Army, on the 4th of July.

Hadquartes of the Arm of the Poromac, Comp near Hartson's Linding, July 4th, 1882.

Sommes of the Arm of the Poromac. Your achievements of the last ten days have literated the valor and endurance of the American soliler. Attacked by superior forces and without hope of reinforcements, you have succeeded in changing your base of operations by a flank movement, always regarded as the most heartfours of military empedients. You began and all your material, all your craims, and all your gues, except a few lost in battle, taking in return gues and colors from the enemy.

Upon your march you have been assailed day after day with desperate fury by men of the same race and nation, skilfully massed and ied.

Under gway disadvantage of numbers, and necessarily

skilfully massed and fed.
Under gyery disadvantage of numbers, and necessarily
of positions also, you have in every conflict beaten back
your foes with enormous slaughter.
Your conduct ranks you among the celebrated armles of history.

No one will now question that each of you may always with pride say, "I belong to the army of the Potomac."

You have reached this new base complete in organization and unimpaired in spirit.

The enemy may at any time attack you. We are prepared to meet them. I have personally est-blished your lines. Let them come, and we will convert their repulse into a final defeat.

Your Government is strengthening you with the re-

Not government is strengthening you sourcest of a great people.

On this our nation's birthday we declare to our foes, who are rebels against the best interests of mankin', that this army shall enter the capital of the so-called Confederacy, that our National Constitution shall prevail, and that the that our National Constitution shall prevail and that the characteristic process could be considered to the constitution of the constitution of the constitution shall prevail and that the characteristic process could be considered to the constitution of the constit ernment is strengthening you with the rewhich can alone insure internal peace and externs to each State, must and shall be preserved, co-may in time, treasure, or blood. GEORGE B. McCLELLAN, Major General Commanding.

the border States would be at two different rates of payment per capita for the slaves, and it will have been seen that I have favored the more liberal scale. I now proceed to show what would be the cost of redeeming the whole slave population of the Union at the same rates.

"By the census of last year there were 3,952,801 slaves in the United States and Territories. I have already shown that 454, which belonged to the border States, would be worth, at \$250 each, \$113,610,250, and at \$300 each, \$136,332,300. There remains to be disposed of, therefore, 3,498,360 slaves, embraced in the country subject to the slaves, embraced in the country subject to the rebels, but including, of course, large numbers belonging to the friends of the Union, who have been constrained into obedience to the rebel authorities against their wills. At the lowest estimated average value of \$250, these slaves of the rebels would be worth \$874,590,000, and adding the compensation to the border States, on the same terms, the aggregate cost to the Government would be \$988,200,250.

At the highest water of \$20,000,000. The Senate then adjourned. In the House, the Speaker presented a message from the President recommending a vote of thanks to Captain Foote and others for gallant services. It was referred to the Committee on Naval Affairs. Mr. Washburne reported a resolution that the Committee on Government Contracts make an investigation into the alleged issue of patents for lands in the military reserve at Fort Leavenworth. The resolution was objected to Mr. Mallory reported a bill to aid in the construction of the Pittsburg and Corneliville Railroad. It was referred to a committee. Mr. Maynard introduced a bill concerning the holdcost to the Government would be \$988,200,250. At the highest rate of \$300, the slaves in the rebel States would be worth \$1.049.508.000: and adding the cost of compensation to the border States, at the same rate, the aggregate expense of emancipation would be \$1.186 .-Or for the convenience of round numbers, the cost of emancipation would be. at \$250 per head, \$1,000,000,000, and at \$300 per head, the cost would be \$1,200,000,-

tion that the slaves of the South will cost the white men of the North \$1,200,000,000! and as the money for this purchase must be borrowed, it follows that, at six per cent., the interest or annual tax paid for this philanthropic purpose will be seventy-two millions of dollars! Now, as the interest upon the public debt at the expiration of the war cannot be less than one hundred millions, the annual appropriations for the support of the Government, including the support of the army and navy, at least one hundred and fifty millions; pensions for the support of our and maimed volunteers, for the widows and orphans of the brave men who have been killed in battle or who have fallen a prey to disease, not less than one hundred ions; for the multitudinous claims against the Government arising from the contingencies of the war and the expenses of a vast system millions of dollars, it follows that ere long the annual appropriations required to be made by Congress, and to be extracted from the pockets of the people, to pay for the expenses of a war fomented by Northern negro worshippers and declared by secession negro owners, will amount to upwards of FIVE HUNDRED MILLIONS OF DOLLARS! and this enormous amount of annual taxation, not including one penny for a sinking fund to reduce this monstrous incubus upon the industry and

energy of the people. population of Pennsylvania is onetenth of the entire population of the United States; therefore, according to the above calculation, which time will prove to have been underrated, the direct and indirect annual tax, pavable by the people of this State to the Na ional Government, will amount, at the expiration of the war, to FIFTY MILLIONS OF DOL-LARS, being about one hundred dollars to each voter! Surely this is paying rather dear for the whistle of emancipation, which has, for years past, been blown into the ears of the

people by the Northern Abolitionists I

The next question which arises is, in what condition will the whites find themselves to pay the enormous tax demanded of them, and how far will the condition of the negro have been ameliorated? This we reserve for future articles .- Patriot & Union.

