Highly Important from Washington-I ne President orders a Braft of 300,000 Men in A. dirlon to the 300,000 Volun-leers Proviously Called-A Draft for Mine Months.

Rine Months.

Washington, August 4.
The President has ordered a draft for three hundred thousand man for nine months; in addition to to the three hundred thousand man for nine months; in addition to to the three hundred thousand man for nine months; in addition to to the three hundred thousand yolunteers recently called for.

The law of 1792, entitled *An act for the National defence, by establishing, a uniform millifa throughout the United States,* and afteward amended and applied to all arms bearing citizens of the country, gives the President authority to order a draft. The enactment immediately bearing on the subject, however, is that made by the last Congress; and passed July 16, 1862. The first section of that bill provides as Lilows:

"That whenever the President of the United States shall call forth the militia of the States, to be employed in the service of the United States, he may specify in his call the service of the United States, he may specify in his call the service of which such service will be required, not exceeding time months; and the militia so called shall be mustered in and continue to zeroe for and during the tern so specified, unless sooner discharged by command of the President. In yr eason of defects in existing laws, or in the execution of them in the several States, or any of them, it shall be found necessary to provide for enrolling the militia and otherwise putting this act into execution, the President is authorized in such cases to make all necessary rules and regulations; and the enrollment of the militis shall in all cases include all able-bodded male citizens between the eggs of cipiteen and forty-five, and shall be appointed among the States according to representative population."

A Draft Ordered After the 15th.

A Draft Ordered After the 15th. ORDER CALLING FOR MILITIA FROM THE SEVERAL STATES.
Order first, that a draft of three hundred thousand (300, 000) militia be finmediately called into the service of the United States to serve for nine months, unless sooner discharged. United States to serve or mine manage.

The Secretary of War will assign the quotas to the States, and establish regulations for the draft.

Second, That if any State shall not by the 15th of August farnish its quota of the additional 200,000 volunteers authorized by law, the deficiency of volunteers in that State will also be made up by special draft from the militia.

The Secretary of War will establish regulations for this

Another Fight in Virginia. Gen. McClellan's army in Virginia has again, on Tuesday assumed the off-nsive, and had a fight with the enemy or his former battle ground on Malvern Hill. The operation has former battle ground on Malvern Hill. The operation assumed the shape of a reconnoissance in force toward Malvern Hill, White Oak Swamp, and in the direction of New Market and Richmond. On reaching the first named point the enemy were found in a fortified position, and were attacked and diriven from it, our troops remaining in possession of the works, and the enemy being pursued them to within a short distance of New Market, capturing one hundred and fifty prisoners. Not only were the rebels driven away from Malvern Bill, but at White Oak Swamp bridge also they were attacked, beaten, broke, fied and were pursued. Drings also they were attacard, coaled, state, and were pursued.

This first day's advance opens the ball gloriously, and looks auspicious for a better campaign than any yet made in Virginia. This advance if carried further with spirit, will again bring the war up to the rebel capital, and cause the recall of all their detachments to defend it. We shall look to the subsequent intelligence from that quarter with peculiar anxiety.

A despatch from the army dated the 7th says:

peculiar anxiety.

A despatch from the army dated the 7th says:

"It was reported last night, by deserters and contrabands, that the rebels had been moving from the vicinity of Richmond all day, in large force, toward Malvern Hill, with a view of retaking the position." From Gen. McClellan's Army.

From Gen. BicClellan's Army.

Headquarters Ammy of the Potomac, Priday, August 8.

Gen. Hooker remained at Malvern Hill until 10 o'clock on Wednesday night, when he fell back to his encampment—leaving strong guards at Haxalis.

The rebels moved down from Riebmond on three roads, concentrating their forces hear Malvern. They thought cur whole army was advancing towards Richmont, when this movement was nerely a recomonissance in force.

The gunboat Ealsfield, which has been aground some days, above City Point, was got off yesteday and reported the enemy as having appeared in considerable force. They made no demonstration o'her than to drive our men a short distance.

Rumored Fighting at Gordonsville. WASHINGTON, Angust 8.

A private dispatch from Woodville, yesterday, says:
"Slegel's corps is just moving, but I cannot tell where till the movement is accomplished."
There are a proposed. the movement is accomplished."

There are numers in town of heavy fighting at Gordonswille. They are not yet fully credited, but the fact of
Sigel's movement yesterday is thought to render it not improbable.

Murder of General McCook.

