I learn the secessionists are negotiating for the Punjanb and Assaye, eighteen hundred tons each, eight hundred horse power; Malabar teak, three deckers; steam eleven to fourteen knots; would cost to build \$1,200,000; price asked for £80,000. They are East Indiamen of war, and Government asks bonds for \$300,000 that they shall not go to America. What does this mean? Government has also lately sold, or offered to sell, nine condemned sloops-of-war, such as the Carysfort, to a party who is said to have sold them to the Southern Navy Department. From the South.

Some excitement was occasioned here this aftermoon, by the rebels throwing about thirty shells at the quarters of some companies of the 28th Pennsylvania Regiment, under command of Major Hector Tyndale, at Harper's Ferry. Major Tyndale tried the effect of the long-range Enfields on them, but the distance being 2,000 yards, was too great. Although some of the fring of the rebels was fair no-body was hurt. Our men were well deployed, and ready for closer range which the rebels would not give them.

The Court of Common Pleas of Philadelphia has decided that Robert Ewing holds the correct certificate of election to the office of Sheriff. and costs of collection. We are happy to say The conspirators, composing a majority of the Board of Return Judges, have thus been baffled at every point in their attempt to thwart the will of the people, and exclude Mr. Ewing Fork Observer. from the office to which he was rightfully elect ed. Never was there a bolder, more desperate, or more persistent attempt to perpetrate a fraud upon the ballot box. The first move in the game was the celebrated Shimpfeller return, which was a palpable forgery, and would have been counted by the Board in order to defeat Mr. Ewing, and elect Mr. Thompson, had not the Supreme Court restrained them by an injunction. Defeated at this point, the Board next attempted, through the agency of the Prothonotary, to exclude sufficient army votes to defeat Mr. Ewing. Judge Ludlow here interposed, and ordered that the whole vote should be counted. Finding that this would elect Mr. Ewing, the factious majority suddenly complied, rather than go to prison for contempt, but gave Mr. Ewing a certificate under protest, and at the same time gave to hands of fruit growers of two counties. This ompson a certificate that he was duly relected. Both parties appeared in Court in certificate was the only one it could recognize.

-Patriot d. Union. THE IMPENDING FAMINE IN IRELAND .- By all accounts the destitution in Ireland this winter threatens to be as wide-spread and severe as in 1846. The part which our people took in alleviating the distress of that calamitous year has never been forgotten by the present, they must not render us oblivious of the duties of humanity. It would be a noble and a politic act if, out of the fulness of our abundance, we were to provide some relief, for the distress of a community bound to our people by the closest ties of kindred. We would suggest that the President, in his forthcoming message, recommend to Congress the appropriation of half a million, or even a million, to purchase corn for the Irish poor. It would be the most gratifying reward that could offer our adopted citizens of that nationality for the steadfast and unselfish support which they have given the government since the commencement of the war. would also produce an excellent effect abroad, by showing that, severe as is the present drain on our resources, we can still spare something for the relief of the suffering populations who are not blessed with the same advantages that we possess.

ing report from the Secretary of the Treasury in connexion with our vast National expenditures, winds up as follows: It is important, on all accounts, that the war shall not be long. The immense pa-tronage with which it clothes the executive

would endanger our liberties if it should continue up to the time of the next presidential election. Our presidential elections were doing enough to corrupt the political morals of the country when our annual expenditure was seventy millions; the government cannot stand long, with the present Constitution, if the prize to be struggled for in our presidential contests reaches four or five hundred millions of annual expenditure. If the war is still in progress when the next election overtakes us, the public liberties will not survive the struggle. It is of the last consequence that we put forth herculean efforts, taste for civil pursuits, and ambitious generals are tempted by too dazzling a prize to use a great army and emormous patronage as instruments of perpetual power. For the same reasons that it is important to end the war early, it is desirable that it should be conducted in such a manner that only a moderate military force will be necessary to preserve the public tranquillity after its close. We overnment as little as possible; and our suc ess in limiting it will be in proportion to our bility to govern the reunited country through he voluntary co-operation of the citizens. These grave considerations are, at this time, especially worthy the attention of the

government and the country. JEFF. DAVIS' MESSAGE.

