THIRTY-SEVENTH CONGRESS.—FIRST SESSION. | last? The longest road has an end, and the deepest for the government, that they were authorised to eath the summer of the Senate to-day a memorial from the citizens of New York protest—sixty days longer, or we will have an ignominious law to legalize his contracts, and prevent loss to hon-MINDAY, January 13.

Mr. Sumner presented to the Senate to-day a memorial from the citizens of New York protesting against the appointment of a solicitor of customs. The Military Committee reported the House bill appropriating \$150,000 for completing the defences of Wasnington, which, after some discussion, was laid over until Tuesday. Mr. Wilkinson, from the Judiciary Committee, reported on the resolution to expel Jesse D. Bright, that the facts were not sufficient, and that the resolution do not pass. The subject was made the special-order for Thursday. Mr. Carille offered a resolution that the Committee on Finance consider the expediency of providing, by direct taxation on all kinds of property, for a revenue of two hundred millions of dollars, and issuing bonds for that amount; also, for the issuing of bonds to the amount of eight hundred millions of dollars, and issuing sond to establish a fixed a convariance of the server of the subject of the superprincions made by this set, \$100,000, provided that no part of this appropriation shall be used in a payment or liquidation of any sum due under existing contracts for engraving and printing bends or notes.

to the amount of eight hundred millions of dollars, and to establish a fiscal agency in New York, &c; laid over. Mr. King offered a resolution asking the Secretary of War for information in regard to the payments made for freights to railroads in Maryland Virginia, for transportation in connection with army, and Mr. Powell called up a resolution ing the Secretary of War to furnish a list of all the army, and Mr. Powell called up a resolution asking the Secretary of War to furnish a list of all the contracts made since the 4th of March, and the prices paid; but no action was taken on either. Mr. King introduced a bill to authorize the Secretary of the Treasury to issue Treasury notes to the amount of one hundred millions of dollars at seven per cent. interest, and providing for a direct tax of ten millions for the payment of the interest; referred. The bill providing for the appointment of sulters and their providing for the appointment of sutlers and their duties was then taken up, but afterward withdrawn by Mr. Wilson, who said he would bring in another, by Mr. Wilson, who said he would bring in another, which he thought would be more satisfactory. The bill to increase the clerical force of the War Department was recommitted. The Kanasa election case was then considered, and, by a vote of 32 to 4, Mr. Stanton was allowed to be heard before the Senate on the question. Mr. Sumner spoke in favor of Lane's right to the seat, and the discussion was continued by Messrs. Ten Eyck and Davis. Pending the discussion the Senate autiourned. Mr. Daws. from the cussion the Senate adjourned. Mr. Dawes, from the Committee on Elections, made a favorable report to the House on the memorial of Andrew J. Clements the House on the memorial of Andrew J. Clements, praying that he be admitted to a seat as representative from the Fourth Congressional District of Tennessee. The report was adopted, and Mr. Clements took the customary oath. Mr. Holman, from the Select Committee on Government Contracts, reported resolutions, which were adopted, calling on the Secretary of War to inform the House under what authority, and by whom, army supplies and other property held for military purposes in Utah, were sold, with a statement of the property, its cost and value, and the amount realized from the sale; what notice, if any, was given of the sale, and if any value, and the amount realized from the sale; what notice, if any, was given of the sale, and if any supplies were destroyed, by whose direction; and that the Secretary furnish a copy of the order for that purpose. Also that the Secretary inform the House by whose authority 1,400 troops have been organized in Colorado; what disposition is to be made of them; what arms have been purchased by the governor of that territory; and whether it is the intention of the War Department to recognize and liquidate the debt thus incurred, including the purchase of arms, &c.

chase of arms, &c.

The House resumed the consideration of the amendments reported to the House from the Committee of the Whole on the State of the Union to the Civil Appropriation bill.

