IT IS FIRE AND WATER PROOF. n be applied to new and old Roofs of all kinds, steep or flat, and to Shinge Roofs without removing the Shingles. THE COST IS ONLY ABOUT ONE-THIRD THAT OF TIN, AND IT IS TWICE AS DURABLE.

TIN, AND IT IS TWICE AS DURABLE.

This article has been thoroughly tested in New York city and all parts of the United States, Canada, West Indies and Central and South America, on buildings of all kinds, such as Factories, Foundries, Churches, Railroad Depots, Cars, and on Public Buildings generally, Government Buildings, &c., by the principal Builders, Architects and others, during the past four years, and has proved to be the Cheapest and most durable Roofing in use; it is in every respect a Pire, Water, Weather and Time Proof covering for Roofs of all kinds.

This is the only unaterial manufactured in the United States which combines the very desirable properties of Elasticity and Durability, which are universally acknowledged to be possessed by Gutta Percha and India Rubber.

The expense of applying it is trifling, as an ordinary Roccan be covered and finished the same day. IT CAN BE APPLIED BY ANY ONE, and when finished forms a perfectly Fire Proof surface, with an elastic body, which cannot be injured by Heat Cold or Storms, Shrinking of Boof Boards, nor any external action whatever.

LIQUID GUTTA PERCHA CRMENT, For Coating Metals of all Kinds when exposed to the Action of the Weather, and FOR PRESERVING AND REPAIRING METAL ROOFS OF ALL KINDS.

This is the only Composition known which will successfully resistextreme changes of all climates, for any length of time, when applied to metals, to which it adheres firmly, forming a body equal to three coats of ordinary paint, costs much less, and will last three times as long; and from its elasticity is not injured by the contraction and expansion of Tin and other Metal Roofs, consequent upon sudden changes of the weather.

It will not crack in cold or run in warm weather, and will not wash off.

Lesky Tin and other Metal Roofs can be readily repaired with GUITA PERCHA CEMENT, and prevented from further corrosion and leaking, thereby ensuring a perfectly water tight roof for many years.

This Cement is peculiarly adapted for the preservation of Iron Railings, Stoves, Ranges, Safes, Agricultural Implements, &c., also for general manufacturers' use.

These littless for the ourse of Week Blomacks, General Debility, and for Peniriying and Euriching the Blood, are abulished unsurpassed by any other summit see earth. The Wine study is of a very superior quality, being about one-third strongs than other wines; marinagened princesting the whole system from the bead to the least, the these litters are tonic and alterative in their character, so they strengthen and invigorate the whole system and give a fine tone and healthy action to all its parts, by equalizing the circulation, removing obstructions, and producing a general warmth. They are also excellent for Disasses and Weakness posular to Juneles, where a Tonic is required to strengthen and brace the system. Although the medical men of the country, as a general thing disapprove of Patent Medicines, yet we do not believe that a respectable Physician can be found in the United States, acquainted with their medical properties, who will not highly approve DR. J. BOYER DODS' IMPERIAL WINE BITTERS.

The IRON being absorbed by the blood, and thus circulating through the whole system, no part of the body can escape their truly wonderful influence.

The experience of thousands daily proves that no preparation of Iron can for a moment be compared with it. Impurities of the blood, depression of vital energy pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. In all cases of female debility (fluor albus, chlorosis, etc.), its effects are delightfully renovating. No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects.