A despatch from Nathville, Tenn, dated August 7th, says. Gen. Robert McCook was shot by a party of guerillas near Salem, Als., yesterday, while he was riding towards Winchester, Tenn, sick in an ambulance. His remains reached here this evening. Capt. Brooks, who was with the General, was captured. Our forces lurned the house of the rebei who led them into this ambuscade.

Another despatch says when the news of the murder became known among the camps, the excitement was intense. The Ninth Ohio, McCook's own regiment, on learning of the assasination marched back to the scene of the occurronce, burned every house in the neighborhood and laid waste the lands. Serical men who were implicated in the murder, were taken out and hung to trees by the infuriate soldiery. General McCook was one of the bravest of a brave lamily of soldier: halling fr. in Ohio.

[General McCook was a brother of Cl. Alexander McD. McCook, (now a Majr General.) who commanded the lat Ohio Regiment, which was encomped on the Fair Ground, in this city, in the spring of 1°16. He was also a brother of Col. George W. McCook, who was also here acting as agent for the Governor of Ohio, while the Ohio I tools wors encamped have. Gen. Robert McCook commanded the 9th Ohio In the three months' service. We deem this note necessary, because the two brothers, Robert and Alexander, bave been corfounded with each other by a number of home. Murder of General McCook.

Sary, because the two brothers, Robert and Alexander, have been confounded with each other is no mumber of newspapers, one or two of our city catemporaries being among that number.—Ed. Intel } Is THIS TREASON?-The following is an

uttered by a Democrat: these reasons he (the President) could

not be disposed to reject a cardinal dogma of their's, (the seceding States) namely, that the Federal Government could not reduce the seceding States to obedience by conquest, even although he was disposed to question the proposition. But in fact the President willingly accepts it as true—only an imperial or despotic government could have the right to subjugate disaffected and insurrectionary States. This Federal Republican system of ours is, of all forms of government, the very one which is most unfitted for such a labor.'

PERTINENT QUESTIONS .- The Albany Argus, in publishing the correspondence between sthe President and the Border State men, asks:

"What is the meaning of this appeal of the President to the Border States? The representatives of these States ask the question in vain. They do not understand why they are thus appealed to; or what ulterior object lies Let the Government itself explain. Why is \$500,000,000 to be expended upon the the Union? We have it already for nothing. To identify them in interest and finally consolidate them in a Northern Confederacy? Even for that the sacrifice would be superfluous. They say that they would never go with the If the object is to try the experiment of abolition, let it be avowed. But it is a heavy price for a nation to pay for an experiment, which has already had experiments

TREASONABLE ORGANIZATION. The Grand Jury of the U. S. for the District of Indiana have presented the secret organiza-tion of the Knights of the Golden Circle as a treasonable organization, one of the obligations being that if any of its members should be drafted into the militia they are to shoot over the head of any member of the organization in the rebel army who may exhibit the signal of membership. The Grand Jury say there are 15.000 members of the Order in that State. The Order was originated by some Southers filibusters, and its purpose originally was to invade Mexico. As there is another field now opened by the rebellion, the members of the Order will no doubt be found in the ranks of the guerrillas and their sympathizers. There is no occasion for secret political societies in this country, and they ought all to be abolished by law. They are generally perverted to mischievous and treasonable ends, no matter what the pretext which first gave rise to their organization .- Ledger.

THE NEGRO RIOTS AND THEIR CAUSE. Much indignation has been shed by some of the abolition papers about the negro riots; but these very journals, and the leaders of the faction of which they are the organs, are the Scott, with his brave and patriotic real cause of the disturbances. They have so filled the empty head of the blacks with silly notions of equality that many of them have become exceedingly insolent to white men and women in the streets, on ferry boats, in cars and other places. They are known frequently to push white women off the sidewalk and to insult them. Then a point has been made of late-by some capitalists and manufacturers to turn out of their establishments white men and women by hundreds and fill their places with blacks. These things have led to collisions and the agitators who puff Sambo up with absurd ideas of his importance are to blame for what has occurred. The Irish, as a class, are industrious, hard working, quiet and loyal to the government. The riots are fomented and brought about by the Abolition-ists, whose philanthropy is ever sure to redound to the injury of the unfortunate negro, who if let alone by the anti-slavery agitators, would conduct himself properly and never provoke the hostility that is being awakened against him. -N. Y. Herâld.

THE GOVERNMENT AND TREASON The Baltimore American, in commenting upon the course of the Government in relation to treason, quotes from WENDELL PHILLIPS and others who are outspoken in their treason, and very justly remarks. outspoken in their treason, and very justly remarks.