Mr. Dawes (Mass.) said: Mr. Speaker, though I Mr. Jawes (Mass.) said: Mr. Speaker, though I have spent the better part of my Congressional life upon investigating committees, no one was ever yet raised upon my motion, no resolution was ever carried upon my motion calling for inquiry, no motion was ever made by me, the result of which has been an investigation by this House, and yet I have felt that it was proper forme to speak, in order to decline the service that has been imposed upon me. But I felt again that it was incumbent upon me to discharge my duty as well as I could, and I have, I think, discharged it fearlessly and cheerfully, however much mortification and discomfiture might come from it. tion and discomfiture might come from it. Sir, I have not appealed to minorities, and I be-lieve that the Committee of which I am one, have lieve that the Committee of which I am one, have taken notice, in common with the whole country, of the fact, that for some reason or other, some unaccountable reason, the charges upon the Treasury of the country have been such as to reach nearly to its bottom. Positive facts have come to the notice of the Committee and the country, touching the manner and mode of expenditure of the public money. To some of these items I propose to call the attention of the House, in this connection, and then to ask whether they propose to meet the question at all, and if they intend to meet it, how, and when, and where. Sir, the very first contract entered into by this Sir, the very first contract entered into by this Government, when the troops left their homes in April last, to come here for the defence of the capital, was the contract by which they were to be fed. It was a contract for cattle, not with men whose iness it was to furnish cattle, not the men who business it was to furnish cattle, not the men who know what the price of beeves is in the market, and entered into without even telegraphing to New York, to know the prices of beeves in the market there; entered into by the Government here, with men known to this and the other branch of this Congress for the last ten years as old political stipendiaries—men who have made what little they have made by buying the salaries of members at a discount, and then drawing from the Treasury the full amount.

2200 head of cattle was the amount of the contract. In twenty-four hours after it was given, it was sub-let to men in New York who did not know the price of beef; so sub-let that on the first 2200 head of cattle they put into their own pockets, with-out stirring from their chair, thirty-two thousand dollars (\$32,000,) and the men who did furnish the dollars (\$32,000,) and the men who did furnish the cattle, put twenty-six thousand (\$26,000) more into their pockets, so that the contract under which these 2200 head of cattle were furnished to the army was so made, that the profit of \$58,000 over the market price was realized upon that small number.

It takes a thousand head of cattle longer to reach the city than it does to consume the same number by the army. The most ample provisions are needed

the army. The most ample provisions are needed merely to support the subsistence department of this Sir, a million shoes have already been worn out by

\$13,50.

An ex-member of Congress is in Annapolis to-day, trying to get machinery manufactured, which cannot be made in six months, by which to make these muskets at twenty-one dollars a piece. Before those six months have passed away, we will have disposed of the war or it will have disposed of us. There will not one of these muskets come back here before this exigency will, in the providence of God, for good or for evil, be on us. There are also outstanding contracts for the manufacture, some time hence, of 272, 500 Enfield Rifles.

000 Enfield Rifles.

The gentleman from New York charges me with desiring to blacken men's vames. I desire to call the attention of the House to the enormous expenditure which is being carried on, and it don't make so much difference whether it be by A or by B. I speak by the figure, Mr. Speaker, and I know what I am saying. Twenty millions of dollars was appropriated by Congress, at its last session, and seventeen millions more have been added to it, which will have to be paid.

lions more have been added to it, which will have to be paid.

Sir, the riot of the 19th of April, in Baltimore, opened this ball. From the 21st of April there was organized a corps of plunderers on the Treasury, and two millions of dolars was put at the disposal of a poor unfortunate man, I think an entirely incompetent editor of a paper in New York, to dispense it as he could. And he went straightway to the purchase of linen pantaloons, and straw hats, and London porter, and dried herring, and such-like provisions for the army, until he used up \$240,000 of the money, and got scared, and quit.

for the army, until he used up \$240,000 of the money, and got scared, and quit.

(A voice.) It was \$390,000.

