HEADQUARTERS FIRLD OF BATTLE, GROVETON, }
TO MAJOR-GEN, HALLECK,
General-in-Chief, Washington:
We fought a terrific battle here yesterday with the combined forces of the enemy, which lasted with continuous fury from daylight until after dark, by which time the enemy was driven from the field, which we now occurs. which we now occupy.

Our troops are too much exhausted yet to push matters, but shall do it in the course of the morning, as soon as Fitz John Porter's corps come up from

The enemy is still on our front, but they are badly The enemy is still on our front, but they are badly used up. We have lost not less than eight thousand men killed and wounded, and from the appearance of the field the enemy lost at least two to our one.—
He stoodstrictly on the detensive, and every assault was made by ourselves.

Our troops behaved splendidly. The battle was fought in the identical battle field of Bull Run; which feat greatly increased the arthusius of the week.

et greatly increased the enthusiasm of the men. The news just reaches me from the front that the enemy is retreating towards the mountains. I go forward to see. We have made great captures, but 1 am not yet able to form an idea of their extent. (Signed.) JOHN POPE, Maj. Gen. Later.

Alexandria, August 30.

There has been heavy firing heard to-day in the direction of Centreville, and the contest of yesterday was undoubtedly renewed this morning. Telegraphic communication has been re-established to Manassas, and the cars are running as far as Bull Run. The bridge and railroad are being repaired with the greatest dispatch, and trains will probably extend their trips to-morrow. There are still a large number of troops in Alexandr.a awaiting transportation to the field of battle.

A Pennsylvania brigade, comprising the 123d, 133d and 134th and 135th regiments, under Gen. Cook, were to march to-day. 183d and 183th and 199th regiments, under deal. Cook, were to march to-day.

Those who were able to be removed from the Alexandria hospitals have been taken to Washington to make room for the wounded who are to arrive to-

Washington, Aug. 30. WASHINGTON, Aug. 30.

Gen. Pope's statement that Heintzleman's corps would move on the enemy at daylight is confirmed by the heavy firing heard from that vicinity. Bumors of various successes have reached here, but need

confirmation.

Yesterday robel scouts were seen at Long-legs, in the vicinity of the Chain Bridge. Every precaution has been taken to prevent, a surprise in that direction, the impression prevails that the rebels have been entrapped, and the result of the recent mancuvering is looked for with intense eagerness. WASHINGTON, Aug. 31.

WASHINGTON, Aug. 31.
Gen. Schenck arrived to-day, having been severely wounded in the right wrist in the battle of yesterday. There is an intense anxiety in hotels and streets to gather incidents of fights, but the reports are so indefinite up to noon to-day as not to justify their repetition.

THEREF PARTICULARS.

BALTIMORE, August 29.

The American has the following letter:

ALEXANDRIA, August 28—3 P. M.

There has been much excitement here to-day, growing out of the movements of the rebels at Manassas Junction, Fairfax Court House, and along the line of the Orange and Alexandria Railroad. The rumors afloat are of the most contradictory character, and troops have been pushed forward from here ter, and troops have been pushed forward from here as fast as they are landed from the transports.

Gen. McClellan visited Washington last evening and had an interview with the President and Gen. Halleck, and it is said was tendered and has accepted the command of the whole army of Virginia. He is here to-day and it is said has assumed the command, and is making such disposition of the forces at his command as is calculated to check the rebel army in the bold dash they are making for the National Capital.

National Capital.

It is difficult to say what is the actual condition of affairs in the neighborhood of National Capital Capi It is difficult to say what is the actual condition of affairs in the neighborhood of Manassas and Fairfax, the fugitives coming in represent that we have met with a most serious disaster. Women, children and contrabands are flocking in from the vicinity of Fairfax, and there seems to be no doubt but that the raints, and there seems to be no doubt but that the rebel cavalry have visited that place.

They say that they fied on their approach, and that a large confiagration was visible in that direction, probably the destruction by the rebels of the Government stores. It is also said that they have destroyed the railroad bridge over Accotink creek, five miles this side of Fairfax.

five miles this side of Fairfax.

There seems to be no doubt that they had not only full possession of Manassas Junction and Bull Run, but also of Centreville; and it is rumored they have captured two of the four New Jersey regiments that were stationed at Centreville.

