exciting a good deal of indignation here. But the actors of the will be folled. Intending by the extra grace thus taken to used with an unwelcome currency. Because n the chances of their own defeat, they will find it at certain portions of the State suffer inconvenilast only more certain and overwhelming. If they suppose ence from disregard of the law, is no reason why the evil should be legalized and extended. that the black snake of Republicanism can ever sting

again, let them enjoy their brief ignorance, that's all. Your comments yesterday on the political decapitat n have a parallel case within our own knowledze. Down the Delaware Bay is a Lighthouse; which Lightho for twenty or thirty years past has been kept by two women, and their light has so shined before men that ringers have come to hall it as the most useful luminary from the sea up to the city. Would you believe, there are no less than twenty men (!) now applying for this paltry situation, and the women will have to go! We have seen in Philadelphia, in utter defiance of the wishes instances of hungriness for office in our time, but the of the people, it may do anything without rapacity of the horde of cormorants now lusting for place creating astonishment.-Harrisburg Patriot. is without a parallel in political history.

We have given up one half of our letter this week to upon the locals of the city. ishes in a panic. The favorite old "Littell's Living Age" keeps on the even tenor of its way, a delight to intelligent readers of every class. We have so long admired this charming repository of all the good things in foreign periodicaldom that to miss its visits would seem to be like parting from some dear old friend. The new number (879 for April 6th.) begins a new volume and contains no les than twenty articles from leading magazines and journals in Europe, some of them giving leading foreign opinions on the crisis in our country. Let the reader look out for this number. As we sometime since announced, the elegant the press of Johnson, Fry & Co., New York, (J. E. P. Mackay, 333 Chestnut Street, Philadelphia,) is now com-pleted, making, when bound, two of the noblest and most valuable volumes are issued from the noblest and most nable volumes ever issued from any press. The tooling. and gilding, and the whole style of binding got up for this work by Mr. Mackay is something exquisite, and we paign addressed a promiscuous concourse of advise all our readers who have the numbers to send them in and have them thus permanently and fitly preserved. how that many Lancaster readers were subscribers to this work, and we feel that we are doing such a favor in giving them the hint. We are aware that many stopped their subscriptions at the close of the first volume, fearing that the parts would run beyond the number specified in ns. But such fears are now idle, as the work is completed, fairly, and every one should be glad of the opportunity to secure the whole publication. There are but sixteen or seventeen parts in the second volume. Without them the work is worthless, with them it is one a wooden nutmeg, a Yankee trick," &c , and f the grandest ever published. Uniform with Mr. Jno. T. Irving's "The Attorney,', which we noticed two or three weeks ago, Mr. R. M. De-Witt has since published another fine novel by the same anthor, entitled "Harry Harson, or The Benevolent Book, and Alhambra, and possesses many of the salient "for the purpose of superintending the runa-points in composition which distinguished his lamented vay negroes, and looking after the underground values. This story is one of vivid interest, and of marked railroad." character, is exquisitely written, and possesses a dramatic ntensity which cannot fail to enchain the reader. Messrs. Ticknor & Fields publish this week a work which has been sometime expected by readers aware of its an of Abolitionists in the whole North-for he has been sometime expected by readers aware of its an nouncement. We refer to the "Tweive Sermons Delivered at Antioch College," by the late Horace Mann. These discourses are printed just as they were written and delivered, with the addition of the original Meditations of the author found in manuscript. They treat of Human Duty as taught in the Gospel, with the Happiness that is sure to flow from its observance. God's Law, and Perfection, and Mercy to his creatures, can never be too familiary urged upon the attention of readers, and we have never seen a book of its kind better calculated to do good than this. As announced by us sometime since Messrs. W. A. Townsend & Co., New York, have commenced the publication of a spiendid new edition of the writings of Dickens, both of a spieutul new entroit of the windog of Dickels, opening with the immortal "Pickwick Papers," in four volumes, with illustrations by Darley. John Gibert, the famous English designer, will aid in the pickorial part of this edition, while in type, paper, binding, etc., it will excel anything yet brought out in this country. We shall have more to say about it probably next weak. H.

