GENTUMEN OF THE CONVENTION—Your partiality has elevated me to a position of high honor and responsible duties. To this position from my limited experience and knowledge of parliamentary rules such or similar to those adopted for the government of this body. I can bring nothing but a devoted attachment to the great principles that at this unprecedented, momentous and calamitous crisis in our national life, warm the heart, and nerve the arms of American citizens—feeling strongly animated by the same subtiments. Ordinarily it would be appropriate, under circumstances like these, for me to make some reference to the interests likely to come before the Convention—but in view of the fact that a Committee on resolutions has been appointed, it will be the part of prudence and caution; in order not to enunciate anything in advance of the expression of the sentiments which well up in the hearts and influence the people of Pennsylvania, as expressed in the resolutions of the Committee, that I shall forbear making any spech and proceed to the business of the Convention.

At the close there was long and continued applause and then the Convention passed a vote of thanks to Mr. Z. for the able and correct manner in which he read the domment. he read the document.

The Convention then took a recess of more than an hour, to give the Committee on resolutions time to perfect their report. At 5 o'clock the body re-assembled, when A. H. Coffrett, R. H. Kerr and James M. Richards, were ap-

pointed to wait on the Committee and assertain how soon they would report, the reply was: "In about the binutes." Mr. Kerr officed a resolution thanking F. H. Hutchin-son, Eng. for his generous assistance in A-liffating the business of the Convention, by acting as Becretary—which

At a quarter part five the Committee on resolutions came in, and then Arnold Plumer, the Chairman, presented, as the report of the Committee, the hollowing resolutions, which were read by the Becretary:

Werrels, The American Constitution was ordained and established by our fathers, in order to form a more parfect Union, establish justice, ensure domestic tranquility, provide for the common defines, promote the general welfare, and secure the bleesings of liberty to posterity; therefore, and secure the bleesings of liberty to posterity; therefore, and secure the bleesings of liberty to posterity; therefore, and secure the bleesings of liberty to posterity; therefore, and secure the Union as it was, and the preservation of the Constitution as it is.

2. Resolved, That to the end that the Union be restored and the Constitution as it is.

2. Resolved, That to the end that the Union be restored and the Constitution and laws be enforced through units while extent, we pledge our hearty and unqualified support to the Federal Government in the energetic prosecution of the existing war.

3. Resolved, That the true and only object of the war is to restore the Union and enforce the Iswe; such a purpose is alone worthy the awful sacrifice which it costs us of life and treasure; with such a purpose alone car we hope for success—and those who, from sectional feeling or party or private motives, would give any other direction to the efforts of our armies, are unjust and unworthy to be entrusted with power, and would cause all our exertions, extraordinary and unparallaled as they are, to prove fattle in the end.

4. Resolved, That we justly view with alarm the reckless

ordinary and unparalleled as they are, to prove futile in the end.

4. Reached, That we justly view with alarm the reckless extravagance which pervades some of the departments of the Federal Government, and that a return to rigid economy and accountability, is indispensable to arrest the systematic plunder of the public treasury by favored partisans; and that in view of the recent stariling developments of fraud and corruption at the Federal metropolis, and throughout the country, we hold an entire charge of administration policy to be imperaitively demanded.

5. Resolved, That the party fanaticism or crims, whichever it may be called, that seeks to turn the slaves of the Southern States loose, to overrun the North and enter into competition with the white laboring classes, thus degrading and insulting their manhood, by placing them on an equality with negroes in their occupation, is insulting to our race and merits our most emphatic and unqualified condemnation.

6. Resolved, That we decrease the cooperating sources of our present calamities, alike treasonable to the Constitution and inimical to the Union. The only way to a restored Union and a respected Constitution, with returning peace and prosperity, is through the overthrow of sors.

7. Resolved, That the Democracy of Pennsylvania is equally opposed to all sectional legislation and geographical parties, which base their hope for continued partizan success, on the agrarianism of emancipation and hyportifical philauthropy.—Abolition, because neither is known to the Constitution, and both are intended to ald disunfor and subvert the Constitution, and to prevent the restoration of amity, peace and concord among States and people.

