COMMENDATIONS:
From Hon. Lewis D. CAMPELLI, M. C., Ohio.
My family and friends all concur in the opinion that the
Newell) Picture is more life-like than any thing they ever
saw. My likeness has been repeatedly taken by different
Artists in various ways, but I have never yet had one
Milch-pressible softrage to nature, all the features and expressible of countenance as this.

From Hon. E. London From Hon, E. Joy Morris, late Minister to Italy.

The triquisite finish; beauty and softness of your por-traits, conjoined with their durability of color and faith-fulness as likemesses, cannot fail to commend them to the attention and patronage of all who appreciate true art. From Col. James Page.

WHITENACIES IMPROVED NEW JERSEY MOWER.
AND REAPER, WITH DORSEY SERLY ACTING AND TRANSPORT IN THE Manufacturers of this Machine have the best reason for believing that it is the best. Reaper in the transport of the JERSEY REAPER, are these: It is of lighter draught than any other machine known. It is artremely simple in construction; compact and durable. The driver did on the house part the grain side, where he can have full view of the operation and avoid all obstructions. It depicates with the Real entirely; the Revolving Arms serving a far better purpose, gathering the grain gently to the cutters. When sufficient straw has been cut to form a proper seised sheaf, the Rake, in an easy, graceful manner removes it from the plathern, by side delivery, leaving, the track perfectly clear, so that an entire field may be cut; if desired, before binding, a single sheaf. No straw with be found scattered between the sheaves. The sheaves are delivered with regularity. Their compact and next appearance canot, be equalled by any hand-taker, from reading machine or cradle swaths.

The Bake can be adjusted to suit heavy or light grain,

with regularity. Their compact and next appearance cannot, be qualled, by any hand-raker, from reading machine or cradle swaths.

The Bake can be adjusted to suit heavy or light grain, forming large or small sheaves, as desired. Bindsers prefer working after this machine; and farmers can dispense with one or more binders by using it, simply because the gavels are laid in better condition, and this laborious operation of binding rendered far less fatiguing by the regularity with which the sheaves are formed. The Bake takes off either tangled or straight grain, leaving the butts even and square. The weight of the rake is the same as that of an ordinary reel, requiring no more power to work it; and by dispensing with the weight of the hand-raker, it is wrident less power is required to drive the machine.

By the substitution of the Bake, the labor, wages and board of a man are saved, to say nothing of the extra power requisite to draw him over the ground, especially when he is located near the grain side, thus greatly when he is located near the grain side, thus greatly when he is located near the grain side, thus greatly increasing side draught. The Machine is perfectly balanced, leaving no more weight on the horse necks than is necessary to keep the tongue down. The Mowing arrangement operates in all kinds of grass in the most satisfactory manner, with an improved Lever for Balsing and Lowering, while in motion.

[aug 6 6m 30] TO THE PEOPLE OF THE UNITED STATES.

In the month of December, 1858, the undersigned for the first time offered for sale to the public Dr. J. Bovee Dods' Imperial Wine Bitters, and in this short period they have given such universal satisfaction to the many thousands of persons who have tried them that it is now an established article. The smount of bodily and mental misery arising simply from a neglect of small complaints is surprising, and it is therefore of the utmost importance that

from all who have not used them. We challenge the world to produce their equal.

These Bitters for the cure of Weak Stomachs, General Debility, and for Purifying and Enriching the Blood; are absolutely unsurpassed by any other remedy on earth. To be assured of this, it is only necessary to make the trial. The Wine litself is of a very superior quality, being about one-third stronger than other wines; warming and invigorating the whole system from the head to the feet. As these Bitters are tonic and alterative in their character, so they strengthen and invigorate the whole system and give a fine tone and healthy action to all its parts, by equalizing the circulation, removing obstructions, and producing a general warmth. They are also excellent for Diseases and Weakness peculiar to Females, where a Tonic is required to strengthen and brace the system. No Lady, who is subject to lassitude and faintness, should be without them, as they are revivilying in their action.

is subject to lassitude and faintness, should be without them, as they are revivifying in their action.

THESE BITTERS WILL NOT ONLY CURE, BUT PREVENT DISEASE, and in this respect are doubly valuable to the person who may use them. For INCIPLENT CONSUMPTION, INCIPIENT CONSUMPTION,

For the aged and infirm, and for persons of a weak constitution—for Ministers of the Gospel, Lawyers, and all public speakers—for Book-Keepers, Tailors, Seamstresses, Students, Artists, and all persons leading a sedentary life, they will prove truly beneficial.

