Splendid Pennsylvania Body Guard for General Sherman. A splendid Pennsylvania Body Guard for General Sherman.

A splendid body guard is in course of formation for General Sherman, Commander of the Department of Kentucky. It was originally intended for General Hobert Anderson, and the suggestion, occupied han urgent request to raise it, came from that ofher to Mr. Palmer, Secretary of the Pennsylvania Railroad Company; but as General Anderson's failing health was not sufficient to enable him to discharge the rigorous duties of the Kentucky service, and caused his resignation, the guard will be assigned to his successor, General Sherman. This corps is being filled by a stated number from every county in Pennsylvania. Letters have been sent by Mr. Palmer to gentlemen in the several districts, on whom the duty devolves of choosing the honored recruits. The company is to rendezvous at Carlisle barracks, and nearly all have arrived. They will be drilled at this place, and when prepared to move will be sent to Kentucky, where some of the best horses that famous country produces will be procured for them. The duties of the corps will be hazardous and important—it is not intended simply to be a body guard—and we expect to chronicle some of their exploits. With Pennsylvania's brain and muscle, and Kentucky's fleet and fiery chargers, great things will be expected of these chosen warriors.—Carlusle Democrat.

Wooden shoes For Our Soldiers. A committee appointed at a meeting held in the Merchants Exchange, Cincinnation Wednesday week Mayor Hatch occupy ng the chair,—heard several statements from gontlemen recently returned from Cheat Mountain, of a startling character. The Gazatte saus:

statements from gentlemen recently returned from Cheat Mountain, of a startling character. The Gazette says:

"Mr. Miller, at the request of the committee briefly stated what he had seen during his sejourn with the army in Western Virginia, and drew a picture of the condition of the Sixth Ohio regiment and others that was anything but bright. He stated that more than two hundred of the Guthrie Grays were in a pitiable condition for the want of clothing, and many of this number had hardly enough to conceal their nakedness. The men did not complain much—he supposed for the reason that all were so badly off. He also gave a description of the kind of shoes furnished many of our troops in that quarter, which exhibits a degree of rascality on the part of contractors, and carelessness or incompetency on the part of inspectors, that need the immediate attention of the proper authorities. The shoes furnished the Fitch Ohio regiment looked well at first, but the soles were mainly of wood. The outside sole was of thin leather, and another thin leather sole was next the foot, but the filling between was entirely of wood. When the shoes became wet, the outside soles soon rubbed off, the wood fell out, and then they were worthless.

Col. Ford next addressed the Committee at some length and with great earnestness. He had been called before them very unexpectedly, and had no object in stailing anything but the truth. He fully endorsed all that had been stated by Mr. Miller, but said he had not told half the truth. The condition of some of the regiments in Western Virginia could not be imagined. much less described. "I was through the Mexican war," said the Colonel, "with both my divisions of the army, and thought I had there been made familiar with human suffering in all its forms; but I tell you candidly, I have seen more suffering on Cheat Mountains, within the past five weeks, than I did in all the Mexican campaign." suffering on Cheat Mountains, within the past five weeks, than I did in all the Mexican campaign." He said he had seen it rain on the mountains inces-santly for 48 hours, the water freezing as it fell, and that the men had done duty when the horses around them died from exposure.

The Rebei Exploit at the Mouth of the Mississippi. We have at last received authentic intelligence of the affair at the mouth of the Mississippi, which the fertile imaginations of the rebel reporters magnified into a great victory, and it appears that no ship was sunk, and not one person in the Federal squadron was either killed or wounded. The "great turtle," Manassas, did manage to drift foul of one of the ships, but did no serious damage.

The "turtle" will have to do something of a more brilliant character if it expects to satisfy the anticipations formed from the boasts made of what it intended to do. Penhaps there is some glory in getting foul of a U. S. ship and getting away with unbroken bones, and this may satisfy the ambition of a testudinal hero.—Daily News.

Concentration of Rebel Troops in Ken-tucky. The Louisville correspondent of the Cincinnati The Louisville correspondent of the Cincinnati Times, says:
Persons arriving daily from Southern Kentucky, and some even from the interior counties of Tennessee, all concur in the warning that immense reinforcements are pouring into the rebel army on the railroad south of Louisville. It is certain that Gen. Hardee has repaired with his force to that region, and is not in Missouri, as stated by a recent telegram from that State. It is further certain that there are regiments in the army of conquest in Southern Kentucky, from Texas, Arkansas, Louisiana, Mississippi, Alabama, and probably from Georgia. It is certain that regiments of Tennesseeans who were in Virginia a few weeks ago, are now in the army under Buckner and Hardee.