The fighting brigade of General Hooker, which was pushed forward vesterday by General Modernia.

was pushed forward yesterday by General McClellan, is reported this evening to have checked the advance of the enemy at Centreville, and driven them back

of the enemy at Centreville, and driven them back to Manassas Junction, after some severe fighting. This is generally oredited, though no cannonading has been heard at the front to-day.

In the meantime the army of General Pope is beyond Manassas, and unless it can out its way through the rebel forces at Manassas, is entirely cut off from Washington, as well as that of General Burnside and the corps of General Porter, which was landed at Acquia creek. That they will soon open a way for themselves there can be no doubt.

The rebel forces that have made this extensive raid in the rear of General Pope are understood to be all cavalry, under the command of Col. Lee.

Whilst the skirmishing was going on across the be all cavalry, under the command of Col. Lee.

Whilst the skirmishing was going on across the
Rappahannock, and the rebels were making it appear as if they were determined to advance with
their main body on Washington by that route, it is
now ascertained that they were marching with their
main body around the head waters of the Rappahannock, at the base of the Biue Ridge, and are
now actually massing their troops at White Plains,
and have taken possession of Thoroughfare Gap,
fully ten miles north of Manassas. The cavalry
raid on Fairfax is said to have been made from this
direction, so that the main body of the rebel army
is now in a position either to advance on the Potomac by way of Leesburg, or direct on Washington
through the Cap, as circumstances may warrant. mac by way of Leesburg, or direct on Washington through the Gap, as circumstances may warrant. It is also said that a messenger reached here this afternoon by way of Acquia Creek and the river from General Burnside, announcing that the rebel force of General Ewell has penetrated in the rear of General Pope and occupies the left bank of the Occupian river. This would seem to be almost impossible, but it is generally credited here.

Those who have been endeavoring to make it appear that General McClellan had an inferior force to contend with before Richmond are now satisfied that the rebel army is fully equal, if not superior in numbers, to the entire combined forces of Pope, McClellan and Burnside.

The announcement that Gen. McClellan has been assigned to the command of the entire army has given great satisfaction to both the troops here and our loyal citizens. He is at work with his usual energy, and it is hoped he will be able to bring success out of what now appears so disastrous.

The War in Missouri--Success of General Blunt's Expedition.

Blunt's Expedition.

Hon. E. M. Stanton, Secretary of War:

FORT LEAVENWORTH, August 17.

Major Champion Vaughan, of General Blunt's staff, has arrived at these headquarters with dispatches. General Blunt marched with 1,500 men from Fort Scott, August 17th, and followed the rebels as far north as Lone Jack. The enemy declined an engagement, and commenced a retreat. They were hotly pursued by General Blunt, and driven in utter confusion across the Osage, with the loss of all their transportation and equipments, besides numerous arms, prisoners, etc. It is considered that the expedition saved the Missouri towns and the Western border from devastation, besides striking terror into the dition saved the Missouri towns and the Western border from devastation, besides striking terror into the
hearts of the enemy as far as the Arkansas line.
General Blunt's column returned to Fort Scott on
the 22d, and, having marched nearly 300 miles
in six days. Colonel Cloud was left to continue the
pursuit. It is not improbable that the main body of
the rebels will be forced to surrender.

GREENVILLE, Mo., Aug. 25.

Major Leppert, of the 1st Battalion of the 13th Illinois Cavalry, with 130 men, attacked a body of guerrillas 320 strong, under Hicks, thirty-six miles beyond Bloomfield. The guerrillas were totally routed, twenty of them killed, three times as many wounded, and a number taken prisoneres. Sixty horses, seventy stand of arms, and all their camp equipage captured. The survivors scattered in all directions, and will not probably again re-organize. The affair was a complete success for Major Leppert, and little more trouble need be apprehended from Hicks' band.