"If it assumes to deal with traitors in these States let it not determine its policy by mere parallels of latitude, but let that treason which crops out so unmistakably in Ohio and Massachusetts cease to vex the hearts of the loyal elsewhere. In the ends sought, struggled for, there is nothing to choose betwirt the treason of Charleston and that of Boston, unless that which makes its appearance bold, and with arms in its hands challenges a greater respect." "Let the Government confess its inability to deal with traitors like Phillips and Dr. Olds, or lay a heavy hand on these men whose accursed uterances are costing the very life blood of the nation. If they cannot be reached, let minor offenders be terances are occasing one roay in success on the income of the cannot be reached, let minor offenders be excused, since no Government can long be respected which fails to mete out even handed justice to all.

THE NEW POSTAGE STAMPS. The design for the postage stamps to be used as currency have been adopted, and are now in the hands of the engraver. They are to be of four denominations, viz: five, ten, twenty-five and fifty cents. All will be printed on bank note paper, and the fives and tens will be two and five sighths inches, and the twenty-fives and fifties three inches in length; and all are one and three-quarter inches

wide.

The fives and twenty-fives will be brown, on the upper corners of the faces will be the denomination in white figures on a dark The fives will have in the centre the five

cent postage stamps, with a "5" in geometrical lathework on each side. The tens will have a ten cent stamp, with "10" on each The twenty-fives will have five-cent stamps, partly overlapping from left to right; and the fifties, five ten-cent stamps, similarly disposed. Over the designs as above described will be

mond Examiner, in his presence, that "Gen. Lee had 220,000 men in the late battles, and 40,000 in Richmond as a reserve. Even the rebels accorded to McClellan the greatest

praise for his masterly retreat. On the 2d of July, the Examiner announced hat he was surrounded, driven into a swamp, that he was surrounced, arrived into a swamp, and his stores, ammunition, artillery and wagons captured. Jackson, it was said, was in his rear, Huger on his left, Hill and Longstreet on his front, and Magruder on his right, and the next day it was confidently expected he would be escorted through the streets in a cage. Next day, however, the tune had changed, and the Examiner began ts display head to the news with this line-The bird has flown." The rebels were out-"The bird has hown." The reducts were out-generaled, and McClellan all right.

This statement tallies very badly with the insinuations of our radical journals, that the rebels had but a small force in Richmond when Gen. McClellan retired across the peninsula.

THE ABOLITION TRAITORS .- The Abolitionists object to being called traitors; but they are, in fact morally, meanly, and maliciousls traitors. Did they not originate this war b interfering with the social institutions of the South? Were they not in favor of "No Union with Slaveholders" years ago? Have they not protracted this war by hampering our generals and by continually giving the rebels the aid and comfort of Abolition legislation, Abolition speeches, and Abolition editorials? Would any genuine Abolitionist consent to take the oath of allegiance to the Constitution as it is-a Constitution which they have pronounced "a league with Hell!" Why, then, should Abolitionists not be called traitors and treated as traitors?—N. Y. Herald.

A FAITHFUL HUSBAND.—All husbands are not anxious to get rid of their wives. On the 21st of June Mr. Henry Burnett and wife and child, the latter fourteen months old, were in their hoggy on a ferry scow crossing Black lake, New York, when the horses backed overpoard and all sunk in twenty-five feet of water. Mr. B. immediately dived after his sinking wife and child. When down about ten feet he caught his wife by the arm and brought her up, swimming with her to the scow. COMMERCE.—The exports from New York within a fraction of a million equal to what they were during the corresponding seven months of 1861, although there has been a large falling off in Southern products, such as cotton, rice, tobacco, and naval stores. The falling off in cotton is 142,000 bales, worth Border States? To buy their allegiance to But all deficiencies in Southern products are made up by increased exports of breadstuffs and of animal products, as pork in various forms, lard, tallow, &c.

THE MANUFACTURE OF GOVERNMENT ARMS.

