In the Heuse Mr. Roscoe Conkling offered a joint resolution teandering the thanks of Congress to Gens. Halleek and Grant for planning the recent movements within their respective departments, and for the success which has attended them. After some debate it was referred to the Military Ommittee.—The postoffice appropriation bill was passed, after which the Indian appropriation bill was taken up in the Committee of the Whole.

The Senate to-day reconsidered the motion agreeing to the report of the conference committee on the Treasury note bill, and recommitted it. Mr. Grimes offered a resolution asking the Secretary of War whether any contracts have been made, or any steps taken toward a contract, for the construction of any railroads by the War Department; and if so by what authority, and with whom, and by authority of what law they have been made? Mr. Wade, from the Committee on Territories, reported back the bill for the conspation and cultivation of certain cotton lands in possession of the United States. On motion of Mr. Hale an amendment was adopted limiting the appropriation to \$20,000. Mr. Trumball introduced a confiscation bill, the object of which he explained.—Some debate was had upon it and the subject was laid over. On Monday the House agreed to the report of the On Monday the House agreed to the report of the committee of conference on the Treasury note bill by a vote of 97 to 22. On motion of Mr. Stevens, a resolution was adopted that the Joint Committee on the Conduct of the War be requested to furnish the House, or cause to be published, so much of the testimony taken before them as related to the conduct of the Department of the West under Major-General John C. Fremont. To-day the House instructed the Judiciary Committee to inquire into the expediency of vesting the United States commissioners with power to issue writs of habbas corpus, and hold persons to bail for good behavior, and to increase the compensation of said commissioners. Mr. Van Wyck introduced a bill to tax the salaries of public officers. The Senate bill in relation to cavalry regofficers. The Senate bill in relation to cavalry regiments was passed, with an amendment reducing their number to fifty. Mr. Grider introduced a resolution, which was adopted, instructing the Committee on Claims to inquire into the propriety of reporting a bill to indemnify the Union men of the Third Congressional District of Kentucky, and other congressional districts, for damages and impoverishment caused by the so-called confederate troops and their aiders and abettors. Mr. Van Wyck introduced a resolution, which was adopted, directing the Committee on Naval Affairs to examine into and report on the necessity of repealing the eighth section of the act of Congress further to promote the efficiency of the navy, approved in December last. The section in question relates to the compensation of employees cers. The Senate bill in relation to cavalry regin question relates to the compensation of employees in the navy yards. On motion of Mr. Kellogg a resolution was adopted instructing the Committee of Ways and Means to inquire into the expediency of levying a tax of three per cent. per pound on cotton, and making such a lien thereon, persons and corporations to be prohibited from carrying or transporting the same until the tax is paid. Mr. Maynard reported a bill to establish a branch mint at Denver City, Colorado territory. The House passed the bill authorizing the Postmaster-General to establish a uniform money order system at all postoffices deemed suitable therefor. For orders from one to ten dollars a commission of five cents will be charged; from ten to twenty dollars, ten cents, and for every additional ten dollars, five cents.—A bill was passed authorizing the Postmaster-General to permit additional articles to be sent by mail he navy yards. On motion of Mr. Kellogg eral to permit additional articles to be sent by mail t present rates of book postage. He said that, nder the present law, roots, cuttings and seeds could under the present law, roots, cuttings and seeds could be sent by mail at one cent per ounce, but stockings for the soldiers, flags, and many other things, could only go at letter postage rates. Mr. Porter, from the Committee on Judiciary, reported a resolution, which was passed, that the several railroad companies who have received from the government grants of land to aid in the construction of railroads are required to transport the property and troops of the United States free of all tolls or other charges whatever.—

The following bills were also passed: To establish an additional judicial district in the State of New York, to be called the Eastern District; to authorize York, to be called the Eastern District; to authorize the Secretary of the Treasury to issue certificates of indebtedness to public creditors. After a prolonged lebate a bill prohibiting military officers from re turning fugitive slaves, on penalty of dismissal from

voting on the case.