Mr. Dawes, resuming.—It was 390,000, my friend says. I prefer to keep on the low figures.

Again, a man has got a wood contract at \$7 a cord, for all the wood he chooses to bring. He goes into the forests, and he takes the Government wagons and horses to draw it to the several camps. He draws his seven dollars a cord, and lets the Government draw the wood. (Laughter.)

One hundred millions of dollars have been spent since the first of December, and another hundred million dollars will be spent before the fourth of million dollars will be spent before the fourth of

March.

But, sir, I care very little what it may cost to put down this rebellion, provided it may be put down.—
But 1 am free to confess that my faith sometimes fails, my faith in man, not in God. Sir, when the history of these times shall have been written, it will be doubtful upon whom the guilt shall rest, upon him who has spared to destroy, or upon him who has proved incompetent to preserve the institutions that have been bequeathed to us by our fathers. Sir, is it strange that the public treasury trembles and staggers like a strong man loaded with too great a burden?

How soon will it be before the bottom of the Treasury is reached by this exhausting process, while we have no revenue from our outsom houses, from our land sales; while our notes of issue which the Government has sent out are already sold at 5 per cent. discount at the tables of the money-changers, and at 6 per cent., my friend says, and the sutlers are following the army to seize the pay of the soldiers as the shark follows the ship on its voyage. I have no define to criticise the movements of the army, or officials its operations, but in the view of the sturped out of the information he received from the strength of the information he received from the

he has been obliged to post a notice that he had "no funds." He wished to restrict the business of Congress for the present, to the consideration of military, naval, and financial affairs, and hence advocated the postponement of the bill before the House until the second Tuesday in February.

Mr. Sedgwick (N. Y.) replied to Mr. Dawes in vindication of the Treasury Department in contracting for the engraving and printing of the Treasury potes.

passed.

The House resumed the consideration of the bill to abolish the franking privilege; and after some discussion, and several attempts to amend it, was passed by a vote of 187 to 42. The bill to appropriate \$35,000 for the exhibition of American product at the World's Fair in London, was passed. Mr. Lovejoy made a characteristic speech against it in which he declared his hatred of the British government, and his determination to beginned his heterdment. ment, and his determination to bequeath his hatred to his children.

Mr. Wilson, from the Military Committee, reported back the bill to increase the clerical force of the War Department, which was amended so as to add four clerks to the Navy Department, and then passed.—Mr. Collamer, from the Committee on Foreign Affairs, reported a bill for the preservation of the Atlantic fisheries. Mr. Sherman presented a petition from Peter Cooper, of New York, asking Congress not to authorize the issue of paper money. The joint resolution to promote the efficiency of the troops serving in Kansas was then taken up. Its adoption was opposed by Mr. Saulsbury and advocated by Mesers. Lane and Harlan, but no action was taken upon it by the Senate. Mr. Trumbull, from the Judiciary Committee, to whom was referred the nu-WEDNESDAY, January 15. Sir, a million shoes have already been worn out by the army, and a million more have been already manufactured. Now, upon every one of these shees there has been a waste of seventy-five cents; three-quarters of a million of dollar upon the shees already own out, and nother three-quarters of a million upon the shoes already manufactured. Sir, there are horse contracts that have been made and Government officials go about the streets with their pockets filled with them, and of which they make presents to some political friend to secure the political adom of some other, while the telegraph announces that the hatchet of political animosity is national credit is crudined among malefactors. We have just beard the result of one of these contracts. A regiment of cavalry has just reached Louisville, one thousand horses strong. Out of that thousand, a board of army officers has condemned four hundred and eighty-five as utterly worthless; that not one of them is worth more than twenty dollars a picce; that done the street of the manufactured and eighty-five cost the Government, before they were condemned.

There are now eighty-three regiments of early in the street of the manufactured of the six hundred thousand dollars more before they were condemned. There are now eighty-five cost the Government to transport them from Pennsylvania to Louisville, over ten thousand dollars more before they were condemned. THURSDAY, January 16. THURSDAY, January 16.

