to keep the Confederates hereafter on the defensive. The Scoretary desired that the Cumberland Ford and Gap should be seized, and the East Tennessee and Virginia Railroad taken possession of, and the artery that supplied the rebellion cut straight off.

Complaint was made of the want of arms, and on the question being asked, What became of the arms we sent to Kentucky? we were informed by Gen. Sherman that they had passed into the hands of the Home Guards and could not be recovered; that many were already in the hands of the Confederates; and others refused to surrender those in their possession, alleging the desire to use them in defence possession, alleging the desire to use them in defence of their individual homes if invaded. In the hands of individuals, and scattered over the State, these arms are lost to the army in Kentucky.

WAR DEPARTMENT, October 14, 1861.

Sir: In conducting military operations within States declared by the proclamation of the President to be in a state of insurrection, you will govern yourself, so far as persons held to service under the laws of such States are concerned, by the principles of the letters addressed by me to Maij Gen. Butler on the 30th of May and the Sth of August, copies of which are herewith furnished to you. This, however, not to mean beneficial to the service. This, however, not to mean a general arming of them for military service. You will assure all loyal masters that Congress will provide just compensation to them for the loss of the services of the persons so employed. It is believed that the course thus indicated will best secure the substantial rights of loyal masters, and the benefits to the United States of the services of all disposed to support the Government, while it avoids all interference with the social systems of local institutions of every State, beyond that which insurrection makes unavoidable, and which a restoration of peaceful unavoidable, and which a restoration of peaceful relations to the Union, under the Constitution, will immediately remove.

It was about eighteen months in attaining this enormous siz. It commenced on the left side, and is called an Ovarian tumor. Besides the above, which we believe is one of the largest ever seen or heard of, there were several smalle tumors upon the liver, among them one weigh ing between two and three pounds. Persons wishing to see what is indeed a curiosity owing to its immense size, should call at the office of Dr. Haldeman, where the tumor will remain a short time. - Newville Star.

The N. Y. Tribune learns from Washington that Gen. Scorr is to retire from his duties as General-in Chief of the Army, his physical infirmity being the cause. \*\*\* Age and Debility.\*\*—As old age comes oreeping on, it brings with it many attendant infirmities. Loss of appetite and wakness impair the health, and want of activity makes the mind discontented and unhappy. In cases where old age adds its influence, it is almost impossible to add vigor and health, and although many remedies have been tried, all have failed, until Rucrhave's Holland Bitters were known and used. In every case where they have been employed, they have invariably given strength and restored the appetite. They have become a great agent for this alone, and are used by many people who are suffering from loss of appetite and general debility. In cases of long standing chronic diseases, they act as a charm, invigorating the system, thus giving nature another opportunity to rensir physical injuries. tunity to repair physical injuries.

and almost surpassing belief, are the cures performed by that justly popular remedy the Acacian
Balsam, prepared by Dr. O. Phelps Brown. In Consumption, Bronchitis, Asthms, Nerrous Complaints,
Coughs, Colds, Liver Complaint, Palpitation of the
Heart, etc., its use is attended by the most surprising
beneficial results, alike gratifying to patients and their
friends. The invigorating properties possessed by the
Acacian Balsam, are peculiar to this remedy alone. In the
cases of invalids suffering from that form of complaint
known under the head of General Debility and characterized by great languor, utter prostration of the nervons
system, and torpidity and inaction of the vital organs, its
effects are to relieve the sufferer of all morbid feelings and
inspire him with life and renewed energy. It purifies the
blood, restores wasted flesh, and in a short time so renovates the entire being that disease can no longer find a
foothold in the system. A full description of this remarkable remedy may be found in the pamphlet, which will be
given to those who apply, by the doctor's agents. The

Syphilis and Morcurial Disease.

New Orleans, 25th August, 1859.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulcerntion had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Freparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fratermally yours, G. V. LARIMER, M. D.

Rheamatism, Gout, Liver Complaint. Rhenmatism, Gout, Liver Complaint. INDEPENDENCE, Preston Co., Va., 6th July, 1859.

Dr. J. C. Ayer: Sir, I have been afflicted with a painful chronic Rheamatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarasparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM. attacked. Jules Y. Getchel, of St. Louis, writes: "I have been
afflicted for years with an affection of the Liver, which
destroyed my health. I tried-overy-thing, and overy thing
failed to relieve me; and I have been a broken-down man
for some years from no other cause than derangement of
the Liver. My beloved pastor, the Rev. Mr. Espy, advised
me to try your Sursaparilla, because he said he knew you,
and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood
as to make a new man of me. I feel young again. The
best that can be said of you is not half good enough."

Many remarkable curs of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Con-sumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease. This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is uscless here to publish the evidence of its virtues. Its unrivalled excellence for roughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
