The Great Victory at Piketon, Ky. We are still without the full particulars of General Nelson's great victory in Kentucky.

The tollowing is all that is as yet known regard-

ing it:
After occupying Prestonburg, Gen. Nelson proceded toward Piketon, and commenced an engagement with the revols at about 4 o'clock on Friday fternoon. The fight continued till night, and both armies The night continued till night, and both armies slept on their arms.

On the next morning the battle was renewed and continued till 10 o'ctock, A. M., when the rebels unconsitionally surrendered.

The loss of the rebels amounted to 400 killed, while the number of prisoners is according. number of prisoners is variously mated at from 2,000 to 4,000. The rout was complete, and it it is probable that the whole of then. Williams' forces will be taken in

BALTIMORE, Nov. 14.

The Norfolk Day Book, of the 11th, received by the Old Point boat, nad the following despatch:

"Col. Corcoran, three Captains and eighteen Lieutenants, all of whom were captured in the action at Manassas, confined in the jails at Richmond, have been selected by lot to be hung, by way of retribution for the hanging of Capt. Baker and the crew of the Southern privateer Savannah.

"The Hon. Mr. Ely, M. C., drew lots for Mr. Corcoran, who is now imprisoned at Charleston. In case the Court at New York condemned the crew of the Savannah to death, the Federal prisoners would BALTIMORE, Nov. 14. he Savannah to death, the Federal prisoners would

The Charleston Mercury of the 10th, has the fol-The Charlesson Mercury of the 10th, has the following: "The Yankee prisoners in South Carolina are all safely in jail, where they will abide the issue of the trials of our brave privateersmen at the North. Should one drop of Southern blood be shed by the Northern Courts for defending the South on the seas, it will be paid with interest in Chraleston. "Self-protection and the onforcement of the laws of nations and humanity, alike require, in this instance, full and ample retailation."

The Mercury says the Federals would capture a large amount of cotton in the vicinity of Port Royal.

Burning of Kailrond Bridges.

Burning of Railroad Bridges.

NASHVILLE Nov. 12.

Five railroad bridges were burnt in East Tennessee on Friday night by Unionists—two on the Georgia State Koad, over Chickamanga creek, Hamilton Co., and on the East Tennesse, and Georgia railroad on Huawassee rsver, Bradley county. Five minutes and on the East Tennesse, and Georgia railroad on Hinwassee rsver, Bradley county. Five minutes after the guard passed through, the whole bridge was in flames, showing the use of combustible material. Two were burned on the Tennessee and Georgia railroad on Lick creek, Green county, and another over the Holston river, Sullivan county. The guard at Lick creek were unarmed and they were overwhelmed, tied, carried away and kept till during the day. On Saturday three men were arrested whom the guard identified. The bridge on Holston river was not guarded; it was thought unnecessary to guard it, Sullivan county being strongly Southern. The bridge over Holston river is at Strawberry Plains.—In Jefferson county a bridge was fired, but was put In Jefferson county a bridge was fired, but was put out by the people. One of the guard had his hand cut off and his skull fractured. There are indications cut off and his skull fractured. There are indications that one incendiary has been killed. Gentlemen just from East Tonnessee report great excitement in consequence. It was evidently a preconcerted plan. The loss is heavy and will cause great inconvenience and dolay. Matters in East Tennessee are regarded as in a critical condition and much anxiety is felt for Zollicoffer.

The Republican of this morning, is informed by a gentleman, from the interior, that the bridges over the Chickamanga creek were burned by the discharged hands, and not by the Unionists as stated. Bacon is selling at thirty cents per pound at Jack-

LOUISVILLE, Nov. 14. The Journal has information confirming the report that the long and costly railroad bridge, just this side of Nashville, has been burned. The announcement has caused great alarm and trepidation in the rebel camp at Bowling Green.

Cumberland Gap, Cumberland Gap is near the boundary of Kentucky and East Tennessee. A railroad passes through it from Loxington, Ky., to Kuoxville, Tenn., and it forms the best and. In fact, the only practicable road for the transportation of troops and heavy munitions of war from East Tennessee into Kentucky. The Gan is a great depression in the mountain ridge. hap is a great depression in the mount ch traverses the continent from New Hampshire to North Alabama. Through this gap, very similar in appearance and characteristics to the South Pass in the Rocky Mountains, formerly the enigrants from Virginia and North Carolina passed on their way to the virgin wilds of the West. For half a century thousands upon thousands poured through this natural gatoway into the Mississippi Valley from the Atlantic stores.