MOSDAY, June 30,

In the Senate a bill was passed to establish national arsenals at Columbus, Ohio, Indianapolis, Indiana, and Bock island, Illinois. A resolution was offered fixing a quorum of the Senate, on the ground that there were now but thirty-seven Senators accessible or present in the city, and that as thirty-five were now held to be necessary to do business, some accident might leave the body without a quorum. The resolution was opposed, as against precedent and former decisions, and did not pass.

In the House the whole of the session was taken up with the consideration of the bill to construct a ship canal for the passage of armed and naval vessels from the Mississippi river to Iake Michigan.

Tussday, July 1.

The bill for the admission of West Virginia was taken up in the Senate to-day, the question being on the amendment of Mr. Sumner, that after July 4, 1863, there be no slavery in the State. Mr. Sumner spoke in favor of the amendment, and Messrs. Hale and Collamer against it. Mr. Collamer urged that the State could not be admitted under the provisions of the bill. Mr. Willey proposed an amendment that all children born after July 4, 1863, be free. Mr. Wade favored this amendment, but on motion of Mr. Fessenden the further consideration of the bill was then postponed. The army appropriation bill was then Wade favored this amendment, but on motion of Mr. Fessenden the further consideration of the bill was postponed. The House resolution to grant lands in the State of Michigan for railroad purposes, was adopted. A resolution asking the President for information concerning the arrest of Mr. C. C. Fulton, of the Baltimore American was laid over.

Mr. Blair offered a resolution Senate's amendments to the army appropriation bill were concurred in. Mr. Blair offered a resolution calling upon the Secretary of War to communicate to the House any communication which the government might have relative to the occupation of White House. Mr. Sheffield called up his resolution relative to the Michigan and Illinois Canal. Mr. Holman moved to lay it on the table, but the motion was lost. Without making any disposition of the bill the special order was taken up. Mr. Sedgwick made several reports, compensating the crew of the Varuns, thanking Commodore Farragut, Commodore Goldsborough, and Lieutenant Worden for their gallant conduct, &c., all of which were passed. Mr. Sedgwick also offered resolutions thanking Commodores Dupont and Farragut, which were passed; likewise resolutions concerning an iron foundry for ship building, and regulating the navy and marine corps. He also reported a resolution concerning the permanent location of the Naval Academy, which was laid on the table, and the House adjourned. Thus it appears by Mr. Goodloe's calcula-

The bill from the House in relation to judicial districts was taken up and passed, with an amendment concerning the eighth and ninth districts. The bill to establish provisional governments in certain cases was taken up, and the discussion of it afterwards postponed till to-day. Mr. Sumner moved an amendment that no evidence be excluded on account of color. The Sergeant-at-Arms being instructed to request the attendance of absent members, a quorum was obtained, and the amendment was lost.

In the House Mr. Lovejov on a covertion of privi-

In the House Mr. Lovejoy, on a question of privi-lege, moved that General Hunter's answer to the resolution of Mr. Wickliffe in relation to a negro regiment be read for the latter's benefit, as he was resolution of an experiment of the latter's benefit, as he was absent when it was up before. Mr. Wickliffe declared that he would answer at the proper time.—The House then went into the consideration of private bills. Judiciary Committee for the discharge or trial of state prisoners. The bill was ordered to be printed Mr. Colfax reported back a bill from the Post Office Committee relative to Messrs. Carnuck and Ramsey, with an amendment striking out \$80,000, the maximum allowance, and inserting a substitute for the section under which they claim damages, on the ground that it had once been decided. The substitute was adopted and passed. Mr. Colfax also reported the Senate bill from the same committee, providing for suing the sureties of postmasters in the rebel states for defalcation, within two years after the courts are reopened. The bill was passed. The confiscation bill from the Senate was then taken up, with an amendment in the form of a substitute. A motion was made and carried to non-concur in the Senate's amendment. SATURDAY, July 5.