Mr. James E. Harvey, correspondent of the North American, is to be Minister to Portugal. LETTER FROM GEORGE PEABODY, Esq.-The

Boston Courier publishes a letter from George Peabody, Esq., the American banker in London, in reference to our national crisis, in

which he says : "The anticination of a bloody conflict between the North and the South has already destroyed confidence in the United States government stocks and many of the State securities, and millions have, within a few months, been sent home for a market in consequence. It is only by concession on the part of the Northern States, and a compromise

which would secure the best feelings of the border States toward the North and West, that we can reinstate our credit abroad."

THE BUENT MAILS .- The Postmaster of Philadelphia states that in addition to the information unofficially published in the papers of the 22d ult, relative to the burning of the mail on the Pennsylvanis Central Railroad, on the night of the 20th of March, it has been ascertained that one pouch was destined for New York, five for Washington, D. C., four for Baltimore, six for Harrisburg, and sixteen for Philadelphia delivery and distribution. Of those intended for Philadelphia, 12 poudbes were received at Pittsburg and by the way, Red

were received at Pittsburg and by the way, one from Johnstown, one from Hollidaysburg, one from Altoona and one from Tyrone. ANOTHER COBBUPT LEGISLATURE. - The Chi-The Bank Committee of the Senate has re-

ago Democrat (Republican) says it has found but one sentiment respecting the Black Repub-lican Legislature of Illinois, and that is that ported a bill empowering the Banks to issue small notes of the denominations of one, two it is the most corrupt body of men that even and three dollars, to the amount of twenty per cent. of their capital, and to receive foreign assembled in that State. Wentworth knows. Corrupt as the Republican Legislature small notes at three quarters per cent. discount, to be returned for redemption. With the exof Illinois is, and we have no doubt of the ception perhaps of the Northern and Western truth of the Democrat's remarks, we are of tier of counties, where foreign shinplasters are opinion that the Republican Legislature of used in utter disregard of the law prohibiting Pennsylvania can fully come up to it in all their circulation in the State, this measure is

manner of corruption and rascality. WHAT THEY SAY OF CARL SCHURZ AT HOME .-This man Schurz is one of this class; he is literally a vagabond and an adventurer. During the few years in which he had claimed o be a citizen of Wisconsin. he has engaged

This is employed by Republican Committees to lecture in several States at a stipulated price for such State where these small notes are not services, and the obligation was cancelled when he received his money. He worked for pay, and he got his pay in money-ample and re-munerative for all his services, and he has no further claims upon our party; hence his appointment should now be only a question of Let the law he respected and enforced, and foreign small notes will be driven out of the State fitness for the place. He insults the religious sentiment of the country by sneeringly charentirely. It is only displacing one evil by another to exclude them by empowering our acterizing the Almighty as "that imaginary gentleman above the stars." He is, in fine, a banks to issue small bills. But it is not improbable that the Legislature may pass this bill. We would not undertake to say what it would

Ayer's Sarsaparilla

A compound remedy, in which we have is-bored to produce the most effectual alterative that can be made. It is a concentrated entrated of Para Sarseparilla, so combined with other substances of still greater alterative power as to afford an effective antidots for the discusse to afford an effective antidots for the disease. Barsaparilla is reputed to cure: It is believed that such a ready is wanted by those who suffer from Strumous complaints, and that one which will accomplian their cure must prove-of immense service to this large class of our : afflicted fellow-citizens. How complexity this compound will do it has been proves by exper-iment on many of the worst cases to be found of the following complexity in a