As a Beverage, they are wholegome, innocent, and delicious to the taste. They produce all the exhilarating effects of Brandy or Wine, without intoxicating; and are a valuable remedy for persons addicted to the use of excessive strong drink, and who wish to refrain from it. They are pure and entirely free from the poisons contained ceasive strong drink, and who wish to refrain from it. They are pure and entirely free from the poisons contained in the adulterated Wines and Liquors with which the country is flooded. These Bitters not only Cure, but Prevent Disease, and should be used by all who live in a country where the water is bad, or where Chillis and Fevers are prevalent. Being entirely innocent and harmless, they may be given freely to Children and Infants with impunity.

DR. J. BOVEE DODS 'IMPERIAL WINE BITTERS are prepared by an eminent and skilful physician who has used them successfully in his practice for the last twenty-five years. The proprietor, before purchasing the exclusive right to manufacture and sell Dr. J. Bovee Dods' Celebrated Imperial Wine Bitters, had them tested by two distinguished medical practitioners, who pronounced them a valuable remedy for disease.

Although the medical men of the country, as a general thing disapprove of Paton Medicines, yet we do not believe that a respectable Physician can be found in the United States, acquainted with their medical properties, who will not highly approve DR. J. BOVEE DODS' IMPERIAL WINE BITTERS.

THEELORD'S PRAYES

We have carefully examined this engraving, offered for sale in this community by Messrs. Austin & Webrly, and do not heastate to pronounce it one of the finest works of American Art we have ever seen. The design is beautiful, the style of execution is superior, and the illustrations are excellent. Its appearance will at once secure for it the admiration of a refined community, and recommend it to the Christian public. It is highly ornamental, and is calculated to exert a refining influence in a family, and an elevating and purifying effect upon the moraka and religion calculated to exert a refining influence in a family, and an elevating and purifying effect upon the morals and religion of society; and it should meet, as we understand it deserves, with a rapid and extensive sale.

PROF. L. MILLER'S HAIR INVIGORA-TOR.—An Effective, Safe and Economical Compound, FOR RESTORING GRAY HAIR to its original color with out dyeling, and preventing the Hair from turning gray. FOR PREVENTING BALDNESS, and curing it, when there is the least particle of vitality of recuperative energy remaining.
FOR REMOVING SCURF AND DANDRUFF, and all cutaneous affections of the Scalp.

FOR BEAUTIFYING THE HAIR, imparting to it and un equalled gloss and brilliancy, making it soft and silky in its texture and causing it to curl readily.

The great celebrity and increasing demand for this preparation, convince the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over any other preparation at present in use. It cleanses the head and scalp from dandruff and other cutaneous diseases. Causes the hair to grow luxuriantly, and gives it a rich, soft, glossy, and flexible appearance, and also where the hair is loosening and thinning, it will give strength and vigor to theirous; and restore the growth to diseases. Causes the hair to grow invariantly, and gives it a rich, soft, glossy, and flexible appearance, and also where the hair is loosening and thinning, it will give strength and vigor to the grout, and restore the growth to those parts which have become baid, causing it to yield a fresh covering of hair.

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this fivigorator, when all other preparations had failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest respectability. It will effectually prevent the hair from turning gray until the latest period of life; and in cases where the hair has already changed its color, the use of the Invigorator will with certainty restore it to its original hue, giving it a dark glossy appearance. As a perfume for the tollet and a Hair Restorative it is particularly recommended, having an agreeable fragrance; and the great facilities it affords in dressing the bair, which, when most with the Invigorator can be dressed in any required forms or as to preserve its place, whether plain or in curls—hence the great dimand for it by the indies as a standard toilet article which hone ought to be without, as the price places it within the reach of all, being ONLY TWENTY-TY-IVE CENTS per bottle, to be had at all respectable druggists' and perfumers.

L. MILLER would call the attention of Parents, and Guardians to the use of his lavigorator, in cases where the childrens' Hair inclines to be weak. The use of it lays the foundation for a good head of hair, as it removes any impurities that may have become connected with the scalp, the removal of which is necessary both for the health of the child, and the future appearance of the Hair.