8. Resolved. That the Constitution and the laws are sufficient for any emergency, and that the suppression of the freedom of speech, and of the press, and of the unlawful arrest of citizens and the suspension of the writ of Habraus Coeprs, in violation of the Constitution. In States where the civil antibrities are not impeded, is most dangerous to civil liberty, and should be resisted at the ballot box by greey freeman of the land.

9. Resolved, That this is a government of white mea, and was established exclusively for the white race; that the negro race are not entitled to, and ought not to be admitted to political or social equality with the white race; that the tis our duty to treat them with kindness and consideration, as an inferior or dependent race; that the rig't of the several States to determine the position and duties of the race is a sovereign right, and the peleges of the Constitution require us, as loyal citizens, not to interfere there with.

10. Resolved, That Congress has no power to deprive any person of his property for any criminal offence, unless that person has been first duly convicted of the offence by the verdict of a jury; and that all acts of Congress, like those lately passed by the House of Representatives, which as sume to forfeit or confiscate the estates of men for offences of which they have not been convicted upon due trial by jury, are unconstitutional and lead to oppression and tyranny. It is no justification for such acts, that the crimes committed in the prosecution of the rabellion are of unexampled atrocity; nor is there any such justification as State necessity known to our government or laws.

11. Resolved. That the Constitution and Union and the laws must be preserved and maintained, in all their proper and rightful supremacy, and that the rabellion now in arms against them. must be suppressed; and that it is our duty to use all constitutional measures to that end.

12. Pesolved. That the soldiers composing our armies merit the warmest thanks of the nation. Their country called and nobly did they respond. Living, they shall know a nation's caretitude—wounded, a nation's care, and dying they shall live in our memories, and monuments shall be raised to teach pesterity to honor the patricts and heroes who offered their lives at their country's altar. Messes. Editors: It would be impossible for your correspondent to describe the degree of doubt and apprehension and anspease which had sway in this city during nearly the whole of last week. Those fearful six days of batties will no more be forgotten by the quiet re-identers of the city than by those brave and her ic spirits who fought them through on the Chickahominy. But amid all the existy there went up continually shoute of admiration for the gallast chief who so bravely bore the army through its trials, and there proved himself to be what all but nig ger-worshippers and Secretary Stanton had long since discovered—the sreatest military straegist and general of the age. With these tributes of admiration of the genius of McClellan there was also as wide spread a feeling of detestation of certain members of Congress and a certain public functionary, some of whem had they made their appearance in our streets about the fourth of the month we verily believe would have been hooted and mobbed by a wrathful populace. The sulf-ct is one that comes home to Philadelphia, whose sons were as rifficed in those battles by the thousand, that clamoring Abolitionists and a revengeful War Department might gratify their petty pique against one noble patriot. But it was all in vain—We say it without hesitation that General McClellan has this day more friends throughout the while country, viewing the means by which he was placed where he is, than if he was at this moment dictating terms if peace in the robot capital. The blows of his ensembles, flerce and furious ithough they were, have recoiled upon themselves, and they are glad to make peace on any terms: ride last Saturday's Press, the New York Tribune, etc., etc.

W. C. Harris. of Col. Baker's Regiment. Lieut. Harris was a Ball's Bloff prisoner, and in this narrative he recites the harsh treatment he and his fellow prisoners received in the rebel stronghold. He also appreciates the humorous and Indicrous, so that his book is an agreeable one to all—to these who have friends as prisoners at the South, and to those who have thus far had better luck.

Ticknor & Fields, Boeton, the publishers of all the Kingsleys This talented family has no brighter ornament than the author of Ravenshoe, which we do not heritate to characterize one of the most remarkable and agreeable fictions ever published. During its course of publication in MacMillan's Magazine it was our delight to read it from month to month, and we then formed the opinion as above. All American readers will thank Messrs. MacMillan's Magazine it was our delight to read it from mouth to month, and we then formed the opinion as above. All American readers will thank Messrs. T. & F. for this beautiful, authorized edition, published now when gool novels are scarce.