A Large Haul! A Large Haul!

Among the important results of the victory at Beautort is the capture of a large amount of cotton. From the repeated orders of Jeff Davis and his Gabinet, that no cotton should be taken into the seaboard cities, and that it should all be removed into the interior of the different States, where it would be safe from capture by the Federal troops, many supposed that, the rebels had obeyed his mandates, and that instead of placing it where our soldiers could obtain it here would keep it his every in repeate. that instead of placing it where our soldiers could obtain it, they would keep it hid away in remote localities, until some of the European Powers broke the blockade, or their independence was acknowledged. But this opinion was evidently erroneous, for the Charleston Mercury states that upwards of two million dollars' worth of cotton had falten into the hands of the Federal troops.

Col. John Cochrane on the War.

Washington, Nov. 13.
Col. John Cochrane delivered an address to his regiment to-day in the presence of Secretary Cameron and other distinguished gentlemen. The most im-portant point in his argument was in relation to the treatment of slaves during the present contest. He said "we should use every means in our power to subdue the rebellion. We should take their cotton subdue the rebellion. We should take their cotton and sell it or burn it as might be best, and seize their arms and munitions of war. Confiscate their property, and, when necessary, take their lives. And as their slaves were used as an element of strength against us, we should not hesitate to take them, and, if necessary, to place arms in their hands that they might assist in establishing the rights of a common humanity." This sentiment was cheered by the soldiers with unbounded enthusiasm. At the closs of the address the regiment loudly called for Secretary Cameron who stepped forward and made a brief speech which was received with shouts of applause.

Late War News.

By the arrival of the transport steamer Contzacoalcos at New York, intelligence has been received
from Port Royal up to the time of her departure, at
2 o'clock, P. M., on the 13th inst. Some additional
particulars of the late engagement and of subsequent
events have thus been furnished to us. It is stated
that the people of Charleston were so confident of
gaining a brilliant victory in the late engagement
that the elite of the city had proceeded to Beaufort
in the same style as the Union civilians went to
Centrevile to witness their expected triumph. The
success of our fleet compelled them to precipitately
retire, panic-stricken and dismayed. A reconnoitering
party sent up to Beaufort obtained in the arsenal at
that place the entire Fresnel lightning apparatus Late War News. party sent up to Beaufort obtained in the arsenal at that place the entire Fresnel lightning apparatus formerly used on Hunting Island and Martin's Industry, which was removed some time since by the rebels. One light is revolving, the other fixed, and both apparatus were imported for the purpose from France, at a cost of several thousand dollars. As Commodore Duron't is desirous of immediately laying down the buoys in this great harbor at Port Royal, and rendering it a secure refuge and anchorage for shipping, it would scarcely be possible to overestimate the value of this discovery. The entire machinery, lamps, burners, clockwork, &c., are now safely on board the Wabsah, and will soon be replaced in their former position. safely on board the Wabash, and will soon be replaced in their former position.

It was supposed that on the 14th instant our troops would take formal possession of Beaufort.

General SUNNER has arrived at New York, with a detachment of seven hundred regular troops of the United States army, and some of our skilful officers. This valuable accession to our forces will materially strengthen any division of the army with which it may be connected. Dr. Gwin, Calhoun Benham, and J. L. Brett, who were on board, were under arrest on account of their Secession proclivities, and the discovery among their baggage of Secession papers. On their arrival at New York they were released on their parole of honor, after promising that they would not attempt to leave the country without permission of the Government.

The Battle at Piketon.

MATSYLLE, Ky., Nov. 15.

Reports from headquarters, dated the 13th, were received this evening through reliable gentlemen, of the control of These reports considerably diminish the merits of Nelson's victory. It appears that our forces attacked a body of the rebels 1,000 strong, who were posted on a hill, killing from 85 to 90 of them, and taking 50 prisoners—the rest were scattered.

