FROM WASHINGTON. Gen. James Watson Webb, of New York, has een appointed envoy extraordinary and minnipotentiary to Brazil.

The revenue laws require vessels entering port with informal papers to be seized, but inasmuch as those coming from the South, where the Custom Houses are in the possession of insurrectionary parties, cannot obtain the proper clearances, the Secretary of the Treasury, with the view of remedying the embarent and trouble under these circumstances has decided that in all cases where it appears that there was no fault on the part of the commanders, the latter shall not be compelled to go into court, but on the correct representa tion of the collectors where the vessels errive the fines and fees which the law imposes shall be remitted.

WASHINGTON'S VIEWS ON DISUNION AND REBELLION. In Irving's "Life of Washington" we find the following extract from one of his letters: "We are either a united people under one head and for federal purposes, or thirteen sovereignties, eternally counteracting each other. If the former, whatever such a majority of the states as the constitution points out conceives to be for the benefit of the whole, should, in my humble opinion, be submitted to by the minority. I can foresee no evil greater than disunion, than those unseasonable jealousies which are continually poisoning our minds, and filling them with In another letter to Jay he says: "We have probably had too good an opinion of human nature in forming our confederation. In a letter to General Knox he writes: "I feel, my dear General Knox, infinitely more than I can express to you for the disor ders which have arisen in these states. Good God. who, besides a tory, could have foreseen, or a Briton predicted them? I do assure you that, even at this moment, when I reflect upon the present prospect of our affairs, it seems to me to be like a vision or a dream. After what I have seen, or, raather what I have heard, I shall be surprised at nothing, for if three years since any person had told me that there would have been such a formid able rebellion as exists at this day against the laws and Constitution of our own making, I should have thought him a Bedlamite, a fit subject for a madhouse." How applicable these words to the people of South Carolina and other seceding states at the present time.

MISSOURI TROOPS REFUSE TO DISBAND-Attempt to Poison Troops.—The St. Louis Democrat of the 24th ult. says:—Reports from Jefferson City of that date state that the Missouri troops organized under the requisition of Gov. Jackson have refused to disband, according to the terms of agreement between Gen. Harney and Gen. Price. It is alleged that great dissatisfaction is expressed by the secessionists at the arrangement alluded to.— The same paper states that considerable excitement prevails at Jefferson City in consequence of the discovery of an attempt to poison the Federal troops by putting arsenic in the flour from which their bread is made. It appears that a Union man is baker to the troops, and a secessionist, in order to effect his destruction, had made an arrangement with a negress to poison the bread. A proposition was made to hang him, but it was overruled.

The N. H. Democrat truly says that "the Democratic party is for the Union, the Constitution, and the enforcement of the South by this route will be stopped on Monday laws. We comprehend the fact that President next. Lincoln has taken an oath of office to do the same thing; and we recognise our clear duty to support him and his administration in doing this. About half the members of the Republican party agree with us in this. > FAITHFUL MINISTERS OF HEALTH .- In examining the vessels at the various wharves we find among the curiosities of our commerce C. Aver & Co., of Lowell. So particular are this firm as to the articles used in compound ing their various remedies, that they have this drug, like some others they consume, gathered for them by a skilful agent of their own in the tropical regions of its growth. He informs us that there are many species of this plant, but two of which are really valuable in medicine; the qualities of these are also affected by the time of gathering, mode of curing, etc., operations which in that region of unreliable workmen imposes a heavy labor upon him. One of the inert varieties of Sarsaparilla grows wild in our own forests, while several others, nearly worthless, abound in Central and South America. The intel-ligent agent assured us that the virtues of this drug had never been fully told, and that the reason of the low esteem in which many hold it is mainly due to the importation of such immense quantities of the worthless varieties. His accounts of his trips to Honduras and his business excursions along the Gulf of Dulce and the rivers of Montagua and Santiago and among the adjacent mountains were of intense interest. mend and honor his employers for the faith fulness and energy with which they executed their trust as ministers to the public health, aud we suspect that this course is at least one of the reasons why their medicines are held in such extraordinary favor throughout

