CALEB CUSHING ON THE WAR. Hon. Cales Cushing, of Newburyport, made the following eloquent and forcible remarks Mass., a few days since:

There is no man or woman who does not deplore civil war, but whatever may have been our antecedents, there is no uncertainty as to our ansected that there is no uncertainty as to the daty of every citizen of the United States. We are in formal war—war declared by the insurgents—war declared and accepted by the loyal government of the United States. In the eye of the law the duty which devolves upon the citizen is clear and unmistakable. It is to accept the Constitutional fact of the war. I know it as well as any other man, and from the secession of the Southern States, I have the secsion of the Southern States, I have abstained from sympathy, countenance and intercourse with them.

The second duty is an active duty. In time of war each subject owes to the government (who has the right to demand it of him) his body, his wealth and his thought; his body to defend the government, his means to sustain the government, his moral allegiance to sup-port the government and the constitution. I do not state these things more deeply than I feel them. Would to God that all would feel it their duty to support the Administration in this hour of trial. I opposed the President in the last election, and others of us did the same, honestly, openly, but from the part of us who would be supposed his political enemies came no such vituperation against the administration as I have seen in some of the leading journals of the party which elected him. I have been carried back by these malignant inuendos of inefficiency and other grave faults, to the days of the administration of Mr. Pierce. Now, much as I resisted the present administration as it was coming into power, I here declare, that whatsoever has been said of me, or thought of me to the contrary, I have from the 4th of March, 1861, sunk all opposition. And let me tell you on this 17th day of September, that but one thing remains to the United States, and that is to

conquer victory.

In such a time as this to talk of political parties is not the thing. Party now is but the dust in the balance, the foam on the wave, in comparison with Union and victory. When peace shall again revisit us, then, and not till then, will I criticize. When two hundred and fifty thousand of my fellowcitizens are in arms for the defence of the government and the country, I will not do it. We must have victory to insure respect from the South, to dictate proper terms of peace, and to stand up in the face of the world friendly. friendly or opposed, to have their profound regard. I have been called disunionist, secessionist and traitor; but I believe I can truly say that no man in Massachusetts has lost more and sacrificed more than I have in friends, certainly in political power. I speak of my party and for the moment the loss of Are any so absurd, so malicious, as to suppose that I would have made these sacrifices for nothing? I forgive them. I have for thirty years, from the time when I perlouds of the coming storm gathering in the North, and above all in the South, done all that I could in more than one party to avoid it for my country.

And let us now in this great temple of na-

ture, by the music of this sounding ocean, swear to be faithful to the government of the United States, and to restore the Constitution

## THE RAILROAD MASSACRE. REPORT OF A COMMITTEE -A BROKEN RAIL THE CAUSE OF THE ACCIDENT.

CINCINNATI, Sept. 25. A number of practical mechanics appointed by the Chamber of Commerce to examine into and report the cause of the late accident on the Ohio and Mississippi Railroad, whereby so many soldiers were killed, have examined the bridge that fell, and their unanimous report was presented and adopted this afternoon. They report, that after a careful examination of the bridge and others built at the same time and of the same materials, they have unanimously concluded that the accident was not occasioned by any insufficiency of timbers or iron work, but attribute the accident to a broken rail, found at the west end of the bridge. As the locomotive and one car passed over safely, the latter car, as appears from marks upon the timbers, misplaced the iron and cross ties, which threw the remainder of the cars from the track as they entered the bridge, thus precipitating them against the truss and cords, breaking it down, and not from any weakness or decay of the timber. Another committee of the practical men, appointed on the part of the Railroad Company, made substantially the

