A DOLOGIEING FOR TREASON. The Independent Democrat thus seeks to creen and apologize for the infamous treason of one of the pets of its party and of the administration : "The examination of the telegrams recently

seized by the Government has revealed some nformation given to the rebels by James E. Harvey, recently appointed Minister to Portu-The exact nature of it does not appear; but it seems that he gave information to the outh Carolina authorities, as to the sailing of the fleet to reinforce Fort Sumter. His friends state that Mr. Magrath, to whom he sent the disnatch, had been his friend from boyhood, and a constant correspondent with whom he municated unreservedly. Being very desirous that a conflict should be avoided, and believing that the troops were to be removed, he telegraphed to his friend to prevent the attack on Fort Sumter until it could be effected. But when he found his mistake, he felt bound in honor to communicate that fact."

Thus party continues to be above country, in the minds of these abolition editors Treason is apologized for and defended because the traitor belongs to their party. And what apologies! The dispatch was sent the Secretary of State of South Carolina; it gave the first information the rebels had of the intention of the Government to attempt to relieve Fort Sumter, and there is no doubt that it precipitated the attack upon the Fort. It was sent after Harvey had received his appointment, but it is stated that when appointed he was known to be in confidential correspondence with the rebels, affording them aid and comfort by giving mem information which his confidential relations with the Administration enabled him to obtain ! Yet, in the face of all this, he was appointed to an honorable position, where he may even now be laboring in the service of the rebels. And yet we se republican papers laboring to screen him from punishment and disgrace and apologizing for his gross and palpable treason ! And all this because he is one of their party. Shame on such conduct.

But Harvey's treason is natural. He believed in the right of secession. He was one of the Tribune writers, and of course believed what that paper preached-the right of the rebels to secede. And being at heart a dis unionist, and believing as the Tribune preach

FROM WASHINGTON.

WASHINGTON, June 21.

All was quiet on the Virginia side of the Potomac last night, with the exception only that the stillness of the country was occasion ally disturbed by the signal firing of pickets At the Army headquarters in this city this morning all is calm, affording a striking con trast to the active business operations of yesterday.

Throughout last night and this morning the many Government teamsters have been en-gaged in hauling the necessary supplies for oops and the baggage of the constantly arriving military.

The thermometer is 102° in the sun at 12 o'clock to-day. The treacherous rebels are still active in this

vicinity. During last night an attempt to blow up the Long Bridge was discovered by our troops. On the discovery a boat load of rebels were

captured. They had several kegs of powder with them, which were also seized. One of the rebels was killed. Everything appears quiet across the Potomac upon every consideration.

This is

reference to the purposes and ends for which the year should be waged. The Democracy, with no enmittles against the South, and with no desire to interfere with the institution of slavary one way or the other, are in favor of prosecuting the war to the sole and single end of up-holding the authority of the Rederal Union and of putting down armed rebellion in the South, with a view to are union, if possible, of the whole country under the Constitution, without any essential change of its provisions. The ultraists of the Republican party, animated with feelings of hostility to the South and a desire to overthrow the institution of slavery, care less about the restoration of the authority of the Constitution and the Union, than they do for the abolition of the negro system of servitude. This difference in sentiment will involve, as events pro-gress, a disagreement as to the mode of prosecuting the war, and the terms upon which a reconciliation onght to be effected, after armed resistance to the Rederal authority shallhave been foreibly put down. Federal authority shall have been forcibly put down. The Democracy hold, that while the Federal Govern-

In this view of affairs, it becomes the imperative durts of the Democracy to stand by their distinctive verdict in a manner both unmistakeable and satisfactory. We have a Union to save as well as a government to pro-tect, and the wisdom and patriotism of the Democ-racy will, sconer or later, be called into requisition in the accomplishment of both branches of this great work. From Dr. J. G. Green, of Chicago. From Dr. J. G. Green, of Chicago. Your Fills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their altorative effect upon the liver makes them au excellent remedy, when given in small does for billous dysentery and diarrhear. Their sugar-coating makes them yory acceptable and convenient for the use of women and children.

Dyspepsia, impurity of the Hood. From Rev. J. V. Hints, hutor of Advent Church, Boston. DR. Too much cannot be said of your Pills for the cure of costineness. If others of our fraternity have found them as effications as 1 have, they should join me in prochain-ing it for the benefit of the multitudes who suffer from that complaint, which, although bail enough in itself, is the progenitor of others that are worse. I beliave eas-tiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston. From airs, E. Shart, Physician and Midwife, Bostm. I find one or two large dozes of your Fulls, taken at the proper time, are excellent promotives of the natural scare-tor when wholy or partially suppressed, and also very effectual to cleanse the stomach and explet worms. They are so much the best physic we have that I recommend no other to my patients.

this caption the Philadelphia North American thus treats of the affair at Vienna: It is not a little irritating to find that our troops in Virginia have fallen into another of those assassin planned traps in which the chiv alry of secession rejoice. After the folly and disaster at Bethel, it is amazing that any commander should venture on untried ground, with four or five companies in a position so helpless as that of being packed in cars, and being drawn slowly through deep cuts of a railroad, in a country occupied by traitors.— The great antecedent folly of giving the rebels e guns and all the ammunition gathered at Norfolk should have sufficed of itself. That was calamity enough for one war, but it seems that as a sort of corollary of that most favorable proposition, our small commanders now arrange the bodies of troops sent out so as to offer unresisting targets to these same guns. And when fired on by a masked battery, there Republicans carry out their doctrine of "no seems to be no effort made to get out of the way, still less to take the battery. The troops at Memphis were much in want of arms-whole companies being unarmed. The same paper has information that Southern Kentucky will soon secede, and General Pillow will then move to support them.

It also states that in Monros county, Arkannear Helena, several negroes were arrested lately for an attempted insurrection, and on Tuesday last three were hung. According to their plot all the white males were to have been murdered, but the females and children spared.

One hundred and eighty persons were saved in the boats and landed at Cape Bauld. From twenty to thirty lives were lost, including six passengers, but as the ship's papers cabin went down with her, it is impossible to ascertain the exact number drowned. A portion of the mails were saved. Among the were the mail officer and the drowned, second officer of the steamer. The pending struggle is not less for the missitonance of a United Country than for the Perpetuation of Demo-cratic Principles, as expounded by Jefferson and Jackson. The most momentous results hang upon the issue. Mare party questions are for the time by common consent ad-journed. The part is dead, save in its lessons of experience.