The reports from all directions are encouraging.
Whenever secreted, the guerrillas are speedily hunted

Mr. Browhise explained his position upon the confiscation question, and did it to the satisfaction and approval of a vast majority of those who heard him. He said that Congress had no power to confiscation was a humburg. If the power of confiscation existed anywhere it existed in the President, by virtue of his office as commander-in-chief of our armies. The Constitution conferred no such power upon Congress, and he had sworn to support the Constitution. He could not support the confiscation bill and the Constitution too, so he supported the Constitution and opposed confiscation. Upon this question he stood with the President. The same was true upon the question of arming the negroes. He was opposed to arming them, and so was the President. He was for the Union as it was, and the Constitution as it is. In the utterance of these patriotic sentiments, Mr. Browning was enthusiastically applanded. There were a few persons present who did not join in these demonstrations of approval. But they were open, avowed, ultra fabolitionists. Mr. Browning demonstrations of approval. But they were open, avowed, ultra fabolitionists in unmeasured terms.—He denounced the abolition leaders in the United States Senate—naming SUMNER, Witson, and others—as disloyal, traitors to the country, wild, deluded, crazy fanatics, who were bent upon the destruction of the government. He had no sympathy with them, and had refused to co-operate with them, and should personal and political friends had turned against him—he was for the Union as it was and the Constitution as it is, and upon that platform he intended to stand, though every dollar's worth of property that he owned in the world should be sacrificed or destroyed. He was interrupted by an abolitionist present, who charged him with having gone over to the Democrats. Mr. Browning responded that he was ready to go over to the Democrats, or to any other party, or to act with patriotic men to whatever party

There is an intense anxiety in hotels and streets to gather incidents of fights, but the reports are so indefinite up to noon to-day as not to justify their repetition.

Washington, Aug. 31.

The rebels were heavily reinforced yesterday, and attacked Pope's army before the arrival of Generals Franklin and Sumner. The attack was boldly met and a severe battle followed. The advantage on the whole was on the side of the enemy, and Pope feil back to Centroville with his entire army in good order. He has now been joined by Gen. Franklin at Centreville, and Sumner was on the march to him last night. He occupies the strongest position in the vicinity of Washington, and is expected promptly to renew the context, and the successes of Friday.

Every effort should be used to hasten the forwarding of our troops.

reparties of the medicine direct themselves to the organi secretion, and by so altering the condition of the stomach di liver that the starchy principle of the food is not con-erted into sugar so long as the system is under the influ-CONSTITUTION WATER

which gives those organs time to recover their healthy tone and vigor. We are able to state that the Constitution Water has cured every case of Diabetes in which it has been given.

STONE IN THE BLADDER, CALCULUS, GRAVEL, BRIOK DUST DEPOSIT, AND MUCOUS OB MILKY DISCHARGES AFTER URINATING.

Disease occurring from one and the same cause will be entirely cured by the Constitution Water, if taken for any length of time. The does should vary with the severity of the disease, from twenty drope to a tesspoonful three times a day, in water. During the passage of the Calculus, the pain and urgent symptoms should be combated with the proper remedies, then followed up with the Sonstitution Water, as above directed. DYSMENOBRHGA, OR PAINFUL MENSTRUA-TION, AND IN MENORRHAGIA OR PROFUSE FLOWING,

Both diseases arising from a faulty secretion of the men-strual fluid—in the one case being too little, and accom-panied by severe pain; and the other a too profuse secre-tion, which will be speedily cured by the Constitution Water. That disease known as FALLING OF THE WOMB, which That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides, and at times accompanied by sharp lacinating or shooting pains through the parts, will, in all cases, be removed by the medicine. There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call Nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only enumerate them here. I speak more particularly of Gold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Languor, Lassitude, and Dimness of Vision.

SUPPRESSED MENSTRUATION.

Which in the unmarried female is a constant recurring disease, and through neglect the seeds of more grave and dangerous maladles are the result; and as month after month passes without an effort being made to assist nature, the suppression becomes chronic, the patient gradually loses her appetite, the bwells are constituted, night sweats come on, and consumption finally ends her career. LEUCORRHIGA OR WHITES.

This disease depends upon an inflammation of mucous lining of the ragins and womb. It is in all cases accom-panied by swere pain in the back, across the bowels and through the bips. A teaspoonful of the medicine may be taken three times a day, with an injection of a tablespoon-ful of the medicine, mixed with a half-pint of soft water, morning and agents.

IRRITATION OF THE NEOK OF THE BLADDER,
INFLAMMATION OF THE KIDNEYS, AND
CATARRH OF THE BLADDER, STRANGURY AND BURNING, OR PAINFUL URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most argent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of Constitution Water will relieve you like magic. FOR DYSPEPSIA.

it has no equal in relieving the most distressing symptoms.