The Secretary of War sent a communication to the Senate to day in answer to a resolution asking for information in regard to the contracts made by him. It stated that he had made no contracts, having left all such matters to the regular army officers. Mr. Wilson introduced a bill reducing the number of cavalry in the army. Mr. Hale offered a resolution that Ward H. Lamon, U. S. marshal for the District of Columbia, by his recent order communicated to the Senate, excluding members of the Senate from the jail without a pass from him (Lamon,) has been guilty of a breach of the privilege of the Senate, the Senate, excluding members of the Senate from the jail without a pass from him (Lamon.) has been guilty of a breach of the privilege of the Senate, and of contempt of the rightful authority of this body, and that the Secretary of the Senate be directed to communicate a copy of this resolution to the President. It was laid over. On motion of Mr. Collamer the bill to promote the efficiency of the Dead Letter office was taken up and passed. On motion of Mr. Hale, the Secretary of the Navy was requested to inform the Senate whether or not the ship Alabama, at the Portsmouth navy yard, and the ship Virginia, can be taken to pieces and the material used in the construction or repair of other vessels. On motion of Mr. Wilson, the bill in relation to the arrest of persons claimed as held to service of the United States was taken up, and several amendments to it were passed, but no decisive action was taken on the bill itself. The resolution of the Judiciary Committee declaring that Mr. Lane, of Kansas, was not entitled to his seat, was amended by striking out the word not, and then passed by a vote of 24 to 16.

by striking out the word not, and then passed by a vote of 24 to 16.

Iu the House Mr. Dunn, from the Military Committee, reported a bill authorizing and directing the Secretary of War to furnish the prisoners of the United States in the revolted states with clothing and other necessaries of life, and for this purpose that he employ such agents as may be necessary.—

The bill was passed. Mr. Wilson, from the Committee on Judiciary, reported back with amendments the bill amendatory of the act of 1857, to enforce the attendance of witnesses; which was passed. It repeals that part which exempts witnesses who have testified before any examining committee of either house from being used as evidence in a court of justice. On motion of Mr. Spaulding it was resolved that the use of the hall of the House of Representatives be granted for the annual meeting of the Colonization Society on Tnesday next. Mr. Blair asked leave to present a memorial of one hundred and forty colored persons of California, asking that provision be made for the colonization of that class where color will not be a badge of degradation. The Speaker said the memorial could be presented under the rule. Mr. Blair asked that it be printed, to which the Heuse agreed.

War Deparment, that they were authorised to act for the government, but he is now surprised to learn that Mr. Cameron says the heads of bureaus had made all the contracts. He asks the passage of a law to legalize his contract, and prevent loss to honest contractors. Referred. Mr. Wilmot presented a petition asking that homeopathic physicians be appointed in the srmy. Mr. Collamer from the Committee on Post Offices, reported back the House bill in relation to the letters of sailors and marines.—

The bill, which extends the privilege of sending letters not prepaid to sailors and marines was then passed by the Senate. Mr. Fessenden from the Committee on Finance, reported back the House joint resolution declaratory of the purpose of Congress to impose a tax. Mr. Carlile objected to the consideration of the resolution, but subsequently withdrew his objection. The resolution was then passed—year 30, nays Mr. Powell. Mr. Dixon from the Committee on contingent expenses, reported back the resolution to pay Mr. Stanton the contestant of Mr. Lanc's seat, the usual compensation and mileage. in payment of lightesting and printing bonds or notes.

Mr. Baker (N. Y.) reviewed the financial condition of the Treasury, and advocated the passage of a tax bill—straight forward in its object—to realize a hundred millions of dollars. Three-fourths of this amount can be collected from the loyal States, which will cheerfully pay, rather than to submit to bank-ruptcy; the remainder can be collected in the disloyal States six months hence. In addition to this, Treasury notes should be made a legal tender, bearing a small interest. He was in favor of Commissioners being sent to Europe to negotiate a loan.