In the Senate to-day Mr. Grimes called up the resolution requesting the Secretary of Wart of urnish the official reports of Col. Canby, in regard to his operations in New Mexico. Adopted. Mr. Hate introduced a bill repealing the act requiring the bonds of Paymasters and Assistant Paymasters to be approved by the Judge or Attorney of the District in which he resides. Passed. Mr. Chandler from the Committee on Commerce, reported back the House bill authorizing the appointment of a Deputy Collector of Customs at hincoteague Island, Va.—Passed. Mr. Chandler, from the same Committee, reported back a bill to abolish certain ports of delivery in the Mississippi Valley. Passed. Also, from the same Committee a bill for the collection of revenue in the Northern, Northeastern and Northwestern frontier. Passed. Mr. Lane (Kansas) offered a resolution that the President be requested to inform the Senate of the amounts due to the Steate of the property of the president of the Steate of the steater of the Steate of the Steater of the revenue in the Northern, Northeastern and Northwestern frontier. Passed. Mr. Lane (Kansas) offered a resolution that the President be requested to
inform the Senate of the amounts due to the State of
Kansas from the several Departments of the Government, with the view of applying the same as taxes
due from the said State. Adopted. Mr. Wade
called up the bill providing for certain post roads.
It provides for a bridge across the Ohio at Steubenville. Mr. Cowan moved to amend so as to make
the draw of the proposed bridge 300 feet instead of
270 feet. This amendment was discussed at some
length, by Messrs. Wade, Cowan and Collamer.

In the House Mr. Wickliffe moved to amend to reconsider the vote by which General Hunter's reply
to inquiries as to the organization of negro regiments
a as ordered to be printed. Mr. Wickliffe addressed
the House on the subject. Instead of organizing and
parading negroes, General Hunter ought to have
prepared his troops to prevent the retroat from
James Island. It was a miserable policy to muster
runaway blacks into service. If twenty millions of
freemen were not able to suppress a rebellion of six
millions of white men, let the acknowledgment be at
once made.

Rejection of General Shields .- Gen. Shields, it appears, was appointed a Major General by the President, but was rejected by the Senate. This action of the Senate can be ascribed to nothing but political prejudice. A body which readily confirms the appointment of such men as Carl Schurz surely could not have seriously questioned either the qualifications or the patriotism of Gen. Shields. No man has won more numerous or more honorable scars in the service of his adopted country than he, and no man has exhibited a more uniform and unselfish devotion to the Union. He is literally a scarred veteran—yet is turned away from the Senate unrewarded with the honors which the David Leave to the Union which the David Leave the Leave Shields, it appears, was appointed a Major Are Treasury Notes a Legal Tender?—

"I assert it here, and wish the House to listen to it, because I believe in my soul it is true that there has never been a Congres assembled, with which I have had any acquaintance, in which it was more easy to thrust through measures withoutconsideration without debate, ill-advised, and to the pre judice of the best interests of the country, than the present Congress. And, in saying that, I do not impute any want of intellige honesty of purpose, or patriotism to the House but I assert that it arises from this fact, and in my judgment, from this fact alone, that. we are now in the most excited period o our history, and it is impossible to engage the attention of the House for a moment to the ordinary subjects of legislation. Unless the report of a battle can be read from the desk; unless something pertaining directly to the war is before the House, it is impossible to fix its attention for a moment; and to all the usual subjects of legislation the House is ordinarily as deaf as if they had no ears at all. I do not, of course impute this to any

Are you sick, seeks, and complaining. Are you out of order, with your pusses to ranged, and your seelings uncomfortable? These grap terms are often the praiseds to serious liness. Some at of which we to recommend you round times are often the prelinds to serious liness. Some it of serious lines is serious lines. Some it of serious lines is serious lines in serious lines in serious ditention. The serious is serious lines in serious diet in selicit serious of the body and obstructs its instural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the bodynt feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Cansed by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

PILES.

From a Foreparding Merchant of St. Louis, Feb. 4, 1888. Dr. Arm: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, ahe also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic. From Dr. E. W. Curtwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any exthattic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the delly treatment of disease. Headache, SickHeadache, Foul Stomach.

From Dr. Edward Boyd, Balkmore.

Dane Bro. A ver.: I cannot answer you what complaints I have cared with your Pills better than to say all that see ever treat with a puryative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

Bilious Disorders - Liver Complaints. From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver-very marked indeed. They have in my practice proved more effectual for the cure of billous complaints than any one remedy I can mention. I sincerely rejoice that we have at longth a purgative which is worthy the confidence of the profession and the people.

Size: I have used your Pills in my general and hospital practice ever since you made them, and cannot heatast to say they are the best eatherstie we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., Physician of the Marine Hospital.

Dysentery, Diarrhea, Relax, Worms. From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrheza. Their sugar-coating makes them very acceptable and convenient for the use of women and children. Dyspepsia, Impurity of the Blood.

Rev. J. V. Himes, Pustor of Advent Church, Boston DB. Aven: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J.V. HIMES. WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

Too much cannot be said of your Pills-for the care of corticeness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although had enough in itself, is the progenitor of others that are worse. I believe continueness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart. Physician and Midwife. Boston. I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms.