In the House Mr. Voorhees asked leave to introduce a resolution commending General Halleck for his recent general order, and thanking him for his military achievements, but Mr. Lovejoy objected.— Mr. Van Wyck asked to be excused from serving as shairman of the committee on government contract but the Speaker ruled that the question must be de-cided by the committee. He also offered a resolution cided by the committee. He also offered a resolution which was adopted, that the committee on government contracts inquire into the amount of moneys received by the federal officers in the city of New York by virtue of their offices; also, as to the ownership and rents of the bonded warehouses; also, in relation to the contracts for storing, hauling, and delivering foreign goods. The case of Mr. Upton was then taken up, but no decision in the matter was made. The House concurred in the Senate's amendment to the bill relating to the number of persesnitatives. THURSDAY, February 27.

The bill for a national foundry and furnace was reported to the Senate to-day by the Military Committee, with an amendment striking out the furnace. Mr. Davis offered a substitute for the confiscation bill, which was ordered to be printed. An amendment to the bill to increase the efficiency of the medical department of the army was adopted, providing for an additional number of surgeons, to be selected from the medical corns. also any amendment selected from the medical corps; also an amendment that the surgeon-general and medical inspector be that the surgeon-general and medical inspector be chosen from the volunteer as well as the regular army. The case of Mr. Starke was taken up, and, after some debate, he was allowed to take the usual oath, by a vote of 26 to 19. Another amendment to the medical bill was adopted in reference to the salary of the surgeon-general, and the bill was passed. The House adopted a joint resolution to print for distribution the proclamation of Andrew Jackson on nullification, the Farewell Address of Washington, and the Declaration of Independence. The consideration of the Upton contested election case was resumed, and the House decided, by a vote of 73 to 50, that Mr. Upton was not entitled to a seat. On motion of Mr. Washburne, from the Government Contract Committee, a resolution was adopted, call-Contract Committee, a resolution was adopted, calling on the Secretary of War to communicate to the House the report and severed House the report and correspondence of the commis-sion sitting at St. Louis, for examination of the plaims growing out of affairs in the Western Military

subject of debate, the Sanator interested offering a resolution referring the papers relating to his loyalty to the Judiciary Committee for investigation. The morning hour being consumed in the discussion the matter was laid over. An amendment to the appropriation bill was made, including \$100,000 for building a jail in Washington. Both branches of Congress adjourned to Monday.

In the House Mr. Moorhead reported the bill in favor of establishing a national foundry, east of the Alleghanies; also a national foundry, armory, and arsenal west of the Alleghanies, and in the valley of the Ohio and Mississippi. It was referred to the Committee of the Whole on the State of the Union. The bill to receive engineers into the volunteer service of the United States was rejected after some discussion. The bill granting homesteads to actual settlers, and providing bounty for soldiers in lieu of lands, was amended so as to take effect Jan. 1, 1863.

the recent brilliant victories. It is somewhat unusual for a Cabinet Minister to take public notice of newspaper articles, but it appears notice of newspaper articles, but it appears that Mr. Stanton's generous modesty is not proof against the fulsome laudation of the press:

To the Editor of the N. Y. Tribune: Sir:-I cannot suffer undue merit to be ascribed to my official action. The glory of our recent victories belongs to the gallant officers and soldiers that fought the battles.-

No share of it belongs to me.

Much has recently been said of military combinations and organizing victory. I hear such phrases with apprehension. They com-menced in infidel France with the Italian campaign, and resulted in Waterloo. Who organize victory? Who can combine the elements of success on the battle-field? We owe our recent victories to the Spirit of the Lord, moved our soldiers to rush into battle, and filled the hearts of our enemies with terror and dismay. The inspiration that conquered in battle was in the hearts of the soldiers and as a disunion abolitionist. In a speech which from on high; and wherever there is the same inspiration there will be the same said: results. Patriotic spirit, with resolute courage "T in officers and men, is a military combination

We may well rejoice at the recent victories, for they teach us that battles are to be won now and by us in the same and only manner that they were ever won by any people, or in any age, since the days of Joshua, by boldly pursuing and striking the foe. What, under the blessing of Providence, I conceive to be the true organization to victory and military combination to end this war, was declared in a few words by Gen. Grant's message to Gen. Buckner—"I propose to move immediately on your works!"

Yours, truly.

SPECIAL ORDER.

An act to repeal the act approved 7th March, A.

1. 1861, entitled "An act for the commutation of D. 1861, enthusa. An account tonnage duties."
The bill was referred to the committee of the whole, Mr. Armstrong, (Lycoming.) in the Chair. After consideration, the bill was reported back as com-

nonwealth.

I take it that the Legislature has a right to regu

monwealth.

