absolutely unsurpassed by any other remedy on earth. To
be assured of this, it is only necessary to make the trial.

The Wine itself is of a very superior quality, being about
one-third stronger than other wines; warming and invigorating the whole system from the head to the feet. As
these Bitters are tone and alterative in their character, so
they strengthen and invigorate the whole system and give
a fine tone and healthy action to all its parts, by equalizing the circulation, removing obstructions, and producing
a general warmth. They are also excellent for Diseases
and Weakness peculiar to Females, where a Tonic is required to strengthen and brace the system. No Lady, who
is subject to lassitude and faintness, should be without
them, as they are revivilying in their action.

This is the only material manufactured in the United States which combines the very desirable properties of necessary to satisfy a discerning public of its superior quall ties over any other preparation at present in use. It cleanses the head and scalp from dandrul and other cutaneous diseases. Causes the hair to grow luxuriantly, and gives it a rich, soft, glossy, and fluxible appearance, and also where the hair is loosening and thinning, it will give strength and vigor to the protise, and restore the growth to those parts which have become baid, causing it to yield a fresh covering of hair.

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this fluvigorator, when all other preparations had failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest respectability. It will effectually prevent the hair from turning gray until the latest period of life; and in cases where the hair has already changed its color the use of the Invigorator will with certainty restore it to its original hue, giving it a dark, glossy appearance. As a perfume for the tolet and a Hair Restorative it is particularly recommended, having an agreeable fragrance; and the great facilities it afford in dressing the hair, which, when moist with the Invigorator or can be dressed in any required form so as to preserve its place, whether plain or in curis—bence the great demand for it by the ladies as a standard tollet strick which none ought to be without, as the price places it within the reach of all, being ONLY TWENTY-FIVE CENTS per bottle, to be had at all respectable druggists' and perfumers.

L. MILLER would call the attention of Parents and Guardians to the use of his Invigorator, in cases where the childrens' Hair inclines to be weak. The use of it lays the foundation for a good head of hair, as it removes any impurities that may have become connected with the scalp the removal of which is necessary both for the health of the child, and the future appearance of the Hair.