Also, Headache, Heartburn, Add Stomach, Vomiting Food, &c. Take a teaspoonful after dinner. The dose in all cases may be approached by the should be done gradually. PHYSICIANS have long since given up the use of buchu, cubebs, and juniper in the treatment of these diseases, and only use them for want of a better remedy.

CONSTITUTION WATER has proved itself equal to the task that has devolved DIURETICS

Dr. Wm. H. Grego—Dear Sir.: In February, 1861, I was afflicted with the sugar diabetes, and for five months I passed more than two gallons of water in twenty-four hours. I was obliged to get up as often as ten or twelve times during the night, and in five months I lost about fifty pounds in weight. During the month of July, 1861, I procured two bottles of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cured, soon after regaining my usual good health. Gents: I freely give you liberty to make use of the following Cortificate of the value of Constitution Water, which I can recommend in the highest manner.

My wife, who was attacked with pain in the shoulders, whole length of the back, and in her limbs, with Paipitation of the Heart, attended with Failing of the Womb, Dysmenorrhse, and Irritation of the Bladder. I called a physician, who attended her about three months, when he left her worse than he found her. I then employed one of the best physicians I could find, who attended her about nine months, and while she was under his care she did not saffer quite as much pain; he finally gave her up and said, "her case was incurable." For, said he, "ahe has such a combination of complaints, that medicine given for one operates against some other of her difficulties." About this time, she coramenced to use the Constitution Water, and to our utter astonishment, aimost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

"THERE IS NO SUCH WORD AS FAIL." ARRANT'S COMPOUND EXTRACT OF CUBEBS AND COPAIBA.

This preparation is particularly recommended to the MEDICAL PROFESSION and the PUBLIC, as combining, in the most convenient and efficacious form, the well-established virtues and properties of Cubebs and Copaiba. For the speedy and effectual relief and cure of all SEXUAL DISEASES, it may justly be considered one of the greatest and most valuable discoveries in the annals of medicine, frequently effecting a cure in three or four days. In its preparation as an extract or a paste, the usual nauseous taste is avoided, and it is, consequently, never found to interfere with the disestion, while, from its greater concentration, the dose is much reduced. It may be relied on as the best mode for the administration of these remedies in the large class of diseases of both sexes to which they are applicable.

N. B.—Purchasers are advised to ask for TABRANTS COMPOUND EXTRACT OF CUBEBS AND COPAIBA, and to take nothing else—as imitations and worthless preparations, under similar names, are in the market. AYPR'S Sarsaparilla FOR PURIFYING THE BLOOD,

ENDERS.A. JAYOMER

And for the speety cure of the following complaints; Scrofula and Scrofulous Affections, such as Tumors, Vicers; Sores; Brantlens, Pimples, Pustales, Blatchese Hells, Blains, and all Skin Diseases. Primples, Pustules, Histories, Heils, Hains, and all Skin Diseases, Strip, and Skin Diseases, Having inherited a Scrothlow inheriton, I have subsered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it burst out in Ulcers on my hands and arms; sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp hand earn with one sors, which was painful and foathouse beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had propared an alterative (Sarsaparilla), for I knew from your regulation that any thing you made must be good. I sant to Chicannati andgot it, and used almost three bottle if it evened me. I took it, as you advise, in small doese of a teaspoonful over a month, and used almost three bottle it if evened inch sitted while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I fall you, that I had you to be one of the spottles of the age, and remain ever gratefully.

Symphilis and Morcurial Disease.

New Orleans, 25th August, 1859.

De. J. C. Ater. Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Symbilitio ulcers in his threat, which were consuming his palet and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had acten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without. some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sansitive to the weather that on a damp day she suffered excurding pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D. Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.
Dr. J. C. Ayer: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM. attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and overy thing failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. My beloved pastor, the Rev. Mr. Epp, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the bleating of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough." the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space bere will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them. furnish gratis to all who call for them.

Dyspepsia, Heart Disense, Fits, Epilepsy, Melancholy, Neuraigia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness,

up, Bronchitis, Incipient Con imption, and for the Relief of Consumptive Patients in advanced Stages of the Disease. This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the curse which have won so strongly upon the confidence of mankind.