I take it that the Legislature has a right to regulate the toll. No corporation is entirely independent of the Legislature. The Pennsylvania railroad company, at the time of the passage of the law, was in debt to the Commonwealth at least the entire amount of \$550,000. The money belonged to the Commonwealth of Pennsylvania, and was, or ought to have been, within its treasury. And to disrobe this thing of all its surroundings, it was nothing more nor less than an appropriation of \$850,000 to the railroad companies. Pennsylvania was giving the Pennsylvania railroad company \$850,000 to the distributed after the passage of the bill by the Legislature. Is that any part of a contract; when it is agreed that the whole amount of this money, or nearly so, belonged to Pennsylvania?

The act of 1861 provided that these \$850,000 should be divided among ten railroad companies. When certain work was done, when certain conditions in this law were complied with, then it was made the duty of the company to appropriate this money.—Yet, in their report, they say that to six railroad companies they have appropriated this money. At the same time they admit that these railroads were not in a condition to receive the money.

Mr. Scott, (Huntingdon:) The law in itself is prejudicial to public interests—to the interests of the people. Its passage was procured by fraud.

judicial to public interests—to the interests of the people. Its passage was procured by fraud. The Constitution of the United States provides that no State shall pass a law impairing the validity.

that no State shall pass a law impairing the validity of contracts. He proposed to consider whether the State has made a contract in this case. We must take the act as it stands. The right of the Commonwealth to collect tonnage duties has been questioned. If there be in that law any provision that infringes the Constitution of the United States—then the Legislature transcended their power in setting apart that money, and the remedy is open.

He was forced to believe that there is in this law a contract. The question is whether a fraud in this transaction can be reached either by this body, or any judicial body of this Commonwealth. It is the duty of every member of this House to give his most serious attention to this question. A more important one could not be brought before anybody, either legislative or judicial. He was not guided, in considering the propriety of the repeal of the act, by

legislative or judicial. He was not guided, in considering the propriety of the repeal of the act, by any blind admiration for the Pennsylvania railroad any blind admiration for the Pennsylvania railroad company, nor of hostility to it. He looked upon the railroad as a great enterprise. It had greatly developed the resources of the State, and in the late national exigency did much towards saving the Capital. But money was used in procuring the passage of the law last year. This venality must be stopped. Unless we stop the use of money in public business, it will not be many years before a traveling artist will take his stand upon the unfinished shaft reared to the memory of Washington, on the banks of the Potomao, and sketch the ruins of a crumbling Capitol.

itol.

If the Legislature has been corrupted, why should not the courts take cognisance of the question? If the Legislature can be corrupted, and there is no judiciat remerly, and this corruption can go on, we may soon begin to fear that gold will begin to find its way into all legislation—among all public officers, and hold the scales not for the justness of the cause

and hold the scales not for the justness of the cause but the weight of the bribe.

Mr. Tracy (Bedford) wished that the gentleman and more like him were here last winter. Is it possible that the Legislature cannot repeal a law, although it be an act contracted and consummated in fraud and corruption. He (Mr. Tracy) believed that the Legislature have the remedy for corruptions of this kind, that the remedy is here among us, and it is a duty we owe our constituents and ourselves and the Commonwealth whose representatives we are that the remedy must be now and speedy.

Mr. Williams, (Allegheny.) said he bud prepared a bill which he proposed by way of substitute for the one now upon the table. He made a motion to amend the bill and presented the following amendment:

An act to repeal the act, entitled "An act for the commutation of the tonnage puties, approved March 7, A. D. 1861.

thens of the people, at a time when the country pre-eminently required the most rigid economy and the strictest husbandry of their resources:

And Whereas, The said act was approved by the Governor, as shown by his message to the House of Representatives of the 5th day of February last, under a stipulation in writing for the benefit of the people, which was not not made known to them, and has since been surrendered without their knowledge has since been surrendered without their knowledge or consent on the demand of the said company without any previous registry in the proper office, and without even the preservation of a copy thereof:

And W hereas, It is affirmed and believed that the terms of the said act of Assembly were dictated by the said company, and that the passage thereof was procured by improper and unlawful means, other than those which have been already recited on the part of the said company and its agents; therefore.

owing at the time of the passage of the said recited act which is hereby repealed, together with such ad-ditional tax or duties as would have accrued upon the tonnage of the said company until the date of the present act. And for the proper ascertainment of the amount of the said additional tax, it shall be the duty of the said company to file, forthwith, in the office of the Auditor General a statement, duly arsenal west of the Alleghanies, and in the valley of the Ohio and Mississippi. It was referred to the Committee of the Whole on the State of the Union. The bill to receive engineers into the volunteer service of the United States was rejected after some discussion. The bill granting homesteads to actual settlers, and providing bounty for soldiers in tieu of lands, was amended so as to take effect Jan. 1, 1863.