WASHINGTON CITY, Nov. 23. The Richmond papers of Wednesday, received here, contain the message of Jeff. Davis to he rebel Congress. After the usual congratulations, he says that the operations of the army seem to be partially interrupted by the approaching winter. It has afforded a proection to the country, and such a lustre upon its arms through the trying vicissitudes of more than one ardous campaign, which entitle our brave volunteers to our praise and gratitude. Further on he says, "after some seven months war the enemy have not only failed to extend their occupancy of our soil, but new States and territories were added to our Control to our soil, but new to since the sold and suffering who are unable to extend their occupancy of our soil, but new employed as Ayer's Pills by all classes, both to our end present disease about desir does States and territories were added to our Confederacy, while instead of their threatened march of unchecked conquest, they have been drawn at more than one point to assuming the defensive, and upon a fair comparison between the two belligerents as to men, mili-tary means and financial condition, the Confederate States are relatively much stronger now than when the struggle commenced." He speaks in high terms of the people of Missouri, who have conducted the war in the face of speaks in high terms of the people of Missouri, who have conducted the war in the face of almost unparalleled difficulties, with a spirit and success alike worthy of themselves, and of the great cause in which there like all of

and success alike worthy of themselves, and of the great cause in which they, like all of the Southern people, are struggling.

If, he says further, "we husband our resources, it would be difficult to fix a limit to the resided during which we could conduct to the period during which we could conduct a war against the adversary whom we now encounter. The very efforts he makes to isolate and invade us, must exhaust his means, whilst they serve to complete the circle and diversify the productions of our industrial

system.
"The reconstruction which he seeks to effect by arms becomes daily more and more impossible. Not only do the causes which induced is to separate still exist in full force, but they have been strengthened, and whatever doubt may have lingered in the minds of any must have been entirely dispelled by subsequent events. If, instead of being a dissolu-tion of a league, it were indeed a rebellion in which we are engaged, we must find ample vindication in the course which we have adopt ed in the scenes which are now being enacted

in the United States.
"Our people now look with contemptuou astonishment on those with whom they had been so recently associated. They shrink with aversion at the bare idea of renewing such a connection with such a people, may be content to live at peace, but the separation is final, and for the great and glorious independence we have asserted we will accept no alternative."

ACCOUNT.

" Among the recent decisions at the general term of the Supreme Court of the Albany (N. .) district, was one in favor of Mr. J. Saesry against Bradford O. Wait, for seven years' subscription to the Catskill Recorder and Democrat. The decision was in favor of the publisher, and the judgment and costs. we understand, amount to between two and three hundred dollars "

Good enough for him. He had sneaked along seven years enjoying the fruits of the labor of another, and now he has to pay that bill, with Court costs superadded. If publishers would make a few more such exhibitions, newspaper swindlers would find it a desperate game to play. We hope it will prove a warning to delinquents. We take the above, with comments, from a

contemporary. It, or the law on which the decision is based, should be published once a year by all newspapers. It is surprising that so few subcribers fully understand their responsibilities to publishers of newspapers. -The law which governed in this decision is a law of Congress, and therefore applicable in

every State in the Union.

Many subscribers seem to regard the bill for a newspaper the last to be settled, and especially the last which the law will enforce. Responsible men even, under trifling whims, refuse to take their papers from the office, regardless of the payment of arrears, and when half dozen or more years have been added to the arrears at the time of stoppage, think it hard to pay the increased bill with interest that we have few such cases compelling pro cution. We have never failed in any suit of

Sands, Craft & Co., commission and produce merchants of Boston, have, this fall, purchased in the counties of Monroe and Orleans chiefly, 63,142 barrels of Apples, the cost of which was \$131,090; and they have paid \$11,000 advance charges of freight upon them. The fruit was mostly taken in by local agents in this city, at Fairport, Charlotte, Spencerport, Brockport, Holley, Albion and Knowlesville—the latter place taking the lead of all others in Orleans county. Mr. Craft superintended the purchase and shipments, making his headquarters at Congress Hall in this city, where he disbursed this large sum of money into the is not the first year that this house has opera ted in fruit hereabout. They have sent their ing to laze, when, after argument and due de liberation, the Court decided that Mr. Ewing's ments are made to Cuba and other foreign markets. Curtis & Co., of Boston, another extensive house, has likewise purchased apple tious proceedings of the Return Judges, and freely this fall in the two counties named. Mr. Curtis has superintended operations, making this city his headquarters. He has purchased 36,000 barrels in Western New York, for which he paid over \$60,000. His purchases took a similar course to those of Sands, Craft & Co. Here over \$200,000 in cash was expended by two firms alone for apples. Others hreatens to be as wide-spread and were buying in greater or less quantities, but alleviating the distress of that calamar has never been forgotten by the ople. Great as our own troubles at year for apples. We are told that while the

