The present number closes the fifty-fourth volume of the KMICKEBOGKER, and while we thank our patrons for their past favors, we shall strive to increase their number by redoubled care and effort in every department of the Magazine. We expect in our next number to be able to announce a series of articles on Popular Astronomy, by the most distinguished writer upon that science in the land. 'Stories and Pictures' of the Hudson will be completed during the year, and the two volumes will contain the best sketches, tales, poems, etc., that can be procured for the entertainment of our readers.

In order to increase the already large circulation of the KHICKEROCKER, we publish this month a splendid line engraving of Frith's picture of 'Merry-Making in the Oldon Time,' which we shall present exclusively to the \$3 subscribers to the Magazine for 1850, whether old or new. The subject represents the pastimes of our ancestors, and is eminently of a genial, domestic character. The plate, engraved in England at an expense of 2000 dollars, is entirely new, measures twenty-five by nineteen and a half inches in size, contains thirty-nine figures, and is beyond comparison the finest work of the kind ever offered as a premium in this country.

\$ 4,272 85 inches in size, contains thirty-nine figures, and is beyond comparison the finest work of the kind ever offered as a premium in this country.

'The engraving of Frith's picture of Merry-Making in the Olden Time, represents the humors of an English holiday in the country in those good old times when the men wore cocked-hats and knee breeches, and the women stays and hoops—a costume not essentially differing from the cornet and erincline of the present day. Almost in the sentre of the picture and a little to the back-ground is a country dance on the green, with a hard-featured fiddler perched on a high seat, and another musician in a tie-wig standing by him, playing with all their might. On the right two bouncing girls are gaily pulling toward the dance a gray-haired man, who seems vailly to remonstrate that his dancing days are over, while a waggish little child pushes him forward from bedfind, greatly to the amusement of his spouse, who is still eiting at the tea-table, from which he has been dragged. On the left, under a magnifient spreading oak, it the 'squire and his wife, whom a countryman with his hat off is respectfully inviting to take part in the dance. To the left of the 'squire is a young souple on the grass, to whom a gipsy with an infant on her shoulder is seen a group engaged in quolt-playing, and qack' of this whole is a landscape of gentle slopes and copses. The picture has the expression of gayety throughout and the pugitaving is spiendfully executed. It is fresh from the born of Holt, not having yet been published in England." TARD TIMES MADE RASE: | TO FARMERS: WHITENACK'S IMPROVED NEW JERSEY MOWER-AND REAPER, WITH DORSEY'S SELF-ACTING RAKE.

The Manufacturers of this Machine have the best reason

The Manufacturers of this Machine have the best reason for believing that it is the best Reaper in use. The advantages claimed for DORSEYS SELF-ACTING RAKE on the JERSEY REAPER, are these: It is of lighter draught than any other machine known. It is extremely simple in construction; compact and durable. The driver sits on the horse next the grain side, where he can have full view of the operation and avoid all obstructions. It dispenses with the Real entirely; the Revolving Armi serving a far better purpose, gathering the grain gantly to the cutters. When sufficient straw has been cut to form a proper seized sheat, the Rake, in an easy, graceful manner removes? It from the platform, by side delivery, leaving the track perfectly clear, so that an entire field may be out, if desired, before binding a single sheat. No straw will be found scattered between the sheaves. The sheaves are delivered with regularity. Their compact and neat appearance cannot be equalled by any hand-raker, from reaping machine or cradle swaths. legistics of any serior of the switches of light grain.

Rake can be adjusted to suit heavy or light grain.

Binders preferences. The mark can be adjusted to suit neary or light grain, forming large or small sheares, as desirted. Binders prefer working after this machine; and farmers can dispense with one or more binders by using it, simply because the gavels are laid in better condition, and this laborious operation of binding rendered far less fatiguing by the regularity with which the sheaves are formed. The Rake takes off

with which the sheaves are formed. The Rake takes off either tangled or straight grain, leaving the butts even and square. The weight of the rake is the same as that of an ordinary reel, requiring no more power to work it; and by dispensing with the weight of the hand raker, it is erident less power is required to drive the machine. By the substitution of the Rake, the labor, wages and board of a man are saved, to say nothing of the extrapower requisite to draw him over the ground, especially when he is located near the grain side, thus greatly increasing side draught. The Machine is perfectly balanced, leaving no more weight on the horse necks than is necessary to keep the tongue down. The Mowing arrangement operates in all kinds of grass in the most satisfactory manner, with an Improved Lever for Raising and Lowering, while in motion. At his request, and impelled by a desire to extend a knowledge of this remedy to the public, we have had his communication printed in pamphlet form for free distribution. PROF. L. MILLER'S HAIR INVIGORA- ONLY ONE DOLLAR EACH 0,000 BEAUTIFUL STEEL PLATE ENGRAVINGS OF THE LORD'S PRAYER FOR SALE! VALUABLE PROPERTY GIVEN AWAY

The idea of representing the LORD'S FRAYER by an engraving, and ornamenting it and arranging it in such a manner as to produce at once a model of meatness and tasts, was conceived and carried out by LEMBY, the celebrated Bank Note Engraver, of New York city. It commences with exquisitalty exactized works of OUE PATHER, and then follow in uncessfor the other parts of the Prayer, every phrase of which is engraved in the most elegant and tasteful manner. Nearthe bottom of the picture is a superbly executed head of OUE SATHUR, and andirelling the upper part of the engraving are ten angels, each bearing one of the TR N C 0 M M A N D M E N T S.