\*\*LETTER FROM MR. STANTON.\*\*

The Secretary of War has addressed the following letter to the New York Tribune in answer to the articles which have appeared in that paper, ascribing to him the credit of

SENATOR WADE OF OHIO. We learn from a paragraph in the Cincinnati Enquirer that JOHN W. FORNEY has been interfering in Ohio politics by writing letters advising the members of the Ohio Legislature to vote for BENJAMIN F. WADE for United States Senator. There is evidently great apprehension among the radicals that Mr. Wade will be defeated, and the most superhuman efforts are being made to secure his re election.
The Philadelphia Press has published several urgent appeals to the Ohio Legislature in behalf of Wade, who is no doubt a good friend of J. W. F., and consequently sound and relia-

ble.
The Union Democrats in Ohio, however, who hold the balance of power in the Legislature, are not satisfied with WADE's antecedents. He has been conspicuous of late years hé made at Portland, Maine, in 1855, WADE

"There was really no Union between the North and the South, and he believed no two nations upon the earth entertained feelings of more bitter rancor toward each other than these two sections of the Republic. The only salvation of the Union, therefore, was to be found in divesting it entirely from all taint of slavery. There was no Union in the South.

Let us have a Union, or let us sweep away the remnant which we call Union."

Now the man who would utter such sentiments as these, is as great a disunionist in to Wilmot and send Cameron back to his seat

WHERE IS THE REBEL ARMY OF THE WEST —One of the mysteries of the day is the whereabouts of the rebel army of the West. Notwithstanding their losses at Fort Donelson and elsewhere, they cannot have less-and may have many more—than one hundred thousand men in Tennessee. Twenty thousand of these are or were at Columbus, are the other eighty thousand? It is suggested in a western journal that we have not reached the real line of defence at the West that Bowling Green, Columbus, Forts Donel son and Henry were but outposts, and the real Torres Vedras is at Tullahoma, at the ntersection of the Nashville and Chattanoog with the McMinnville and Manchester roads Here, according to this theory, is to be the real western Manassas, with Murfreesboro' as a kind of a Leesburg guarding the approach to it. At Tullahoma are the mountain ridges by the passes of which only can the seaboard b

reached. Whatever value there may or may not be in these theories, it is very evident the fighting is not all over yet at the West. Beauregard and Jounston have a large and desperate arm still under their control, and the utmost vigi lance will be required on the part of our commanders to provide against surprises.—N

CURE FOR CANCERS .- Our attention has recently been called to a cure for cancers. which is of such importance that we wish to make it known as widely as possible.— Some eight months ago Mr. T. B. Mason, who keeps a music store on Wisconsin street, and is a brother to the well known Lowell Mason -ascertained that he had a cancer on his facthe size of a pea. It was cut out by Dr. Wolott, and the wound partially healed. Subse quently it grew again, and while he was in Dincinnati on business it attained the size o a hickory nut. After remaining there several weeks under treatment, he has come back perfectly cured. The process was this:

A piece of sticking-plaster was put over the cancer, with a circular piece cut out of the centre a little larger than the cancer, and s small circular rim of healthy skin next to it was exposed. Then a plaster made of chloride of zinc, blood root and wheat flour was spread on a piece of muslin of the circular opening, and applied to the cancer for twenty for hours. On removing it, the cancer will be found to have been burnt into and appear the color and hardness of an old shoe sole, and the circular rim outside of it will appear white and parboiled, as if scalded by hot steam. The wound is now dressed and the outside rim soon separates and the cancer comes out a lump, and the place heals up. The plaster heals the cancer so that it sloughs out like dead flesh, and never grows again. This remedy was discovered by Dr. Fell, of London, and has been used by him for six or eight years with unfailing success, and not a case has been shown of the reappearance of the cancer where this remedy has been applied. It has the sanction of eminent physicians and surgeons in London but has not till recently been used in this country, and many of the faculty, with their proverbial opposition to innovation, look upon it with distrust .- Mil.

