NICKERBOCKER MAGAZINE.
FIFTY-FIFTH VOLUME.
LOUIS GAYLORD CLARK, DR. JAMES O. NOYES,
EDITORS.
The present number closes the fifty-fourth volume of
the KNICKERBOCKER, and while we thank our patrons for the KNICKERSCCKE, and while we thank our patrons for their past favors, we shall strive to increase their number by redoubled care and effort in every department of the Magazine. We expect in our next number to be able to announce a series of articles on Popular Astronomy, by the most distinguished writer upon that science in the land. 'Stories and Pictures' of the Hudson will be completed during the year, and the two volumes will contain the best sketches, tales, poems, etc., that can be procured for the entertainment of our readers.

PREMIUM FOR 1860.

In order to increase the already large circulation of the KNGKERBOCKER, we publish this month a splendid line engraving of Prith's picture of Morry-Making in the Olden Time,' which we shall present exclusively to the \$3 aubscribers to the Magazine for 1860, whether old or new. The subject represents the pastimes of our ancestors, and is eminently of a genial, domestic character. The plate, is entirely new, measures twenty-five by nineteen and a half inches in size, contains thirty-nine figures, and is beyond comparison the finest work of the kind ever offered as a premium in this country. inches in size, contains thirty-nine figures, and is beyond comparison the finest work of the kind ever offered as a premium in this country.

'The engraving of Frith's picture of Merry-Making in the Olden Time, represents the humors of an English holiday in the county in those good old times when the men wore cocked hats and knee-breaches, and the women stays and hoops—a costume not essentially differing from the corset and crincoline of the present day. Almost in the senter of the picture and a little to the back-ground is a country dance on the green, with a hard-featured fiddler perched on a high seat, and another musician in a tie-wig standing by him, playing with all their might. On the right two bouncing girls are gaily pulling toward the dance a gray-haired man, who seems vanily to remonstrate that his 'dancingidays are over,' while a waggish little child pushes him forward from behind, greatly to the amusement of his sponse, who is still sitting at the teatable, from which he has been dragged. On the left, under a magnificent spreading oak, sit the squire and his wife, whom a countryman with his hat off is respectfully inviting to take part in the dance. To the left of the 'squire is a young couple on the grass, to whom a glapy with an infant on her shoulder's it elling their fortune. Over the shoulders of this couple is seen a group engaged in quoit-playing, and quack' of the whole is a landscape of gentle slopes and copes. The picture has the expression of gayety through-out and the engraving is splendidly executed. It is fresh out and the country is splendidly executed.

this couple is seen a group engaged in quoit-playing, and quck of the whole is a landscape of gentle slopes and copses. The picture has the expression of gayety throughout and the engraving is splendidly executed. It is fresh from the burin of Holl, not having yet been published in Ragiand.

My family and friends all concur in the opinion that the (Newell) Picture is more life-like than any thing they ever saw. The exquisite finish, beauty and softness of your portraits, conjoined with their durability of color and faithfulness as likenesses, cannot fall to commend them to the attention and patronage of all who appreciate true art. From Cot. JAMES PAGE.

Having occasion for a portrait, I procured one from Mr. Sobert Newell, of the City of Philadelphia, a miniature in all Colors, under the new process discovered by him, and also great pleasure in expressing the existinction given us, not only by the accuracy of the likeness, but its artistic finish is all respects; and recommend him to the paironage of those disposed to encourage the beautiful art. WHITEMACH'S IMPROVED NEW JERSKY MOWER AND REAFER, WITH DORREY'S SELF-ACTING BARE.

The Manufacturers of this Machine have the best reason for belleving that it is the best Reaper in use. The advantages claimed for DORSEY'S SELF-ACTING RAKE on the JERSKY REAPER, are these: It is of lighter draught than any other machine known. It is extramely simple in construction; compact and durable. The driver site son has horse next the grain side, where he can have full view of the operation and avoid all obstructions. It dispenses with the Real entirely; the Revolving Arms seeving a far better purpose, gathering the grain gently to the cutters. When sufficient extra whas been cut to form a proper seized abeat, the Rake, in an easy, graceful manner are mores. When sumcient straw has been one on early a proper seriod sheaf, the Rake, in an easy, graceful manner removes it from the platform, by side delivery, leaving the track perfectly clear, so that an entire field may be cut, if desired, before binding a single sheat. No straw will be found sattered between the sheaves. The sheaves are delivered with the straint and next supressess.

before binding a single sheat. No straw will be found scattered between the sheares. The sheaves are delivered with regularity. Their compact and next appearance cannot be equalled by any hand-raker, from reaping machine or cradle swaths.

The Rake can be adjusted to suit beavy, or light grain, forming large or small sheaves, as festired. Binders prefer working after this machine, and farmars can dispense with one or more binders by using it, simply because in gavels are laid in better condition, and this laborhous operation of binding rendered far less fatiguing by the regularity with which the sheaves are formed. The Rake takes off either tangled or straight grain, leaving the buttle even and square. The weight of the rake is the name as that of an ordinary reel, requiring no more power to work it; and by dispensing with the weight of the shand-raker, it evident less power is required to drive the machine. By the substitution of the Rake, the labor, wages and board of a man are saved, to say nothing of the errar power requisite to draw him over the ground, especially when he is located near the grain side, thus greatly increasing side draught. The Machine is perfectly balanced, leaving no more weight on the horse necks than is necessary to keep the tongue down. The Mowing arrangement operates in all kinds of grass in the most: satisfactory manner, with an Improved Lever for Raising and Lowering, while in motion.

It cures Boro Throat, Coughs and Colds.

It cures Soro Throat, Coughs and Impurities of the Blood.

This unequalled remedy is now for the first time introduced to the public.

It was providentially discovered by a missionary while traveling in Arabia. He was cured of Consumption by its use after his case was pronounced hopeless by learned physicians in Europe.

He has forwarded to us in writing, a full account of his own extraordinary cure, and of a number of other cures which have come under his observation, and also a full account of the medicine.

At his request, and impelled by a desire to extend a knowledge of this remedy to the public, we have had his communication printed in pamphlet form for free distribution. Its interest is enhanced by an account which he obtained from those who suffered in that awful tragedy.

This pamphlet may be obtained at our office, or it will be sent free by mail to all who apply for it.

We import the MAKORA ARABICA direct from Smyrua, through the house of Cleon & Gylippus, and we have always on hand a full supply put up in bottler ready for use with full directions.

A NDREW JACKSON'S REBIEDY

A Changing the subject, Dr. Edgar asked him what he would have done with Calhoun and other nullifiers if they had kept on.

"Hung them, sir, as high as Haman," was the instantaneous reply. "They should have been a terror to traitors to all time, and posterity would have pronounced it the best act of my life."

As he said these words, he half rose in his bed, and all the old fire glowed in his old oyes again.