He would amend the Excise bill so as to relieve commerce of some of its burdens. The restoration of the Government and sunk so low in the payment of the Government and sunk so low in the payment of the Government had sunk so low in the payment of the Governm

AS New Glue.—We advertise to-day a new style of glue, which must be needed in every house. This is reported to be the identical glue with which the man glued his dog together after he (the dog—not the mun!) had split himself in two halves by running against a sharp post while in pursuit of a rabbit. It is related of this unfortunate dog that, he was stack together with two less up and two down, and remained so for the rest of his life; albeit he was a more durable dog after than before this slight accident, because while he was running on two legs the other two were resting, and he had only to flop over on the rested legs and go shead, afresh. This only shows that care should be taken in sticking things to gether, when you have a good glue to work with.—From the Zanesville Aurora, November 25, 1859. [jan 7 Im 52]

The blood is a fluid, which diffusing itself throughout the entire animal organization, gives life and action to the thousands of minute fibres composing the body. The arterial system penetrates to every organ, and these in turn, give to the matter thus received their peculiar character. The vital principle is that mysterious power within, which acting through the blood, counteracts disease, and repairs the ravages of time. So long as its vigor and activity continue superior to the assaults of time and the excesses in which we indulge, we are secure in the enjoyment of health. From which are too fruitful to be mentioned here, disease gains lodgment in the system, and all the varied symptoms attendant upon Consumption, fasten their deadly fangs upon the sufferer. It is cheering to know that a remedy has at last been found to cure the worst forms of pulmonary complaints, if applied in season. Dr. O. Phelps Brown's Acacian Baleam is prepared with a direct eye to its effect upon the blood and secretions. This incomparable medicine has already cured thousands of grateful beings from death by Consumption, and its wonderous efficacy in this terrible disorder as well as in all cases of serious inroads area health, attended with attempt delility is acknowled. terrible disorder as well as in all cases of serious inre terrible disorder as well as in all cases of serious inreads upon bealth, attended with extreme deblity, is acknowledged by all. FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases. Balains, and all Skin Diseases.

J. C. Ayer & O., Gents: I feel it my duty to seknowledge what your Saraparills has done for me. Having minerited a Scrotious infaction; I have sanfased from it in various ways for years. Sometimes it burst out in Ulers on my hands and arms; comments it turned inward and distressed me at the stomech. Years ago it hooke out on my head and covered my Tanjand cars with one sore which was painful and losshsome beyond description. I tried many medicines and several physiciaus, but without much relief from any thing. In fact, the disorder grew torse. At length I was rejoiced treat in the Gospel Messenger that you had propared; an alterative (Saraparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the send, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tall you, that I hold you to be one of the aportlee of the age.

Dr. J. B. S. Channing, of New York City, wites; "I most cheerfully comply with the request of your agent insaying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Francis Diseases of the Scrotilous diathesis. I have cured many investrate cases of Leucorlines by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala, writes, "A dangerous overrian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Barsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

New Obleans, 25th August, 1869.

Dr. J. C. Ater: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects. I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wondorful in the cure of Veneral and Marcurial Disease. One of my patients had Syphilite ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had aston away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her hones. They had become so sensitive to the weather that on a damp day site suffered excured entirely by your Sarsaparilla in a faw weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remety; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D. Rheumatism, Gout, Liver Complaint. Syphilis and Mercurial Disease.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

Dr. J. C. Ayen: Str. I have been afflicted with a painful chronic Rheumatism for a long time, which baffied the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Saraparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FRRAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. My beloved pastor, the Rov. Mr. Espy, advised me to try your Sarasparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them. furnish gratis to all who call for them.

Dyspensia, Henrt Disease, Fits, Epilepsy, Mclancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Euch a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitls, Incipient Con-sumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for roughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the curse which have won so strongly upon the confidence of mankind.