The following from the St. Louis Republican, Feb. 18, refutes the slanders originated by the New York Tribune and New

M'CLELLAN AND HALLECK .- The newspapers have given circulation to reports in relation to these Generals which are utterly untrue, but evidently designed to create mis understanding and jealousies. We are authorized by General Halleck to state, that he has at all times received the most hearty cooperation from Gen. M'Clellan, and that in al the military operations in this Department he has had the advice and approval of the General in Chief. The two Generals are in almost constant communication by telegraph."

THE GREAT FLOOD IN CALIFORNIA-IMMENSE LOSS OF PROPERTY—SAURAMEN-TO A RUINED CITY.-A letter from San Francisco, dated Jan. 20, gives the following additional particulars of the recent oods in California:

The great Noah shower hardly exceeded what we have had for more than forty days and nights past. It has rained continually, and poured down almost unceasingly since November 9. There has been but about twelve clear days during the period from that date to this, and the consequence has been that the whole country, the valleys and lowlands, are under water, towns and villages swept away, farms and farm houses washed clean, the water over many being from six to ten feet deep. The Sacramento Valley, from the mouth of the Sacramento to fifty miles beyond Marysville and from mountain to mountain, is submerged-covering an area of two hundred miles in length and from fifty to sixty miles in breadth—the tops of the trees and an occasional barn roof only being visible.-All the adjacent valleys are in a similar condition. In the mining districts the destruction has been equally great. Flumes, dams, and quartz mills have been swept away, in many instances the people bare

escaping with their lives. The loss of stock, fences, horses, hay, grain and other property is almost beyond calculation, and will foot up millions, bringing utter ruin upon thousands. Sacramento City has been covered from two to six feet deep for a month past, and the people have been driven from their homes o seek refuge in San Francisco. Public and private houses have been thrown open to the sufferers, and contributions continue to flow in from the old and young, and committees go about from house to house seeking contributions of money, clothing and provisions, and their efforts are rewarded by donations of articles suitable to

the wants of the sufferers. The California Steam Navigation Company bring down all who present themselves, free of charge. On their arrival here the committees take charge of them, and procure lodgings, food and clothing, and seek in every way possible to alleviate the sufferings of the poor creatures who have lost their all, and from comparative comfort are reduced to want and despair. Several thousands have been provided for. and more are coming. Where it will end nobody knows. The steamboats go up daily, loaded with clothing and provisions for the destitute at Sacramento, and boats are plying in all directions, picking up declares that he is not an applicant, nor will people from the tops of houses and barns he be, for any foreign appointment. He deon the ranches, where they have in many instances clung in desperation for days .-There are, of course, many remote locations that have not yet been reached, and a great loss of life must already have ensued. It still continues to "pour down," and the waters continue to rise, and no hopes of pleasant weather. Sacramento is a ruined city, and it will be a miracle if it can ever recover from this blow, and the whole State has received a check to its prosperity that will require years to re-

FOR PURIFYING THE BLOOD. And for the speedy cure of the following complaints: Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

Oakland, Ind., 6th June, 1889.

J. C. Ayer & So. Gents: I feel it my duty to so knowledge what your Seraparilla has done for me. Having inherited a Scrofelous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and leathoune beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Goopel Messenger that you had prepared an alterative (Saraparilla), for I knew from your regutation that any thing, you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scale, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilia a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Female Disease of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."
Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ocarian lumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilia. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as: the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains." Syphilis and Mercurial Disease.

New Orleans, 25th August, 1859.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects. I have realized with your Sarsaparilla.

I have curred with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had esten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by nacrury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

remedy: consequency, these sums with it have not surprised me.

Dr. J. C. Ayer: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was uttacked. I think it a wonderful medicine. J. FREAM. attacked. Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. My beloved pastor, the Rev. Mr. Expy, advised me to try your Sarsaparilla, because he said he know you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough." A great variety of cases have been reported to us where cares of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanae, which the agents below named are pleased to furnish gratis to all who call for them. Dyspepsia, Heart Disease, Fits, Epitepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral FOR THE RAPID CURE OF Conglis, Colds, Influenza, Hoarseness, Croup, Bronchitis, Inciplent Con-sumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of threat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all known the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
