where the hair is loosening and thinning, it will give strength and vigor to the roots, and restore the growth to those parts which have become hald, causing it to yield a fresh covering of hair.

There are hundreds of halles and gentlemen in New York who have had their hair restored by the use of this Luvigorator, when all other preparations had failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest respectability. It will effectually prevent the hair from turning gray until the latest period of life; and in cases where the hair has already changed its color the use of the Invigorator will with certainty restore it to its original hue, giving it a dark, glossy appearance. As a perfume for the toilet and a Hair Restorative it is particularly recommended, having an agreeable fragrance; and the great facilities it afford in dressing the hair, which, when moist with the Invigora tor can be dressed in any required form so as to preserve its place, whether plain or in curls—hence the great demand for it by the ladies as a standard toilet article which none ought to be without, as the price places it within the reach of all, being ONLY TWENTY-FIVE CENTE per bottle, to be had at all respectable druggists' and perfumers.

L. MILLER would call the attention of Parents and Guardians to the use of his Invigorator, in cases where the childrens' Hair inclines to be weak. The use of it lays the foundation for a good head of hair, as it removes any impurities that may have become connected with the scalp the removal of which is necessary both for the health of the child, and the future appearance of the Hair.