The Armory in Springfield, Mass., makes 14,000 stands of arms a month. In a short time that establishment, with the five private shops in operation there, will be able to manufacture 35,000 guns per month. The armories at Providence, Hartford, Trenton, Bridesburg, Vt., Ilion, and one or two other Bridesburg, v., liion, and one or two other places, will each be able to furnish the Government with 200 guns per day. In a few months we shall be making first rate arms, better than the best Europe can afford, at the rate of 600,000 per annum. It is universally conceded by those who are competent to form a correct judgment, that there is nothing on the other side of the Atlantic

that can compare with the American arm. NO USE FOR THEM. A letter from Port Royal, South Carolina, in the Baltimore American, says: "About 75,-000 stand of arms have been sent to this do partment from the North since last fall-what they were intended for it is hard to say, but they were intended for it is hard to say, but an order has come for 50,000 and they will be sent North in a few days." It is evident that somebody has made calculations wide of the mark. Another fact of interest is stated in a reject letter received from New Haven, which an order has come for 50,000 and they will be sent North in a few days." It is evident that says. "about a hundred and fifty of Hunter's egro brigade had deserted, carrying off the

fine rifled muskets with which they had been THEN AND Now .- Fifteen years ago, Gen. Flour, Superane, & bbl..... Scort, with his brave and patriotic army, were in Mexico to vindicate our outraged and insulted flag. It is enough to stir one's blood with indignation to read the editorial articles with indignation to read the editorial articles of the unpatriotic press in Connecticut and Massachusetts at that time on our noble little army who were then fighting the country's battles. Col. Ransom. Col Seymour, and other prave officers, were maligned without stint. One editor, who is to-day urging that the present war be turned into an abolition raid, pub-

lished this atrocious sentiment: "It would be a sad and woeful joy—but a joy, nevertheless—to hear that the hordes under Scott and Taylor were, every man of them, swept into the next world."

These men now defend Garrison and Phillips, and denounce all who oppose their schemes for overthrowing the Constitution and the Union as "traitors." - Hartford Times.

---The abolition appeal at this time for he arming of the negro has just this significance abroad. It is a shameful confession that the twenty millions of the North cannot put down the rebellion of a majority of the eight millions of the South. After a sixteen month's trial, the majority party in the North give the contest up unless they can introduce the slave population into their side of the fight. Is that the opinion which the country desires should go to Europe? In all places where negroes can be useful they have been very properly used, and should so continue to be. Let us stop there .- Chicago Times.

There is a certain class of Republicans who mistake their feelings of bitter unscru-pulous partizanship and call it patriotism!— They may be known by the constant cry they keep up about " traitors," and the great care they take to avoid meeting a real traitor on the batte-field! They are fire-side patriots.

Harry G. and G. F. Baer are brothers who publish the Somersat Democrat. In the early part of this may enrolled himself in a company and marched to the battle field. Previous to that he was, sigmatized as a Secessionist and rebel sympathiser, by the abolitionists. This had to cease, and the vials of wiath were empited upon the head of George, who remained to conduct the paper as a rebel synpathiser. It is by such means alone that the Belpublicans hope to maintain power. Harrisburg Patriot & Union.

Not only have both the present propristors of the Somerset Democrate enrolled themselves in the army of the Union, but the late proprietor, C. F. Mitchell, E. S., as brave a man and true a patriot as every breathed, has also been in the service from the very beginning of the war. Mr. Mitchell is now Orderly Sergeant of Company A. Tenth Pa. Reserves, and was in all of the fierce and bloody conflicts before the Union army, and fonght valiantly at the bloody battle of Fair Oaks. — Bedford Gazette.

The Rebel Force in Richmond—An intelligent printer, who has been residing ten months in the South, and was permitted to come North under a passport from the British Consul, at Charleston, says that it was positively asserted in the office of the Richmond Examiner, in his presence, that "Gen. Lee had 220,000 men in the late battles, and

The only unconditional loyalists are those who respect the Constitution, obey the laws, and support the Government in every lawful endeavor to suppress the rebellion against the Constitution and the Government. The man who seeks any other guide than the Constitution will become entangled in a labyrinth of errors. His loyalty will become as fitul as the winds—as changeable as the weather. To follow Summer, or Wade, or Phillips, or Greeley, or Forney, or any of the blind guides who arrogate to themselves the leadership of the loyal hosts, is to stumble about among quagmires and pitfalls—to stumble about among quagmires and pitfalls—to to themselves the leadership of the loyal hosts, is to stumble about among quagmires and pitfalls—to plunge from one morass into another, and finally to sink into the depths of anarchy.—Harrisburg Pa triot.

THE PRESIDENT REFUSES TO ACCEPT NEGRO SOLDIERS.—A deputation of Western men called upon the President last Monday to tender the services of two regiments of colored soldiers. They were attentively heard, but the President positively declines to put arms in the hands of the negroes.—He says it would be the signal for the Border States to turn against the Union, and we cannot afford to lose them. He intends to carry out the Emancipation and Confiscation acts thoroughly, and press the war with the utmost vigor; he will employ all slaves in any available manner except as fighting men.

