That such will be the result we feel as certain as we can be of any human event yet in the future. The enemy has repeatedly shown himself to be almost immeasurably inferior to our troops, and has thus far gained what he has by avoiding fight and at length pouncing in immense numbers upon a comparative handful of them. This being his vident plan, it would seem to have been policy to draw him in force into the interior of the State, and thus surround and capture or de-

IMPORTANT NEWS FROM FORTRESS MONROE. FORTRESS MONBOE, Oct. 4.

The United States steamer Pawnee has returned from Hatteras Inlet. She reports the loss of the propellor Fanny on Tuesday night, She was on her way from the Inlet to Chicamaconica, the encampment of the Twentieth Indiana regiment, and was captured by three rebel tugs, which put out from Roanoke Island.

Two rifled cannon, twenty-five of the Indi-

ana regiment, including Quartermaster Ira H. Hart, several of Colonel Hawkins's regiment, and a cargo of commissary stores, fell into the hands of the rebels. The Captain of the propeller and the crew

alone escaped. The Pawnee brings no other news of impor

cashed at the Treasury, amount to only one million and a half of dollars. They have been reported at a much higher figure.

It is intimated that orders will be issued by

the Commander in Chief, forbidding the hold ing of an election in the camps. Fears are entertained of mischief being produced among the soldiers by getting up partisan excitement among them in the face of the enemy.

A balloon seen yesterday from the city,

floating to the eastward, excited much curios ity, as it was thought to be a spy balloon of the enemy. It turns out to have been a balloon escaped from the Union camp, fortunately without any passengers. It has not yet been heard from. A Richmond paper of Thursday, received

here, contains a despatch dated Fairfax C. H., Wednesday, which says:—The President arrived night before last. Yesterday, escorted quarters the rain to day prevented a general eview of the troops by the President. He was greeted, however, by the soldiers, wherhe appeared, with enthusiasm. The Federals advance cautiously, and hold Falls Church, and press our lines near Anandale. A large volume of smoke is seen towards Falls Church. I learn that the old church, which was burnt prior to the Revolution, was burnt last night.'

SPECULATIONS IN COFFEE, SUGAR AND TEA -The New York speculators are again at work. A letter from that city says:

A very active speculative movement in coffee, sugar and tea, has been in progress here for some time past, the effect of which has been to run up the prices of these almost necessaries of life to a figure which places them quite beyond the reach of those who have the most need of them-the poor. In anticipation of the increased duty to which these commodities will soon be subject, the speculators have bought or are buying up and placing in store the surplus stock on hand, in the expectation of commanding their own prices for them .-Even now the commonest qualities of brown sugar cannot be purchased at retail at less than 12½ cents per pound, which is an increase of one hundred per cent, upon prices current for the same quality a month ago. The advance on coffee and tea is not so enormous, but it is sufficient to limit consumption to very perceptible extent, and to make the working classes realize the necessity of abandoning their use. The moderate tax imposed by the government upon these articles will be borne the same patriotic spirit of self-sacrifice which has characterized our people from the beginning of the war, but it is questionable whether as much can be said in regard to the speculators who are thus taking advantage of the necessities of government to add to the burthens of the public for the purpose of enriching themselves.

THE HISTORY OF HAIL COLUMBIA.-In the when he should go to St. Louis. His visit to Washington, however, refers to that subject. It is well understood that the rebels will evening. On the Saturday afternoon previous, he called on Joseph Hopkins, a rising young actor said he had but twenty boxes taken, and Passengers by the Old Point boats say that
General Magruder had demanded the evacuation of Newport News in twelve hours.

Assent and the above twelve would be a loss unless be could
get a patriotic song written to the "President's
March," then a popular air. The poets of the theatrical corps had tried their hands, but were satisfied that no words could be made to suit that air. Hopkins promised to make the

attempt. At that time there was a great discussion in the country as to the policy of America join ing either France or England in the war then waged between those two nations, and party spirit ran very high. Hopkins endeavored to write a song that should be independent of and above the interests, passions and policy of both belligerents, and look and feel exclusively for American honor and rights. He wrote Hail Columbia. It was announced on Monday morning, and the theatre was crowded to excess, and so continued during the season, the song being encored and repeated many times each night, the audience joining in the chorus. It was also sung at nights streets, by large assemblies of citizens, includ ing members of Congress, and has now become a National Song.

Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. As all know, the dreadful fatality of these disorders, and as, they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have wen so strongly upon the confidence of mankind.
