The following, from the Venango County Speciator, speaks our sentiments so thoroughly, and is so applicable at this time, that we adopt and endorse "every word and every line " of it :

While the Democratic party has freely and nobly, through its masses and its leaders, given its men and means to sustain the Union as it was and the Constitution as it is, because it will not carry out the Abolition programme, which is Disunion and National Death, it is denounced as disloyal, at least by implication, in the published call of the Abolition Home Guard.

It is idle to repel this charge. It is the last slander of a desperate and disorganized faction. Every battle field attests its falsity. Every Democratic platform, since the days of Jefferson, proves the Democratic party Na-tional, not Sectional,—every act proves its devotion to the Union. If the country is to be saved it must be done

by the orly National Party, and by the rally-ing to it of all the conservative men of the North. The causes of all our troubles, Abolition and Secession must be put down before we can ever be a happy and united people. The instigators of the strife that has desolated the country and carried sorrow to so many homes, are not the men, North or South, to restore peace and harmony. Let our watchword be, "Bullets for Seces-

ionists ! Ballots for Abolitionists !"

There is an awful responsibility resting upon the conservative men of the country, no matter what may have been their party affiliations, that must be met. If we would sus-tain the brave men in the field who are putting down the Rebellion, let us put down Fanaticism at home. Let us, as our share of the work, put down that party which calls the Constitution of our country "a league with death, and a covenant with hell." Let us by the peaceful ministration of the ballot box crush that party which regards the emancipation of four millions of negroes as the paramount object of the war, that party which, through its Wades and its Lovejoys, its Wilsons and its Sumners, would to morrow vote for a separation of North and South, unless the Abolition programme is carried out. Let us meet the issue fully and fairly. We have seen our enemies and the enemies of the Nation, legislating exclusively for the at Sewell's Point? Who-but we have not Negro. They have not passed a single act for the benefit of the sick or wounded Union sol- Irish birth, who have forever put to shame the diers in the field. While the wives and children of our brave volunteers have been left to suffer the privations of want, an Abolition majority in Congress has been deaf to their sufferings, and squadered the public funds in establishing a Government Alms-house at Washington, for the benefit of runaway negroes. This they call " sustaining our six hundred thousand bretbren in the field."

No matter what their professions may be, we must judge them by their record. These are the men who claim all the loyalty

in the country, and these are the men we must meet and vanquish at the polls.

Unless we wish to be taxed for the support of the negro-unless we wish to be taxed for the purchase of the negro-unless we wish the laboring white man of the North to compete with the swarms of negroes emancipa-tion would burl upon us-unless, in short, we would transform the Government into a philantropic society for the benefit of the African race, let us meet the issue boldly. Let us put down Secession in arms, and its twin brother, Abolition, at home.

SECESH MEMBERS OF CONGRESS. The Washington correspondent of the Indianopolis State Sentinel writes as follows :

I returned to the hotel rather crestfallen and fully of the opinion that I was not near so great a personage as I at first imagined. In the evening I visited the "Secesh " mem bers of Congress, Colonel RICHARDSON'S rooms. where I found several other "Secesh" Rep-Resentatives. Among the number were nine-tenths; proposition excluding them from ROBINSON, of Illinois, DAN YOORHEES, of Indi HINA, VALLANDIGHAM, of Ohio, and many oth-ers. These Rebels talked "Secesh" right out, and, in my opinion, they ought to be expelled from the House. They are opposing all the measures of the Administration which thus far is about 13,000. tend to the freeing and equalizing the negro of the South with the whites of the North.

They oppose the organization of a regiment of runaway negroes, their being armed and uniformed, as is being done by one of our

BIGOTRY AND PANATICISM. We learn from the Boston papers that Governor Annarw's decision that Irish regiments should be raised in Massachusetts, unless officered by Americans, has caused considerable excitement among the Irish citizens of Boston. On Saturday evening a large meeting was held, and the course of the Governor denounced in strong language, Aye, and such a miscrable bigoted decision will cause considerable excitement throughout the length and breath of the land. Why the decision? Have our Irish officers reflected

anything but the highest honor on the flag of our country? Wherever and whenever our brave troops have been led by an Irishman, have not the deeds of valor been performed which will add the most glowing pages to our national history? Who is SHIRLDS, whose noble form has been cut by the enemy's steel. and perforated by the foeman's bullet-who on the well fought fields of Mexico, bore aloft, Stripes to glorious victory ! Who is CORCOMAN, who, bravely leading his

forlorn hope against overwhelming odds, was overpowered and taken, sword in hand, by the native enemies of his adopted land, and who when taunted by native traitors that he would be hung, if Baker and the other pirates were executed, sent from his unwholesome Southern dungeon, the words which went North, East

and West: "Tell the Government to do its duty-I am ready to die!" Has Governor ANDREW ever said as much? Would he have uttered that sentiment if he had been in the place of the Irishman Corcoran? Who is MULLIGAN, who for tedious days