REUPTIONS AND REUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TURORS, BALT RHEUN, SCALD HEAD, STPHILIS AND SYPHILITIC AF-FECTIONS, MERCURIAL DISBASE, DEOPSY, NEU-BALGIA OR TIC DOULOUREUX, DESILITY, DYS-PERSIA AND INDIGESTION, ERTSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole -class of complaints arising from Dervarry or

This compound will be found a great pro-moter of health, when taken in the pring, to expel the foul humors which fester in the blood at that season of the year. By the timeexpert the four hundre winth takes in the blood at that season of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous... sores, through which the system will strive to id itself of corruptions, if not assisted to do this through the natural channels of the body. by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find its is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where ho particular disorder is felt, people enjoy better health, and live blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick. for rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend. to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intend-ed to cure. In order to secure their completeeradication from the system, the remedy should be judiciously taken according to directions on

the bottle. PREPARED BY DR. J. C. AYER & CO.

Ayer's Cherry Pectoral,

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been em-ployed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the bast it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

THREATENED NULLIFICATION AT THE NORTH--The New York Commercial, at one time a staid old Whig journal, but now intensely Republican, earnestly calls for an extra ses sion of Congress to repeal the Morrill "wood screw" tariff law. It hints that if not repealed, nullification may be resorted to at the North.

Here is the language: "The people of the North are undoubtedly a law abiding people, and they will obey much rather than evade or defy the laws. But their commerce is their first interest, and if a high scale of import duties is enforced at their ports, while importations are admitted free or with a comparatively nominal duty at the South, there is grave reason to fear that one of two temptations will be vielded to-either the law will be evaded, and systematic smuggling will be resorted to, or the laws will be set at that the recently large emigration from Spain defiance.

ACQUITTAL OF A WIFE FOR THE POISONING OF HER HUSBAND.—The trial of a young wife for poisoning an old husband, has just been con-cluded in Delaware county, N. Y. and resulted in a verdict of aquittal. Mrs. Herrington is handsome, and was married to James Herrington in July, 1859, when under sixteen years of age, while her husband was thirty six. She claimed that she was deceived by Herrington, he having represented himself as rich, which proved to be false. She bought a tablespoonful of arsenic, as she said to poison rats, and soon after her husband was taken sick and died. A post mortem examination proved that arsenic enough was found in his iscera to kill two men. But then it was shown that he had been in the habit of taking arsenic She had corresponded with a young man named Hall, calling him "dear friend," and asking him to lend her money. Her case excited much sympathy, and her acquittal was applauded and cheered, in the wildest and most excited manner, by an immense crowd of spectators.

MASSACHUSETTS PREPABING FOR WAR .--- We perceive, by a report presented to the House of Representatives, that Massachusetts has been preparing for civil war on a large scale. The contracts made for the equipment of troops for active service include two thousand knansacks and two hundred thousand ball cartrid-

ges, and an appropriation of \$25,000 has been made by the Commonwealth to defray the expenses of putting the State troops on a war footing. It would have been well for the country if Massachusetts had been as ready with her troops duting the war of 1812-14---when she refused to allow them to leave the State-as she has shown herself in the present instance.-N. All who are sumering from Astimus, Scrouls and im-parities of the Blood should use the Miskora Arabics, dis-covered by a missionary in Arabia. It cures Consumption. It cures Bore Throat, Coughs and Coids. It cures Bore Throat, Coughs and Coids. It cures Astima, Scrouls, and Impurities of the Blood. This unequalled remedy is now for the first time intro-duced to the public. If was providentially discovered by a missionary while traveling in Arabia. He was cured of Consumption by its use after his case was pronounced hopeless by learned physicians in Europe. He has forwarded to us in writing, a full account of his own extraordinary cure, and of a number of other cures which have come under his observation, and size a full ac-count of the medicine. At his request, and impelled by a desire to extend a knowledge of this remedy to the public, we have had his communication printed in pamphlet form for free distri-bution. Its interest is enhanced by an account which he gives of conis of the scenes of Syrian massacres, which he obtained from those who suffered in that awful trajedy.
