HIGH TAXES AND LOW WAGES The burdens of taxation are increasing, and the wages of working people are decreasing.
These facts will not be decied, and the result none can fortell. They throw over the turn a gloomy prospect, and provoke the enquiry

It will not be forgotten that our State Legislature appropriated \$3,500,000 for war purposes; besides legislating out of the State Treasury many millions more for the benefit of two soulless railroad companies. Then law was passed to increase the State laxes yearly two and one half mills, to pay the interest on the war loan; and another law was passed to authorize the County Com sioners and Associate Judges, to increase the County taxes to pay for the support of the families of absent volunteers. This additional tax programme is not for one year only, but for many years—with the certainty of a like increase heing made to the same annually as long as the war continues, and corrupt legislation is tolerated for the benefit of railroad speculators. Next we see Congress pass a tax bill providing for the raising of \$20,000, 000 as an additional revenue for defraying the expenses of the government. Pennsylvania's quota of the tax is \$1,946,719. A direct tax hall be laid on the value of all lands and lots of ground, with their improvements and dwelling houses, which several articles subject to taxation shall be enumerated and valued, by the respective assessors, at the rate each of them is worth in money on the first day April, eighteen hundred and sixty-two. tax of 3 per cent. per annum is to be laid or all yearly incomes of over \$800. Gold watches are to be taxed \$1; silver watches fifty cents Carriages are to be taxed from one to fifty dollars each, in accordance with their value. The tariff laws of the last session have also the tarin laws of the last segment have also been changed, providing an indirect tax upon the consumptions of life—that is, a duty or war tax has been fixed upon sugar, coffee, teas, molasses, spices, &c., &c., which will increase their price about one third. Of these articles the laboring man consumes as much as the President of the United States or as the millionare, consequently, under the operation of this new tariff, the laboring man who works for seventy-five cents a day must pay towards the support of Government, on these articles, just as much as the richest man in the land or else must deny himself the use of these articles which have become necessaries of life. and more so to the poor than to the rich. The laboring man who, in his family, consumes 100 pounds of coffee, 200 pounds of sugar, and ten pounds of tea in a year, will, under the operation of this tariff, pay towards the support of the Government, on these articles alone, a tax of from twelve to fifteen dollars per year, and at the same time, his wages must be reduced in consequence of the prostration of trade and scarcity of labor and employment. Is this the protection promised by the Repub lican leaders last fall? Is this the change for which so many of our laboring men induced to vote for Curtin and Lincoln? These are Republican "good times!"-this is the way they propose to restore the country back to the primitive days of its prosperity!—this is what the "Union Savers" were such fools for trying to prevent! May Heaven protect us from the ruin of Republican rulers .- Allentown Democrat.

OUR SHINPLASTER CURRENCY. The small notes, which the banks were allowed to issue by an act of the last Legisla-ture, is already beginning to monopolize our every day currency. Already gold is becoming scarce, and, in a little while, it will be totally invisible. Every weak institution in the State lost not a moment in getting these plasters out; and the effort to accomplish this has been so successful that, we repeat, we already see scarcely anything else. None of the banks which were instrumental

in obtaining this law, and breaking in upon what had been the policy of the State for about forty years, redeem a dollar of their paper issues in gold or silver. Their exclusive business appears to be to get as large an amount of their notes in circulation as possible, and to this end persons are employed by them as agents, and allowed a per centage to get rid of them in the best way they can. Most of Flour, Superfine, & beli... business drafts, either in whole or part, and "do" street paper at probably from one to one and a half per cent. a month !- Greensburg Democrat.

CONTEMPTIBLE. The Harrisburg Telegraph charges that some

of the Captains of three months' regiments received gold and silver to pay their men, but sold the specie and paid the men in country This is unutterably mean. This is the first time we have seen the above

or we should have given it a prompt denial before this. The whole thing is a gro hood for the purpose of shielding the Pay masters, who kept the men waiting in this city a week or ten days for their pay. Captain Donovan, and several other Captains, went to one of the Paymasters four days before they were paid off, and offered to pay their men and discharge them on duplicate rolls, if the Paymaster would reimburse them. This the Paymaster refused to do. There was not a single Captain of the three months' men drew the pay for his company. The Fifth regiment was paid in notes of the Middletown bank by one of the Paymasters, and the refusal of others to take them, when they were entitled to gold and silver, had undoubtedly something do with the delay, which was probably to coerce the men. Equally untrue is the state-ment that the delay was caused by imperfect muster rolls. Every roll in the Third regiment was ready by Saturday morning, yet they did not get their pay until the Tuesday following.—Patriot and Union.