The same publishers issue in a pretty little 16 mo. volume 'The Tragedy of Succes'," by the author of The Record of an Obscure Man, and the Tragedy of Strors. These two latter books are now so well known that it is hardly more than necessary to announce the publication of a third volume from the same pen to secure for it a wide perusal. The fair authoress writes with vigor, and, upon her favorite theme, with power and directness, as in this 'Tragedy." A fine list of books for summer reading are in the press of Messrs. Ticknor & Fields, among them a new novel by Mrs. Gaskell, and a new romance, Edwin Brothertoft, by the author of John Brent.

The May number of "Blackwood's Magazine" is a delightful one, with its Visit to Rugby, that grand old school of Dr Arnold's; its chapter on "ensation Novels; its novel by the author of Adm Bede; its Caxtonians (this chapter being on the Management of Money); its fine paper on the Renewal of Life; its loving commentery on the ancient Analo Saxon Chronicle; and its paper on Andrew Jackson! Old Maga keeps up splendidly in the always wide awake race of magazine competition.

Ten interesting at ticles are in the new quarterly number of the 'North British Review." (American edition of Leonard Scott & Co., New York.) The Last Poems of Mrs. Browning, Lunacy Legislation. Recent Homeric Critics, Early Poetry and Poets, English Puritanism, etc., are papers that will delight all American readers; and there is one article in particular which will command wide attent in, as it deserted the previous writings of Mrs. Southworth—that is to say in a handsome, large, durdecimo volume—messrs. THE ENGLISH REVIEWS AND BLACKWOOD.—We have received from Messrs. Levinard Scott & Co., No. 79 Fulton street, New York, the Edinburg Review for April, the North British for May and Blackwood for June. The contents of all these invaluable periodicals are unusually interesting. Blackwood continues the serial tale of Salem Chapel which is one of the best of modern romances. No better evidence of this need be required than the fact that the chapters as they re-appear are reprinted in several of the most popular and influential American newspapers where they are read with the greatest avdity. Blackwood for June has also a highly interesting article on that most singular and brilliant man the Rev. Edward Ivring, who at one time electrified the great City of London with his wonderful powers as an orator. The Edinburg and North British are made up of articles solidly worth the whole price of subscription for a year. It is always a plessare to commend all of these really great publications, and they are furnished by the American publishers at prices so low as to be within reach of everybody. We refer to their prospectus in recent numbers of our paper where the advantages of clubbing are particularly set forth.

GODBY FOR JULY.—Godey's Lady's Book is always a welcome guest. The present number is particularly good. The steel engraving "Summer" is a mo-t-charming picture, and will recall the days of boy hood with peculiar freshness. Ta the ladies, Godey is invaluable. They get there all the newest ideas in dress and fancy work, and they are so accurately illustrated and explained that no difficulty is had in producing the exact article.

THE SCIENTIFIC AMERICAN has just commenced a new volume—beginning with the number for July 5th. Why don't all our farmers, meckanize (especially) and scientific men take it! It is a matter of profound wonder to us why they do not, when the price per year, weekly, is only \$2.00! Send for it at once to Messra. Munn & Oo., 37 Park Row, New York, and order the paper from the commencement of the current volume. A WINDFALL TO A LABORING MAN .- The Auburn Advertiser states that a laboring man named Daniel Rogers, who has been working for the past week for D. C. Goodrich in laying a cellar wall by the perch, in that city, has re-ceived a letter from Ireland stating that there is now in the bank of Ireland \$260,000 to his credit, from the estate of his grandfather. It is necessary to give six months' notice before

drawing this sum from the bank. Mr. Rogers expects soon to go over for his fortune. This has not been enexpected by Mr. Rogers. He has had a sum deposited in the Weedsport Bank some time to pay his expenses to Ireland whenever the legacy should be etermined.— He will, on his return from Ireland, settle,

Cobing M. July 12.