RUMORED MEDIATION OF RUSSIA.—It is stated in the N. Y. Herald's correspondence from Paris that the Russian government has proposed to France and England a mediation in the affairs of this country; and it is rumored that the governments of these latter nations have assented to the proposition. Russia being considered a Power friendly to this country, it was thought that an offer of intervention would be more acceptable than if it came from either England or France.

GREELEY says that the fighting men of his party, who have never smelt battle, number 900,000. More shame for them, but the draft will operate on some of these windy patriots. Instead of staying at home and making mischief by denouncing loyal Democrats as "secessionists," they will have to face and fight the real secessionists—an earnest work, and of a very different sort from that they have been engaged in for the last year or more.

THE DIRECT TAX LAW .- The 1st of September

The Siege of Vicksburg seems to have been abandoned for the present, as the naval force is wanted elsewhere, and a land force neeting, held a few evenings since, in a villiage near Rochester, says the Democrat, a young lady was seen urging a young man to go forward and volunteer, and sign his name with a squad of other recruits. The young he could have got Davis to move. Davis does not appear to be as enterprising and as suc cessful an officer as Foote.

The attempt of the Republican papers that to palm Judge Knox upon the public as a Democrat is absurd. He does not even profess to have been a supporter of either the measures or the nominees of the Democratic party since 1845. He is an Abolitionist of the Tioga county school, and in politics has ever city, for the seven months of this year, are been a follower of Wilmor.—Clinton Demo-

We are able to state that the Constitution Water has cured every case of Diabetes in which it ha

STONE IN THE BLADDER, CALCULUS, GRAVEL BRICK DUST DEPORT, AND MUCOUS OR MILKY PISCHARGES AFTER URINATING.

Disease occurring from one and the same cause will be entirely cured by the Constitution Water, if taken for any length of time. The dose should vary with the severity of the disease, from twenty drops to a teaspoonful three times a day, in water. During the passage of the Calculus, the pain and urgent symptoms should be combated with the proper remedies, then followed up with the Constitution Water, as above directed. DYSMENORRHOBA, OR PAINFUL MENSTRUA-TION, AND IN MENORRHAGIA OR PROFUSE FLOWING,

Both diseases arising from a faulty secretion of the men-strual fluid—in the one case being too little, and accom-panied by severe pain; and the other a too profuse secre-tion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides, and at times accompanied by sharp lacinating or shooting pains through the parts, will, in all cases, be removed by the medicine.

There is another class of symptoms arising from IRRI-TATION OF THE WOMB, which physicians call Nervous-ness, which word covers up much ignorance, and in nin-TATION OF THE WOME, which physicians call Nervous-ness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only enumerate them here. I speak more par-ticularly of Oold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Languor, Lassi-tude, and Dimness of Vision.

SUPPRESSED MENSTRUATION.

Which in the unmarried female is a constant recurring which in the unmarried remains is a constant recurring disease, and through neglect the seeds of more grave and dangerous maladles are the result; and as month after month passes without an effort being made to assist nature, the suppression becomes chronic, the patient gradually loss her appetite, the bowels are constipated, night swests come on, and consumption finally ends her career. TRUCORRHEA OR WHITES.

This disease depends upon an inflammation of mucous lining of the vagina and womb. It is in all cases accompanied by severe pain in the back, across the bowels and through the hips. A teaspoonful of the medicine may be taken three times a day, with an injection of a tablespoonful of the medicine, mixed with a half-pint of soit water, ning and evening.

IRRITATION OF THE NECK OF THE BLADDER.
INFLAMMATION OF THE KIDNEYS, AND
CATARRY OF THE BLADDER, STRANGUBY AND BURNING, OR PAINFUL UBINATING. For these diseases it is truly a sovereign remedy, and so much cannot be said in its praise. A single dose has oo much caunot be said in its praise. A single dose has been known to relieve the most urgent symptoms. Are you troubled with that distressing pain in the small of the back and through the hips? A teapoonful a day of Constitution Water will relieve you like magic.

Danville, Pa., June 2, 1862.

Dr. Wm. H. Griege—Dear Sir: In February, 1861, I was sfilled with the sugar disbetes, and for five months is passed more than two gallons of water in twenty-foundours. I was obliged to get up as often as ten or twelve time during the light of the control of the times during the night, and in five months I lost about fitty pounds in weight. During the month of July, 1861 I procured two bottless of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cured, soon after regaining my usual good health. Yours truly, Boston Corners, N. Y., Dec. 27, 1861.