EMBALMING .- A committee of scientific gen demen, with several examiners of the U.S. Patent Office, visited this morning the rooms of Dr. Thos. Holmes, and witnessed the opera tion and process of embalming, and filling the blood vessels of several dead bodies of soldiers to be forwarded to their families. In one hall the bodies were embalmed, and in another room they were very handsomely laid out in their coffins by the undertaker -Mr. Buchly. The committee expressed themselves much gratified with the success of the process. The jecting instrument, invented and used by the Doctor, is a very ingenious air vessel, self operating, with a regulating ejecting pipe by which the corpse is prepared in twenty minutes.

Dr. Holmes has secured the services of Col. J. F. Reigart, one of the most scientific patent attorneys in this country, who has prepared the specifications and drawings, by which the whole process is beautifully delineated and exhibited, for the purpose of obtaining letters patent of the United States for this most wonderful and useful discovery of the age .- Washington Star.

The private advices by the Arabia, quote a decline of four francs per barrel on flour, and 4a5 francs per sack on wheat. The English letters, however, are of a more favorable character. During the last week there were exported from New York to Europe 1,377,546 bushels of grain and 83,524 barrels of flour, estimated to be worth two and a quarter millions of dollars.

AF Fever and Ague.—A Case of Eight Months' Standing Cured by Berrary's Holland Bitters. Michael Kelly, No. 117 Seventh, near Grant street, says: "Last July, while running on the river, on a cotton-boat plying between Natchez and New Orleans, I was taken with Fever and Ague. For eight long months I suffered with this dreadful disease. The greater part of this time I was unable to work, and spent at least fifty dollars for different medicines, but found no permanent relief. Three weeks ago, one of my friends insisted upon my trying Boerhave's Holland Bitters, saying that a cure was guaranteed. After taking it for one week, I must state, I was a sound man. I have been at work now for two weeks, and have had no return of the Chilis and Fever whatever." I cortify that the above statement is true.

Dr. Atkr: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowds, which makes them invaluable to us in the daily treatment of disease. Headache,SickHeadache,Foul Stomach

Headache, Sick Headache, Foul Stomach.
From Dr. Edward Boyd, Baltimore.

Dear Bro. Aver: I cannot answer you what complaints
I have cured with your Pills better than to say all that we
ever treat with a puryadre medicine. I place great dependence on an effectual cathartic in my daily contest with
disease, and believing as I do that your Pills afford us the
best we have, I of course value them highly. DR. J. C. AYEE. Sir: I have been repeatedly cured of the wor Pills. It seems to arise from a foul atomach, which they cleanes at once.

Yours with great respect, ED. W. PREBLE, Clerk of Steumer Clarion.

Bilious Disorders - Liver Complaints. Billous Disorders—Liver Comptaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bitious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,

Washington, D. C., 7th Feb., 1856.

She i I have used your Fills in my general and hospital practice ever since you made them, and cannot besitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldem found a case of billous disease so obstitute that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,

Physician of the Marine Ampilal.

Dysentery. Distributes. Heley. Worms. Dysentery, Diarrhea, Relax, Worms.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperionts I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small does for billous dysentery and diarrhea. Their sugar-coating makes them very acceptable and convenient for the use of women and children. Dyspepsia, Impurity of the Blood. rom Rev. J. V. Himes, Pastor of Advent Church, Boston From Rev. J. V. Himes, Pustor of Advent Cauren, Boston.
Dr. Ayer: I have used your Pilis with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best romedy I have ever known, and I can confidently recommend them to my friends.

Dear Str.: I am using your Cathartic Pilis I my practice, and find them an excellent purgative to cleanse the system and purify the foundains of the blood.

JOHN G. MEACHAM, M. D. Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Yaughn, Montreal, Cunada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe custiveness to originate in the liper, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston. I find one or two large doses of your Pills, taken at the roper time, are excellent promotives of the natural secreproper time, are excellent promotives of the indirival score-tion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients. From the Rev. Dr. Huwkes, of the Methodist Epis. Church. HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excru-

your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralpic pains, which ended in chronic rheumatism. Notwithstanding I land the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well. SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855