One of the most amusing farces ever nacted was that of the members of the Legislature of this State forming themselves into a volunteer company and tendering their services to the Governor. market for 1861. McOORMICK'S WORLD-RENOWNED
REAPER AND MOWER. Simplicity, strength, durability,
with ease of working, are its cardinal points. It cuts
wider, cannot be choked or clogged, is light draught, has
no perceptible side pressure, does not chafe the horses'
necks, is easy to rake from, turns square corners, and as a
Reaper, as a Mower, and as both, is warranted superfor
to any now in use. We present, therefore, for the coming
season a machine one foot wider than those of most makers, with a light draught for two horses, in reaping and
mowing—lighter than is required for much narrower
machines; also, one with the strength and capacity for
four horses, where such are desired. The machine of 1861
embodies marked improvements.

All machines warranted to work well in grass and grain,
to be well made and durable, and in addition we say that
farmers, who may desire it, are at liberty to work our machine through the harvest with any other, and keep and
pay for the one preferred. We deem it unnecessary to give
any references, as the machine will recommend itself.—

BEAUTY WITHOUT PAINT Dr. F. W. Boswell's Beautifier. POR REMOVING

TAN, PIMPLES AND FRECKLES, And imparting a permanent Broom to the Compar-tion. It renders rouge, vermillion, pink-saucers and all other coloring material for the face, wholly superfluous. It supersedes entirely all such dele-terious mixtures. It is the most astonishing Regenerator of the Natural Hue of the cheeks, and health to the complexion ever presented to the world.

This BEAUTIFIER is just what its name imports.
It is another of the extraordinary developments of chemical electric affinity, and operates like magic in

Making the Homeliest Face Handsome, curing by degrees all the blots and discolorations of the cuticle which so often disfigure the most regularly constructed visage. It imparts at the same time that permanent Bloom to the Complexion.

is only the result of the skin's excellent and of the perfect restoration of its natu It thoroughly and immediately cores Tan, Freckles, Sunburn, Blotches, Pimples Scurf, Skin-Worms, Moth and Small-Pox Marks.

Indeed, its effect in such cases is almost miracu-lous. Its anti-inflammatory nature is irresistible. It softens, southes, caims, neutralizes the irrita-ting principle, and restores the health of the part affected; imparts a brilliant bloom to the check and lips; it produces a tint only excelled by nature itself, without the possibility of detection. Freckles are at once Obliterated: Pimples disappear as if under the operation of a spell. POCK-MARKS MADE OUT in a manner scarceby to be credited even by those who witness their
gradual extinction. In short, the BEAUTIFIER is
placed before the world for just what its inherent
and unexampled medical properties warrant: not

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilia, and also a dangerous Malignant Erysipelas by large doses of the same; says he cures the common-Erysims by it constantly.

Leucorrhea or Whites, Ovarian Tumor,

Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Fenale Disease; of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the ulcrux. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala, writes; "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After faither your remedy elect weaker. Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Orleans, 25th August, 1859.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Syphilitic ulcars in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day alse suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Rheumatism, Gout. Liver Complaint. INDEPENDENCE, Preston Co. Va., 6th July, 1859.
Dr. J. C. Ayer: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Saraparilla. One bottle curod me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM. attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been silicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. My beloved pustor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Carles and Exfoliation of A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fitz, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitts, Incipient Con-sumption, and for the Relief nsumptive

of Consumptive Patients
in advanced Stages
of the Disease.

This is a remedy so universally known to surpass any
other for the cure of throat and lung complaints, that it
is useless here to publish the evidence of its virtues. Its
unrivalled excellence for coughs and colds, and its truly
wonderful cures of pulmonary disease, have made it
known throughout the civilized nations of the earth.
Few are the communities, or even families, among them
who have not some personal experience of its effects—
some living trophy in their midst of its victory over the
subtle and dangerous disorders of the throat and lungs.
As all know the dreadful fatality of these disorders, and
as they know, too, the effects of this remedy, we need not
do more than to assure them that it has now all the virtues that it did have when making the cures which have do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