The engraving has received the most unqualified praise from the religious community, as there is nothing of a sectiatian character about it, inving been recommended by Clergymen of all denominations. As an ornament it is one of the most splendid ever published in this country, and is destined to take the place of a pooter class of engraving. The size of the plate is 20123 inchest and is unquestionably the cheapest engraving ever offered in this country.

Who that loves Art—who that delights to study a fine lengraving—who that would receive the impressions which such a work is calculated to impart, would fall to secure a copy when the price is only ONE DOLLAR, with the chance of securing for that sum in addition, a permanent home or another valuable gift?

As a work of art this valuable and beautiful engraving is worth more than the dollar asked for it, as will readily be acknowledged on an inspection of it; but the subscribers int-nd to make x Gift Distribution to purchaser of the engraving, of valuable presents as follows:

THELORD'S PRAYER

We have carefully examined this engraving, offered for sale in this community by Messrs. Austin & Wohrly, and do not hesitate to pronounce it one of the finest works of American Art we have ever seen. The design is beautiful, the style of execution is superior, and the iliustrations are excellent. Its appearance will at once secure for it the admiration of a refined community, and recommend it to the Obristian public. It is highly ornamental, and is calculated to exert a refining influence in a family, and an elevating and purifying effect upon the morals and religion of society, and it should meet, as we understand it deserves, with a rapid and extensive sale.

An aperient and stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen, of high medical authority and extraordinary efficacy in each of the following complaints, viz.:

DEBILITY, NERVOUS AFFECTIONS, EMACUATION, DYSPERSIA, DIABREHRA, CONSTI-

DERILITY, MERVOUS AFFECTIONS, EMACIATION, SCROFULA, SALT RHEUM, SCURVY,
JAUNDICE, LIVER COMPLAINTS RHEUMATISM, MERCURIAL CONSEQUENCES, INTERMITTENT FEVERS, NEURALGIA, CHRONIC
HEADACHES, FEMALE WRAKNESS, MISMENSTRUATION, WHITES, CHLOROSIS, etc.,
PIMPLES ON THE FACE, ROUGHNESS OF
THE SKIN, etc.
The IRON being absorbed by the blood, and
thus circulating through the whole system, no
part of the body can escape their truly wonderful influence.
The experience of thousands daily proves that
no preparation of Iron can for a moment be
compared with it. Impurities of the blood, depression of vital energy pale and otherwise
sickly complexions indicate its necessity in almost every conceivable case. In all cases of
female debility (fluor albus, chlorosis, etc.), its
effects are delightfully renovating. No remedy
has ever been discovered, in the whole history
of medicine, which exerts such prompt, happy,
and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength,
with an unusual disposition for active and
cheerful exercise, immediately follow its use,
As a grand stomachic and general restorative
it has no superior and no substitute.

A STANDARD MEDICINE for the speedy, radical, and effectual cure of ALL DISEARCH ER, and IMPURITY OF THE BLOOD. This medicine has wrought: most miraculous cures In desperate cases of Scrofula, Cutaneous Diseases, Pimples on the Face, Old Stubborn Ulcers, Tetter Affections, Despensie Cancerous Formations Erysipelas, Boils, Sore Eyes, Scald Head, Rheumatic Disorders, Costiveness.

The above is a portrait of David McCreary, of Napler township, who, on the 31st day of August, 1858, made affidavit before Justice Gorley, that he was treated for the cure of Cancer by three physicians of Bedford county, and by Dr. Newton of the Eelectic College in Cincinnati, for a period of nearly eight months, notwistanding which, his lip, nose, and a portion of his left cheek were entirely eaten away! He had cived up all hope, when he heard of the "Blood Searcher," and was induced to try it. Four bottles cured him, and although sadly disfigured, there is no question but what this invaluable medicine saved his life. The full particulars of this remarkable case may be seen in a circular, which can be had of any of the Agents. We also refer to the case of Kaney Bleakney, of Elderton, Armstrong county, Pa., cured of Scrofula after being unable to get out of bed for three years.

To the case of George Meisel, residing in Carrolitown Cambria county, Pa., who was so badly afflicted with Cancer that it eat his entire nose off, and his case was worse, if possible, than McCreary's.

The particulars of these cases—every one of which was cured by the use of the Blood Searchor—may also be found in a circular to be had of any of the Agents.