crop was perhaps not more than half that of the previous year, the growers have realized quite as much from it with less labor. Freights have been high, and to obtain transportation was sometimes difficult. We are told that ten thousand barrels of apples are now piled up in the streets of Troy, awaiting shipment to Bos-GEN. It concludes, however, as follows:

"What the British Government may do or demand is a serious question, not to be dismissed quite so easily as the press affects to believe. We may, perhaps, in our next issue, add our speculations to those already uttered. We have upheld for years past, for months past, for weeks past, the utter improbability of war between the two countries; nor do imagine that war will grow out of this new difficulty. We must say, however, that if Great Britain sought a pretext for bringing one on -as she is perpetually, accused of doi is now an opportunity for claiming such re wage the war on a colossal scale, and end it paration as would not be granted, and for before our citizen soldiers have lost their pushing a dispute into hostilities."

CONTRACTS FOR BEEF CATTLE .- The contracts for supplying the Government with three lots, each of four thousand head of cattle on the hoof, deliverable at Washington, Harrisburg, York or Chambersburg as the Government may determine, were awarded as follows: The first to Edward McQuade and William T. SPECIAL NOTICES.

AP Age and Debility.—As old age comes creeping on, it brings with it many attendant infirmities. Loss of appetite and weakness impair the health, and want of activity makes the mind discontented and unhappy. In cases where old age adds its influence, it is almost impossible to add vigor and health, and although many remedies have been tried, all have failed, until Bernare's Holland Bitters were known and used. In every case where they have been employed, they have invariably given strength and restored the appetite. They have become a great agent for this alone, and are used by many people who are soulering from loss of appetite and general debility. In cases to long standing chronic diseases, they act as a charm, invigorating the system, thus giving nature another opportunity to repair physical injuries.

**Ext Truly Marvellous*, and almost surpassing belief, are the cures performed by that justly popular remedy the Acacian Balsam, prepared by Dr. O. Phelpe Brown. In Consumption, Bronchitis, Asthma, Nervous Complaints, Coughs, Colds, Liver Complaint, Palpitation of the Heart, etc., its use is attended by the most surprising beneficial results, alike gratifying to patients and their friends. The invigorating properties possessed by the Acacian Balsam, are peculiar to this remedy alone. In the cases of invalids suffering from that form of complaint known under the bead of General Beblity and characterized by great languor, utter prostration of the nervons system, and torpldity and inaction of the vital organs, its effects are to rolleve the sufferer of all morbid feelings and inspire him with life and renewed energy. It purifies the blood, restores wasted flesh, and in a short time so renevates the entire being that disease can no longer find a foothold in the system. A full description of this remarkable remedy may be found in the pamphlet, which will be given to those who apply, by the doctor's agents. The Acacian Balsam is sold at \$2 per large bottle by KAUFMANA & CO.

HIGHLY USEFUL INVENTION.

HIGHLY USEFUL INVENTION.

WM. ELLMAKER, of New Helland, Lancaster county, Pa., obained Letters Patent the 22d of October, 1861, for a valuable improvement in a SELF-ACTING CARRIAGE BRAKE.

This is just the thing wanted on our hilly roads. The arrangement is so simple, cheap, and performs its duty with such certainty, locking just in proportion to the steepness of the hill, by the pressure of gravitation, and that, too, by a gradual bearing, relieving the horse from a sudden jerk, as well as to prevent the raising of the shafts, and again re-acting with equal case to the horse, by means of a spiral spring, making it altogether the most complete and desirable appendage that could be applied to carriages.

The simplicity cheapness and extrinity and country and the country of the complete and desirable appendage that could be applied to carriages. the most complete and desirable appendage that could be applied to carriages.

The simplicity, cheapness, and certainty of performing its duty faithfully, without being liable to get out of repair, and its ready adaptation to all classes of vehicles, makes this invention peculiarly desirable, and will not fail to recommend it to every beholder, and bids fair to come into appearance. to recommend it to every beholder, and bids fair to come into general use.