RELEASE OF STATE PRISONERS. James W. Wall, of Burlington, N. J.; Geo L. Bowne, of Cooperstown, N. Y., and Ke West, Florida; and Pierce Butler, of Phila-

delphia, were released last week from their confinement at Fort Lafayette. Mr. Wall and Bowne took the following "I do swear that I will support, protect and defend the Constitution and Government of the United States, against all enemies, whether domestic or foreign; and that I will bear true faith, allegiance and loyalty to the same, any ordinance, resolution or law of any State Convention or Legislature to the contrary

notwithstanding. And further, that I do this with a full determination, pledge and purpose, without any mental reservation or evasion No oath was tendered to Mr. Butler, but he signed the following pledge: Be it known, that I, Pierce Butler, have

given my solemn pledge that during the present troubles, I will do no act hostile to the United States, and will not visit South Carolina without a passport from the Secretary of

GEN. FREMONT'S DEFENCE. President Lincoln is in receipt of a communication from Gen. Fremont, replying at Corn, old length to the various charges made against It is said not to be satisfactory, but will be submitted to the next cabinet meeting, which will be held to-morrow, before any action is taken. In the event of Fremont's removal, a mass of documents on the subjec will be given to the public, among which will be the explanation of Gen. Fremont and the reports of P. G. Blair and Gen. Meigs. The troubles in Missouri are giving the President the gravest uneasiness. Should he continue Fremont in office until a great battle is lost and St. Louis is imperiled, the administration will be severely censured—but what can it do? A change of commander now would be equivalent to the loss of a battle, as one in Missouri who understands the whole field, or is aware of the disposition of the troops, while the enemy is to be met at once. Gen. Fremont may be a good leader in the field at any rate he will have a chance to try his skill.

The suppression of the St. Louis News, always a good Union paper, because it temcriticised Gen. Fremont's failure to relieve Lexington, is regarded here as a very arbitrary proceeding, to say the least,—From the New York World, of Friday.

THE FEMALE SECESSIONISTS.—Mrs. Phillips, her sister Miss Levy, and her two daughters, were released on Friday from confinement, at Washington. Mrs. Greenhow, Mrs. Hetzel and another lady are still in confinement. Mrs. Phillips and family were released through the intercession of Reverdy Johnson, Judge Wayne and the Hon. E. M. Stanton.

PHRACET TE LISCOLE The New York Evening Post takes sides with President Lincoln, in his quarrel with at the annual gathering on Salisbury Beach, the Pathfinder, and condemns the action of the latter, although the task is evidently a distasteful one. The Post, after reviewing the effect and necessity of martial law, says: "We presume it must be conceded that the

military commander of a district has authority to proclaim martial law simply on his own re-sponsibility or volition, or on his own conviction that it is expedient and necessary. Equally must it be granted that the President can annul such proclamation, if he sees fit. But we apprehend that it is usual for a subordinate in such grave matters to consult with his govern-ment or commander in chief, when it is possible for him to do it. It was in this case General Fremont committed a great error in not doing this, and it is an error that affect him in certain respects more than the error in the character of his proclamation. It was an assumption of authority and power, in an in-calculably grave matter, which was not war-ranted by any pressing necessities of the case. His subsequent conduct in sending the proclamation North for publication simultaneously with sending it to Washington, his declining to modify it in his own name, and throwing the responsibility of doing so upon the Government as though anxious to proclaim to the country how different is his policy from that of the Gov-ernment—are features of the case not sufficiently pleasant to dwell upon."

\*\*P Spalding's Prepared Glue.\*\*To have a favorite piece of china chipped or broken, a pet book with its binding torn, a nice piece of furniture fractured, is a terrible and temper-destroying nuisance. Not without remedy, as we can testify. Mr. Spalding, who advertises his Prepared Glue in The Press to-day, sent us some of it yesterday. We devoted two hours to its practical application—result, two carved chairs completely restored, many odds and ends of china and glass made fit for use, a tattered map made as good as new, several daguerrectype cases renovated, and and an old folio edition of Herodotus and Homer, printed in the year 1500, whose antique boards (literally boards) were split, made strong enough to last for another century or two. We might have mended any quantity of children's broken tors, but caved in after an hour at the worst of them. This Frepared Glue, which is a liquid about as thick as glue, and applied by a brush which accompanies each bottle, is so indispensable in a house that we now wonder how we could have gone without it.—Philadelphia Press, October 7, 1859.