Col. Williams, of the rebels, was the first man to run. Six of Col. Marshall's men were killed and 15 wounded. Col. Marshall's borse was shot under him. Fifteen of Col. Fuffes' men were wounded and 9 killed. The above is reliable. These reports considerably diminish the merits of

The Capture of the Sumter.

The Capture of the Sumter.

We mentioned on Saturday last a report, coming from a Confederate source, and reaching us by way of Louisiana, of the capture of the privateer Sumter. No particulars were given except that she was captured to the leeward of Barbadoes.

To-day we have a confirmation of the destruction of this marander of the seas, as contained in a family letter, with which we have been politely favored, dated the 25th of October, on board the United States frigate Santee, off the port of Galveston—This letter, we regret to say, is almost as sparing in regard to details as was the report from the South—the writer of it seeming to suppose that the news would, as a matter of course, have reached this point in advance of his letter. It appears, however, to be sufficiently explicit as respects the most acceptable facts bearing upon the occurrence, the only wonder channels. The writer says:

"You probably have seen an account of the destruction of the Confederate privateer 'Sumter.'—She was caught in her own trap. It seems that she mistoke one of the gun beat for a merchanter has been sufficiently and her own trap. It seems that she mistoke one of the gun beat for a merchanter. She was caught in her own trap. Vederal Troops in Eastern Virginia. The Richmond Examiner says that a force of 4,000 federal troops have invaded Accommo county. Eastern Virginia, where the rebel force is only 1,800 men, which it would be impossible to reinforce.

COMMERCE ON THE LAKES .- Commerce on the lakes has this season been better than was ever known before. The conveyance of grain rom Chicago and other western ports to the East employs every vessel that can be had, and at the close of navigation a large quantity must remain behind. At the latest dates, there were more than 2,500,000 bushels at Chicago and it was constantly accumulating. The consequence is that vessels obtain whatever freight they ask, and while corn has been selling in Illinois as low as ten cents per bushel, the freight from Chicago to Buffalo bas been as high as 20 cents, and for a long time stood at 29 cents. Many a vessel carrying 20,000 bushels would thus for a single trip Eastward receive \$4000, when she might not be worth more than \$5000.

DISTRESSING CASE OF FAMILY BEREAVEMENT. The Johnstown Tribune recently gave the facts of a distressing case of family bereave-ment in the household of Mr. P. P. Lehman, who lost four children within a month by diptheria. The same paper of last week relates the following equally sad case: By letter before us from Mr. James Conrad, of Washington township, we learn that he and his whole family have been prostrated for weeks with the typhoid fever, from the effects of which he is just recovering. Three deaths occurred in his family during the month of October from the disease—a son and two daughters, one aged 19, one 17, and one 15 years. The balance of his family were all sick, but are recovering. To add to his trou-bles, the head race to his mill—which had een swept away by a former flood, and which nad just been re constructed-was destroyed by the high water of Saturday night week. Fruly misfortunes never come singly.

MELANCHOLY CASE OF DEATH FROM HYDROриовіл.—Mr. John Earnest, an influential citizen of Norristown, Pa., died a few days since, of hydrophobia. He was bitten about Nonth since by a dog, which had no appearance of being rabid, and which was accidentally strangled a short time after. At times, during the convulsions and spasms of the deceased, it took the united strength of four or five men to hold him. When not in convulsions he was perfectly sensible, and fully conscious of his awful condition. During his lucid intervals he would warn his attendants to be careful so that he would do them no barm. From the first moment of his attack ill his end, he declared that there was no hope but in death. He was thirty-five years of age, and had been married during the past year to a lovely wife, the daughter of a physician of Philadelphia, who also died suddenly within the past three months.

DESTRUCTIVE FIRE AT GERMANTOWN .-Loss-\$10,000.-This morning, at 2 o'clock, a fire broke out in the Iron Works of Ridgeway & Co., at the corner of Ashmead and Clinton streets, Germantown. The flames spread with great rapidity, entirely destroying the buildings and a large quantity of materials. The loss is estimated at \$10,000, upon which

there is an insurance of \$7,000. The works were usually engaged in the manufacture of hardware; but lately the hands were largely employed in making sabres for the Government. It is supposed that the place was set on fire.