DEMOCRATIO AND CONSERVA-TIVE NEWSPAPER IN THE CITY OF NEW YORK. THE NEW YORK WEEKLY ARGUS. THE NEW YORK WEEKLY ARGUS.

TO RESTORE THE UNION AND MAINTAIN THE CONSTITUTION.

For several years the Democratic and Conservative sentiment of the Nation has been keenly alive to the necessity of being faithfully and ably represented by a first-class Newspaper, published in the city of New York, adapted to popular circulation, and wielding a wholesome influence throughout the Union. The great want has been and is a popular circulation and wielding a wholesome influence throughout the Union. The great want has been and is a paper conducted with talent and prudence, with correct appreciation of the true principles of our Government and fidelity to them, in all respects a first-class newspaper, and the standard at a wind balaction to the true principles of the correct appreciation of the true principles of our Government and fidelity to them, in all respects a first-class newspaper, and

Tribune to Abolitionism and all kinds of Radicalism—a paper conducted with talent and prudence, with correct appreciation of the true principles of our Government and fidelity to them, in all respects a first-class newspaper, and yet afforded at a price bringing it within the reach of the masses of the People throughout the Country.

The undersigned, from their connexion with the Albany Atlas & Argus—one of the oldest and best known Democratic papers in the Union—have been constantly urged, during the last three or four years, to respond to this demand, by establishing a first-class Weekly newspaper in the City of New York, adapted to general circulation. We yield to the wishes of our political friends, and have therefore determined to transfer the publication of the Weekly Atlas & Argus to the City of New York, and to issue it under the name of the City of New York, and to issue it under the name of the City of New York, and to issue it under the name of the City of New York, and to issue it under the name of the City of New York, and to issue it under the name of the City of New York, and to issue it under the name of the City of New York, and to issue it under the name of the City of New York, and to issue it under the name of the City of New York, and to issue it under the name of the City of New York, and in all other respects, it skall be at least equal to any paper published in News, Editorial, Literary, Miscellaneous and Agricultural Departments, in its Market Reports, and in all other respects, it skall be at least equal to any paper published in that city, While devoting to it our own editorial services, it will also have the benefit of the entire time and constant supervision of Mr. Ekon Comsrock, for several years one of the Editors of the New York Journal of Commerce, a gentleman of recognized editorial ability and experience. The editors will therefore be Californal paper.

The publication of the paper in New York will be commenced on Saturday, December 7th.

CATHARTIC PILLS.

Are you sick, steble, and complaining? Are you out of combrable? These symptoms are often the prelude of serious illness. Some fit of alchaests is creoping upon you, and should be averted by: a timely use, of the right remedy. Take Ayers Fills, and cleanse out the disordered himors—purify the blood, and let the fluids more on unobstructed in health—again. They stimulate the functions

These, if not relieved, react upon themselves and the surrounding organs, predicting one and aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they regions the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in a this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them unrely, enred. by the same means. None who know the vitrues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Dr. Aver: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grierously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

From Dr. Edward Boyd, Baltimare.

Dear Ban, Are: I cannot answer you what complaints
I have curred with your Pills better than to say all that we ever treat with a purgative medicine. I place great dependence on an effectual cathartic in my deliy entest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly. best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headeche. any body can have by a does or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect,

Bilious Disorders—Liver Complaints. From Dr. Theodors — Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of billous compaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

Dysentery. Distributes of the profession and the people.

Department of the Inventor, Washington, D. C., 7th Feb., 1856.

Sire: I have used your Fills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of that organ. Indeed, I have seldom found a case of bitious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,

Physician of the Marine Hospital. Dysentery, Diarrhea, Relax, Worms. From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diaryhaza. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

From Dr. J. P. Vaughn, Montreat, Cunada.

Too much cannot be said of your Pills for the cure of
costireness. If others of our fraternity have found them
as efficacious as I have, they should join me in proclaining it for the benefit of the multitudes who suffer from
that complaint, which, although bad causin in itself, is
the progenitor of others that are worse. I believe caticeness to originate in the liver, but your Pills affect that
organ and cure the disease.

From Mrs. E. Suart, Physician and Walder, Park From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stamach and expediments. HONORED Sin: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on exemiciating neuralpic pains, which ended in chronic rheumatism. Nowithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzio, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.
