FIFTY-FIFTH VOLUME.
LOUIS GAYLORD CLARK, DR. JAMES O. NOYES,
EDITORS.
The present number closes the fifty-fourth volume of
the KRICKERBOOKER, and while we thank our patrons for the KNICKRENOCKER, and while we thank our patrons for their past favors, we shall strive to increase their number by redoubled care and effort in every department of the Magazine. We expect in our next number to be able to announce a series of articles on Popular Astronomy, by the most distinguished writer upon that science in the land. 'Stories and Pictures' of the Hudson will be completed during the year, and the two volumes will contain the best sketches, tales, poems, etc., that can be procured for the entertainment of our readers.

In order to increase the aiready large circulation of the KNUKERSOCKER, we publish this mouth a splendid line engraving of Frith's picture of 'Merry-Making in the Olden Time,' which we shall present exclusively to the 3 subscribers to the Magazine for 1860, whether old or new. The subject represents the pastimes of our ancestors, and is eminently of a genial, domestic character. The plate, engraved in England at an expense of 2000 dollars, is entirely new, measures twenty-five by nineteen and a half inches in size, contains thirty-nine figures, and is beyond comparison the finest work of the kind ever offered as a premium in this country.

comparison the finest work of the kind ever offered as a premium in this country.

'The engraving of Frith's picture of Merry-Making in the Olden Time, represents the humors of an English holiday in the county in those good old times when the men were cocked-hats and knee-breeches, and the women stays and hoops—a costume not essentially differing from the corset and crinoline of the present day. Almost in the entre of the picture and a little to the back-ground is a country dance on the green, with a hard-featured fiddler perched or a high seat, and another musician in a tie-wig standing by him, playing with all their might. On the right two bouncing girls are gally pulling toward the dance a gray-haired man, who seems vainly to remonstrate that his 'dancing days are over,' while a waggish little child pushes him forward from behind, greatly to the amusement of his spouse, who is still sitting at the tea-table, from which he has been dragged. On the left, under a magnificent spreading oak, sit the 'squire and his wife, whom a countryman with his hat off is respectfully inviting to take part in the dance. To the left of the 'squire is a young couple on the grass, to whom a gipsy with an infant on her uple on the grass, to whom a gipsy with an infant on he couple on the grass, to whom a gipsy with an innation feel shoulder is telling their fortune. Over the shoulders of this couple is seen a group engaged in quoti-playing, and qack of the whole is a landscape of gentle slopes and sopses. The picture has the expression of gayety through out and the engraving is splendfully executed. It is frest from the burin of Holl, not having yet been published in Farmand 1.

COMMENDATIONS:
From Hon. LEWIS D. CAMPENL, M. C., Ohio.
My family and friends all concur in the opinion that the (Newell) Picture is more life-like than any thing they ever saw. My likeness has been repeatedly taken by different Artists in various ways, but I have never yet had one which presents so true to nature, all the features and expressions of countenance as this.

From Hon. E. Jon 25 From Hon. E. Jor Morris, late Minister to Italy.

The exquisite finish, beauty and softness of your portraits, conjoined with their durability of color and faithfulness as likenesses, cannot fail to commend them to the attention and patronage of all who appreciate true art.

From Co. James Page.

Having occasion for ap portrait, I procured one from Mr. Robert Newell, of the City of Philadelphia, a miniature in Oil Colors, under the new process discovered by him, and take great pleasure in expressing the satisfaction given me, not only by the accuracy of the likeness, but its artistic finish in all respects, and recommend him to the patronage of those disposed to encourage the beautiful art. nov 27 by 4 ]

WHITENAOK'S IMPROVED NEW JERSEY MOWER AND REAPER, WITH DORSEY'S SELY-AUTING.

The Mannfacturers of this Machine have the best reason for believing that it is the best Reaper in use. The advantages claimed for DORSEY'S SELY-AUTING RAKE on the JERSEY REAPER, are these: It is of lighter draught than any other meschine known. It is extremely simple in construction; compact and durable. The driver sits on the bores next the great side of the operation and avaid all obstructions. It dispenses with the Real entirely; the Revolving Arms serving a far better purpose, githering the grain gently to the sutters. When sufficient straw has been set to form a proper suspended, the Reke, in an eavy grandful manney removes When summinest straw has been sut to awa a proper suised sheef, the Rake, it an eary, graceful manner removes it from the platform, by side delivery, leaving the track perfectly clear, so that an entire field may be cut, if desired, before binding a single sheat. No straw will be found scattered between the cheaves. The thraves are delivered with regularity. Their compact and neat appearance can not be equalled by any hand-rakes, from reaping machine or cradle swaths.

with regularity. Their compact and ness appearance that not be equalled by any hand-raker, from reaping machine or cradle swaths.

The Rake can be adjusted to suit heavy or light grain, farming large or small sheaves, as desired. Binders prefer working after this machine; and farmers can dispense with one or more binders by using it, simply, because the gavels are laid in better condition, and this laborious operation of binding; rendered far less latiguing by the regularity with which the sheaves are formed. The Rake takes off either tangled or straight grain, leaving the butts even and square. The weight of the rake is the same as that of an ordinary reel, requiring no more power; to work, it; and by dispensing with the weight of the hand-raker, it is evident less power is required to drive the machine. By the substitution of the Rake, the labor, wages and board of a man are saved, to say nothing of the extra power requisite to draw him over the ground, especially when he is located near the grain side, thus greatly increasing side draught. The Machine is perfectly balanced, leaving no more weight on the horse necks than is necessary to keep the tongue down. The Mowing arrangement operates—in all kinds of grass in the most eatifactory manner, with an improved Lever for Raising and Lowering, while in motion.

We are kindly permitted to refer to the undersigned, who have given us written recommendations, but want of space prevents us from giving them in full. Read the following.

The LORD'S PRAYER

We have carefully examined this engraving, offered for sale in this community by Messrs. Austin Z Wehrly, and do not hesitate to pronounce it one of the fluest works of American Art we have ever seen. The design is beautiful, the style of execution is superior, and the illustrations are excellent. Its appearance will at once secure for it the admiration of a refined community, and recommend it to the Christian public. It is highly ornamental, and is calculated to exert a refining influence in a family, and an elevating and purifying effect upon the morals and religion of society, and it should meet, as we understaind it deserves, with a rapid and extensive sale.