Agr A Few Truths for Sick People.—It is a fact, self-evident, wherever tried, that Dr. O. Phelps Brown's Acacian Balsam possesses more merit than any remedy heretofore known, in curing all cases of Consumption, Bronchitis, Asthma, Coughs, Colds, and General Debility. It is deservedly popular, and ople put faith in it, as indeed they should, when the people put faith in it, as indeed they should, when the opportunity is afforded all to make trial of its virtues. The peculiar properties of the Acacian Balsam are varied and astonishing. It has a particular action of its own. It does not purge and weaken; it does not sicken and disgust; it does not operate as a violent emetic, nor yet enfeeble the patient with profuse perspiration. Quite the contrary lit is pleasant and palatable. It soothes and gently stimulates. It dives vices and strongthess. passing with prouse perspiration. Quite the contrary intis pleasant and palastable. It soches and gontly stimulates. It gives vigor and strength to every weakened part. It imparts, to be brief, an electric influence to the system, already assimilated to its nature, and by this means vivi-fice, not only the lungs, but the nerves, the heart, the brain, the stomach, and the liver. It supplies them directly with that vital force which is necessary to throw off diseases, and the patient, with delight, soon finds himself growing strong, hearty, ruddy and thoroughly well. The Acacian Balsam is sold at \$2 per large bottle. It may be obtained of

The object of this notice is to request all the Ministers of the City and County of Lancaster, that they set apart one Sabbath morning previous to the middle of October next, to preach a sermon on the Bible and its mission, and to take up a collection, and obtain contributions and members for said object; also that each Church appoint a Committee for that purpose, and make full return of their labors by the First of November, so that the Society may be able to make a full report at their annual meeting in November. be able to make a full report at their annual meeting in November.

It is unnecessary for me to say, that large drafts have been made upon our Depository within the last six months to supply our patriotic young men with a copy of the Bible or of the New Testament, who voluntrered their services in behalf of our bleeding country. If well consuited, it was the richest treasure they could carry with them. It was not we fight, in, vain do we boast of our strength, if we exclude our utter dependence upon that fod who alone decides battles in favor of that people who put their trust in Him. It is to be hoped that the Committees of the County Seciety will be sealous in the discharge of the duty assigned them, and that all Ministers in the county will come up to the help of the Lord against the mighty. I am at a loss to know why such apathy exists among our clerical brethers of the country.

Billous Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people. Dyeantery Districts and the people.

Sin: I have used your Pills in my general and hospital practice ever since you made them, and cannot healtate for say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bitious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,

Dysentery, Diarrhoea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in astem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhoea. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood. From Rev. J. V. Himes, Pustor of Advent Church, Boston,
Dr. Ater: I have used your Pills with extraordinary
success in my family and among those I am called to visit
in distress. To regulate the organs of digestion and
purify the blood, they are the very best remedy I have
ever known, and I can confidently recommend them to
my friends.

Constipation, Costiveness, Suppression,
Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.
From Dr. J. P. Vaughn, Montreal, Canada.
Too much cannot be said of your Fills for the curs of
cottieness. If others of our fraternity have found them
as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from
that complaint, which, although bad enough in itself, is
the progenitor of others that are worse. I believe contiveness to originate in the liver, but your Fills affect that
organ and cure the disease. From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural score-time when wholly or partially suppressed, and also very effectual to cleans the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients. From the Rev. Dr. Hawkes, of the Me Prof. De Rev. Dr. Hawkes, of the Medicals: Epis. Untreh.

Honord Sir: I should be ungrateful for the relief
your skill has brought me if I did not report my case to
you. A cold settled in my limbs and brought on exerciating neuralnic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the
disease grew worse and worse, until by the advice of your
excellent agent in Baltimore, Dr. Mackenzie, I tried your
Pills. Their effects were slow, but sure. By persevering
in the use of them, I am now entirely well.