It is a singular fact that within a short time no less than seventeen woollen factories in various parts of the North, all of which were engaged in the manufacture of supplies for he army, have been in whole or in part destroyed by fire. Other establishments employed Government work of other descriptions, have been destroyed and a suspicion is excited that the conflagrations have been caused by traitors who wish to cripple the operations of the Government. A watch should be set, and rascals caught at such work should be treated to a short shift and a long rope.—Philadelphia Bulletin, of Thursday

HEAVY BANK ROBBERY AT WEST WINSTEAD, Conn.—Between Saturday week and Monday night, a daring and most successful robbery was perpetrated upon the Bank of West Winstead. Conn., the burglars succeeding in carry ing off about \$50,000, \$8,000 of which was in specie, and the balance in bills, mostly of their own Bank. Among other values taken were four United States Treasury 6 per cent. notes, two of \$100 and two of \$50 each. The thieves had evidently studied the localities with great care, and undertook their work with a degree of circumspection seldom exhibited by the profession. They entered through a lawyer's office, which was directly over the vault of the bank. Boards in the floor, of unequal length, were neatly sawed through, and after proceeding with the work in the vault, they were carefully replaced, screwed down, puttied over, and then sanded so as not to attract observation. The inclosure of the vault was of granite, the top slab being over six inches thick. Through this they chisseled their way, split, ting it in two, raising off one half of it, and thus affording room through which to descend into the vault. On retiring with their booty they replaced the stone, screwed down the floor, and left everything in such apple pie order that it took the officers some time to discover the mysterious hole through which thei treasure had departed.

THE WAR'S RAVAGES.—The New York Comnercial Advertiser compiles a list of the losses on both sides since the outbreak of the rebellion, commencing with the attack of the Mas sachusetts troops in Baltimore, and embracing the numerous fights and skirmishes that have since occurred, and the result is as follows: Federals—killed, 969; wounded, 2041; prisoners, 2374. Rebels—killed, 4049; wounded

ARREST OF THE SUPPOSED MURDERER OF FELLNER.—Radski, the suspected murderer of Sagismund Fellner, for whose apprehension a reward of \$2,000 was offered, was arrested on the 11th inst., on the Lake Shore train going west from Buffalo. The passengers or train, from the moment of leaving the depot, were attracted by the singular, suspicious and forbidding appearance of a young foreigner, who sat in one of the most gloomy parts of the car, ard as the train stopped at Westfield, an officer entered, went up to him, indentified him as Radski, and claimed him as prisoner. He was immediately removed and placed on the next eastward bound train, to be taken to New York. His vicious appearance is described as alone sufficient to condemn him.

SPECIAL NOTICES. AP Age and Debility.—As old age comes creeping on, it brings with it many attendant Infirmities. Loss of appetite and weakness impair the health, and want of activity makes the mind discontented and unhappy. In cases where old age adds its influence, it is almost impossible to add vigor and health, and although many remedies have been tried, all have failed, until Rorthave's Holland Bitters were known and used. In every case where they have been employed, they have invariably given strength and restored the appetite. They have become a great sgent for this slone, and are used by many people who are suffering from loss of appetite and general debility. In cases to long standing chronic diseases, they act as a charm, invigorating the system, thus giving nature another opportunity to repair physical injuries.

Res Spalding's Prepared Glue. The value of this giue for domestic purposes is inestimable. The difficulty of preparing common sheet glue for use led to the new article. In a liquid state the glue for use led to the new article. In a liquid state the preparation can be used without heating, dries slowly, emits no offensive effluvia, and ready for application. It is put up in glass bottles, securely corked, and sold with a brush to apply it, at the low price of twenty-five cents. Every family should have the compound constantly on hand, as thereby any article of wood, paper, crockery or glass can be mended. It will save more than its cost every month in the year. and almost surpassing belief, are the cures performed by that justly popular remedy the Acacian Balsam, prepared by Dr. O. Phelps Brown. In Consumption, Bronchitia, Asthma, Nervous Complaints, Coughs, Colds, Liver Complaint, Palpitation of the licert, etc., its use is attended by the most surprising beneficial results, alike gratifying to patients and their friends. The invigorating properties possessed by the Acacian Balsam, are peculiar to this remedy aione. In the cases of invalids suffering from that form of complaint, known under the head of General Bebility and characterized by great languor, utter prostration of the nervous system, and torpldity and inaction of the vital organs, its effects are to relieve the sufferer of all morbid feelings and inspire him with life and renewed energy. It purifies the blood, restores wasted flesh, and in a short time so renovates the entire being that disease can no longer find a foothold in the system. This is just the thing wanted on our hilly roads. The arrangement is so simple, cheap, and performs its duty with such certainty, locking just in proportion to the steepness of the hill, by the pressure of gravitation, and that, too, by a gradual bearing, relieving the horse from a sudden jerk, as well as to prevent the raising of