Boston Corners, N. Y., Dec. 27, 1861.

Wm. H. Greeg & Co:

Gents: I freely give you liberty to make use of the following Certificate of the value of Constitution Water, which I can recommend in the highest manner.

My wife, who was attacked with pain in the shoulders, whole length of the back, and in her limbs, with Palpitation of the Heart, attended with Falling of the Womb, Dysmenorrhm; and Tritation of the Bladder. I colled a physician, who attended her about three months, when he left her worse than he found her. I then employed one of the best physicians I could find, who attended her about nine months, and while she was under his care she did not suffer quite as much pain; he finally gave her up and said, "her case was incurable." For, said her is he has such a combination of complaints, that medicine given for one operates against some other of her difficulties." About this time, she commenced to use the Constitution Water, and to ur utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

Dr. Wm. H. Grieg:

Dear Sir: I have for several years, been afflicted with that troublesome and daugerous disease—Gravel—which resisted all remedies and doctors, until I took Constitution Water, and you may be assured that I was exceedingly pleased with the result. It has entirely cured me, and you may make any use of my name you may see fit in rogard to the medicine, as I have entire confidence in its efficacy.

Yours truly. POND STRONG.

THESE ARE FACTS ENOUGH.

There is no class of diseases that produces such exhausting effects upon the human constitution as Diabetes and Diseases of the Kidneys, Bladder and Urinary Passages, and through a false modesty they are neglected until they are so advanced as to be beyond the control of ordinary remedies, and we present the

to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful in curing; and we trust that we shall be rewarded for our efforts in placing 8° valuable a remedy in a form to meet the requirements of patient and physician. Dr. Ayra: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievenuly afflicted with blotches and pimples on her akin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic. From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action not the bowels, which makes them invaluable to us in the daily treatment of disease. Headache, Sick Headache, Foul Stomach.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimare.

Dran Bro. Avrn: I cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purgatine medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

Privature, Pa., May I, 1855.

Dr. J. C. Avrn. Sir: I have been repeatedly cured of the worst headacha any body can have by a does or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect,

Clerk: of Steamer Clarum.

Bilious Disorders-Liver Complaints. Elitous Disorders—Liver Complaints.
From Dr. Theodore Bell, of New Tork City.
Not only are your Pills admirably adapted to their purpose as an aperient, but I find their benoficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bitions complaints than any one remedy I can mention. I sincredy rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

Department of the profession and the people.

Department of the Internation of Washington, D. C., 7th Feb., 1850. }

Sire: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have sellom found a case of bitious disease so obstinate that it did not readily, yield to them. Fraternally yours, ALONZO BALD, M. D., Physician of the Marine Hospital. Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Oreen, of Chicago.
Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver matter them an excellent remedy, when given in small doses for billious dynentery and distribute. Their sugar-cauting makes them very acceptable and convenient for the use of women and children. Dyspepsia, Impurity of the Blood. From Rev. J. V. Himes, Pustor of Advent Church, Boston. Dr. Aven: I have used your Pills with extraordinary success in my family and among those I am called to visit

in distress. To regulate the organs of digestion an purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them my friends.

Your, J. V. HIMES. my friends.

North Marsaw, Wyoming Co., N. Y., Oct. 24, 1855.

Dear Sir: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanso the system and purify the foundains of the blond.

From Dr. J. P. Vaughn, Montreel, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. It believe entireness to originate in the liver, but your Pills affect that organ and cure the disease. From Mrs. E. Stuart, Physician and Midwife, Boston

I find one or two large does of your Fills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleause the stomach and expel morans. They are so much the best physic we have that I recommend no other to my patients. From the Rev. Dr. Hawkes, of the Methodist Epis. Church. From the Rev. Dr. Hawkes, of the Methodist Epist Church.

Horored Sir.: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rhammatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimoro, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persovering in the use of them, I am now entirely well.

SENATE CHAMDER, Baton Rouge, La., 5 Dec. 1855 DR. Ayre: I have been entirely cured, by your Pills, of Rheumatic Goul—a painful disease that had affilied me for years. VINCENT SLIDELL. Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful cons-quences that frequently follow its incautious use. These contain no mercury or mineral substance whatever Price. 25 cents per Box, or 5 Boxes for \$1. Prepared by Dr. J. C. AYER & CO., Lowell, Mass Sold by C. A.