maintained against the greatest odds that Lexington fortification, and fought with his noble command against hope, and only gave up when isolated, forsaken, unaided, he was iterally starved out and deprived of the last drop of water ? Who is O'KANE, who had the high honor of capturing so splendid and valuable a prize as Pettigrew? Who is THOMAS FRANCIS MEAGHER, who so nobly participated with the New York Sixty ninth, in the bloody battle of Bull Run, who afterwards raised a brigade of his heroic countrymen, and who is now at the head of that brigade, doing battle for his adopted country ? Who was the gallant BAKER, who fell at Ball's Bluff? Who was Lieut. Col. HAGGERTY, killed at Bull the time to enumerate all the noble herces of native traitors, who are the first men on the face of the earth that dared to insult the American flag. Why, then, this deliberate insult of Mr. ANDREW, who is of consequence only because he happens to be a Governor, and who only disgraces a State which was once dignified by the possession of a Webster

-Philadelphia Evening Journal. VELVET MANUFACTURE.-Few of our citizens are aware that we have had in Chester county,

an establishment at which the finest silk velvet s manufactured, of every style and pattern. A specimen of the goods was exhibited at the Horticultural Exhibition in West Chester last week. They rival the best imported ar-ticles, and are made at prices which command the market. The factory is on the Valley creek, four or five miles north-west of Wes Chester, known as "Baldwins' factory." Mr. John Brooke, is the proprietor. He sells his goods in New York, where we have no doubt they are re-sold to Philadelphia and thence to Chester county. Mr. Brooks is a practical workman, and has established among us one of the best velvet factories in America.-

This idea, and the policy which is its outgrowth, savors too much of the reckless extravagance which is the forerunner of bankruptcy to be acceptable to the people, who have a vivid apprecia tion of the fact that they must put their hands deep in their pockets to foot the bills.

Without concluding action on the bill the House ad-journed. ThURSDAY, June 26. In the Senate to-day Mr. Foster, from the Com-mittee on Pensions, reported a bill for the relief of the widow of Gen. C. A resolution was offered, but laid over, re-questing the Sceretary of War to transmit to the Senate the report of Messrs. Holt and Owen, and all the statements of that commission. The bill for the admission of the State of Western Virginia was taken up, and Mr. Summer moved an amendment prohibi-ting slavery within the limits of the state, exceptfor the punishment of crime whereof the parties shall be duly convicted: Pending the question the Senate for the trial of Judge Humphrey. The members of the House were present and participated in the pro-ceedings. The accused was then summoned to appear, but no response being made, the witnesses for the prosecution were sworn and their evidence of taken. Full proof of his disloyalty having been given, the impeachment was carried, article by arti-ide, with the ecception of a specification in the sixth declaring the court of opinion that the accused be removed from the office of district judge for the District Court of the United States for the district of Temessee, and that he be disgualided from holding or enjoying any office of hom, trust or profit under

Mr. Walton offered a preamble and resolution, which were adopted setting forth that the publishers of the New York Tribune have charged that offers of a pecuniary nature have made, for the purpose of obtaining the action of the House improperly and criminally, and concluding with instructing the Judiciary Committee to inquire into the matter and report the truth or falsity of the charge. SNOW IN JUNE — Yesterday afternoon it commenced snowing in this city, feebly, it is commenced showing in this city, local, it is true, but nevertheless really snowing. It was cold enough all day for overcoats and fur out doors, and for coal fires within ; but the snow, though no novelty in Chicago, when in season was, considering the time of the year, when was, considering the time of the year, when according to all standard almanacs this should be near mid-summer, a novelty and curiosity. THE COMMISSIONERS ON CLAIMS.

WASHINGTON, June 27. The developements which are daily being

made by Messrs. Joseph Holt and Robert Dale Owen, the Commissioners to whom are referred the claims of Government contractors are exciting much attention. The scandalous charges of some of the contractors prove that they are worse enemies to the Government than the rebels. The system of brokerage on the part of members of both branches of Con grees, is not the least humiliating fact which has been brought to light by the Commission. The attempted justification of Senator Simmons, in receiving on a contract five per cent, amounting in all to over fifty thousand dollars, meets with universal condemnation.

There are other Sepators and Representatives who are in the same boat with him, and believe that their transactions are fair and legitimate. A stringent law in regard to such transactions on the part of Government officials is necessary, but there is no prospect of such a law being passed at the present session. The disclosures made by the Commission are bringing to light others. It is alleged that the currycombs furnished by some Philadelphia contractors are made out of jute-that the tents are less weight than the army standard-that the wagons are inspected and passed contrary to law, and other matters which have for their object the depletion of the National Treasury. All these things will be brought to light at the proper time. Several of the Investigating Committees will remain in session all sum-