m a sudden Jork, as well as to prevent the raising of seating, such as a square reacting with equal ease to the res, by means of a spiral spring, making it allogether most complete and desirable appendage that could be plied to carriages. the most complete and desirable appendage that could applied to carriages.

The simplicity, cheapness, and certainty of performing its duty faithfully, without being liable to get out of repair, and its ready adaptation to all classes or vehicles, makes this invention peculiarly desirable, and will not fail to recommend it to every beholder, and bids fair to come into general use.

THE GREAT INDIAN HERBAL TEA: DR. ENGLISH'S INDIAN VEGETABLE EMMENAGOGUE:

This Celebrated Female Medicine possasses virtues unknown of anything else of the kind, and proving effectual after all others have failed; it is prepared from an "Indian Herb" peculiar to Northern Mexico and Texas, and is used by the Natives in producing the MONTHLY SIGNESS. It is designed for both married and single ladies, and is the very best thing known for the purpose, as it will remove all obstructions after other remedies have been tried in vain. It is a pleasant tes, containing nothing injurious to health, and a cure can be relied upon in all cases. Prolapsus Uterl, or falling of the Womb; Floues Aibus, or Whites; Chronic Inflammation, or Ulceration of the Womb; Incidental Hemorage or Flooding; and diseases of the Spine.

AYER'S CATHARTIC PILLS. Are you sick, Seble, and complaining? Are you out of order, with your system deranged, and your Sellings uncomfortable? These symptoms are often the prelude to serious illness. Some it of sickness is creeping upon you, and should be averted by a timely use of the ireht rem-

the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-scated and dangerous distempers. The same purgative effect expels them. Caused by slimilar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Fills, will neglect to employ them when suffering from the disorders they cure. Statements from leading physicians in some of the principal cities, and from other well known public per-sons.

From a Forwarding Merchant of St. Louis, Ptb. 4, 1858. DR. AFRE: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon hur hands and fest that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE. As a Family Physic.

From Dr. E. W. Carturright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease. Headache, SickHeadache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

Dear Bro. Aren: I cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly. DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headeshe any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they tleanse at once.

Yours with great respect, ED. W. PREBLE, Clerk of Steamer Clarion Bilious Disorders - Liver Complaints. From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bitious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

Machington, D. C., 7th Feb., 1856.

Sin: I have used your Pills in my general and hospital practice ever since you made thom, and cannot hesitale to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of thious discuse so obtinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,

Thysician of the Marine Hospital. Dysentery, Diarrhea, Relax, Worms. Prom Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best sperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bitious dysentery and diarrhexa. Their sugar-coating makes them and children.

Dyspepsia, Impurity of the Blood. Pyspepsia, Ampurity of the Biodu.

From Rev. J. V. Hines, Pustor of Adent Church, Buston.

Dr. Ayer: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J.Y. HIMES. WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the functions of the blood.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Drop-sy, Paralysis, Fits, etc. sy, Paralysis, Fits, etc.

From Dr. J. P. Vangha, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costineness. If others of our fraternity have found them as efficacious as I have, they should join me in preclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad coungh in itself, is the progenitor of others that are worse. I believe conficiences to originate in the liver, but your Pills affect that organ and cure the disease.

Pelaski House, Sayannah, Ga., Jan. 6, 1856.

Honore Sin: I should be ungrateful for the relief your skill has brought me it I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralize puns, which ended in chromic rhetunatism. Notwithstanding I had the best of physicians, the disease great worse and worse, until by the advice of your

Za Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incantious use. These contain no mercury or mineral substance whatever. Price, 25 cents per Box, or 5 Boxes for \$1.