WESTERN VIRGINIA CONVENTION. WHEELING, Aug. 7.—The State Convention assembled yesterday and to day. The first business transacted was the appointment of a business transacted was the appo committee on the division of the State. A resolution declaring that inasmuch as the Legislature has refused to divide the State, it was unwise at present to take action for that purpose, and proposing an ajournment, was tabled—ayes 39, nays 25. A resolution was reterred proposing

action being taken towards a division of the State. The measure will meet with strong opposition, but the friends of a division will probably have a majority, and they appear determined to push matters on the Chamber. Both houses were nearly deserted by the members, and several times during forenoon no quorum was present. At 12 o'clock, motions of adjournment were simultaneously made on both halls, and cheerfully The greater portion of the members started for their homes in the evening trains.

Discharged.—Watson, Denniston & Co. discharged forcy one miners last week. We understand that this firm will stop their furnace on the 1st of September, which will throw about a hundred more laborers out of employment. With no work to be had elsewhere, what is to become of these men, many of whom have large families depending upon them, during the present winter, Heaven alone knows.—Hollidaysburg Standard.

SPECIAL NOTICES. Ar Domestic Cabinet Mender.—It is one of the wonders of the age that such vast sums are expended in getting up apparently triffing articles; and another marvel that these are of so much utility. Large fortunes have been made out of matches, which are sold at the rate of one or two hundred for a penny. Somewhat similar, we are told, is to be the success of a recent invention for repairing all kinds of furniture,—"Spalding's Prepared Gine." It is plied on the instant, and if all that is said of it is true, dilapidated books, and indeed in all cases where glue is usually applied.—From the Observer, New York, August 18, 1859.

ARGOOD Looking People are generally possessed of good health, and a disordered condition of the system soon helrays itself. In the pallid and careworn countenance of the unhappy invalid. Dr. O. Phelps Brown's Acacian Balsam, is justly celebrated as the most successful remedy of this or any other age, in caring consumption, nervous disorders, complaints of the liver, heart, etc., and it not only imparts a new life and activity to every organ, but it also refuvenates the system, making the elderly look once more young and fair, and young more blooming than ever before. The invigorating properties of the Acacian Balsam are such, that while it stimulates every organ of the physical being to increased activity, it places each in possession of a renewed vital force sufficient to eject disease and eradicate every morbid taint which may be lurking in the system. It also ucreases the secretions, produces new and healthy flesh and blood, and consequently makes whole and hearty the entire being. It is a tonic alterative and diaphoretic, a stimulant without the faintest reaction. It does not simply remedy a local evil, but purifies and ejects every vestige of disease from the body. The Acacian Balsam is sold at \$2 per large bottle. It may be obtained of KAUFMAN & CO.

Who have also a small number of specimen bottles, price 25 cents, that all may have the opportunity of trial.

OATER 2 CO. Gents: I feel it my duty to seknowledge what your Sarisparilla has done far mekniedge what your sarisparilla has done far meknied in warions ways for years. Sometimes it burst out in Ulers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and earn with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from my thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cinciunati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonthi over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully.

Dr. J.B.S. Chauning, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Saraparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Finale Disease of the Scrotious diathesis. I have cured many inveterate cases of Leucerntean by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements." Edward S. Marrow, of Newbury, Ala., writes, "A danggrous overrian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Saraparilla. Our physician thought nothing but extirpaparilla. Our physician thought nothing but extirpaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Orleans, 25th August, 1859.

Dr. J. C. Aten: Sir, I cheerfully comply with the request of your agent, and report to you some of the effect. I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Syphilitic ulcers in his threat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had easten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day sho suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Dr. J. C. and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood
as to make a new man of me. I feel young again. The