The rebels have been making mysterious cavalry demonstrations in front ever since their repulse at Booneville by Col. Sheridan. The latter has fallen back near Ramsey. The rebel movements are thought by some to be the advance guard of a force to attack us; and others think it is to cover the flank of Bragg's command, reinforcing Chattanooga.

The weather is hot, and water very scarce. The health of the troops is improving.

THE CANADA THISTLE.—Many of our readers will probably recall the provisions of the bill passed by the Legislature last winter; and is now a law of the State, in relation to the Canada thistle. It provides that hereafter any individual or corporation allowing the Canada Thistle to ripen seed on their pre mises shall be liable to a fine of ten dollars, (we believe, for we have not a copy of the law.) upon each complaint that is properly established; and any one who may fear the spread of the Canada thistles upon his premises from the lands of his careless or thriftless neighbor, may, after five days' notice, enter upon any lands where the seed is found growing, cut it, and recover full costs for the labor and trouble.

The amount of sugar destroyed by the New Orleans mob is now estimated at twelve hundred hogsheads; and the quantity left in the city when the rebel forces fied, now to be shipped North, equal to ninety thousand trogsheads. It is also stated that in course of time more cotton than was supposed to exist there will be brought forward.

At length! was rejoiced to read in the Goupel Messenger that you had prepared on alterative (Sarasparille), for I knew from your reputation that any thing you make must be good. I wast to Cincinual and got! is, and used it full teured no. I took it, as your advise, in small done of a tempound over a month, and used almost three bottles. Dr. Robert M. Preble writes from Salem, N. Y., 12th Sopt., 1859, that he has cured an investrate case of Dropsy, which threatened to terminate fatally, by the persovering use of our Sarasparilla, and also a dangerous Malignant Ergipelas by large does of the same; my he cures the common Ergiptons by it constantly.

Dr. J. B. S. Channing, of New York City, writer; "I
most cheerfully comply with the request of your agentia
saying I have found your Sarsaparilla a most excellent
alterative in the numerous complaints for which veemploy such a remedy, but especially in Fraulz Diseases
of the Scroulous disthesis. I have cured many inveterate cases of Leucorrhoea by it, and some where the complaint was caused by wherether of the uteras. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."
Edward 8. hisrrow, of Newbury, Ala., writes, "A dangerous over/on tumor on one of the familes in my family,
which had defied all the remedies we conde damploy, has
at length been completely cured by your Extract of Sarsaparilla. Our physician though nothing but exitysaparilla. Our physician though nothing but exitysaparilla as the last resort before cutting, and it
proved effectual. After taking your remedy eight weeks

Syphtlis and Mercurial Disease.

New Onirans, 25th August, 1859.

Dr. J. C. Affer: Sir, I cheerfully comply with the guest of your agent, and renort to you some of the effect. I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wondorful in the cure of Veneral and Mercurial Disease. One of my patients had Syphillite ulcers in his throat, which were cansuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But is yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some dishiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excurded entirely by your Sarsaparilla in a few weeks. I know from its furmula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; cousequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. ATZE: Sir, I have been afflicted with a painful chronic Rheimatism for a long time, which befiled the
skill of physicians, and stuck to me in spite of all the
remedies I could find, until I tried your Sarasparilla. One
bottle cureit me in two weeks, and restored my general
health so much that I am far better than before I was
attacked. I think it a wonderful medicine. J. PREAM. attacked. I think it a wonderful medicine. J. FRRAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. My beloved pastot, the Rev. Mr. Repy, advised me to try your Sarsaparilla, because he sald he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be sald of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Carles and Exfoliation of the Bones. the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epileps sy, Melancholy, Neuralgia sy, Mclancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Con-sumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of threat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly weageful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory dyer: the subtle and dangerous disorders of the throat and lungs. As all know the dreaful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the victues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass... Sold by C. A. HENITISH, Lancaster, and by one or more of the Disease.
