VIEWS OF A REPUBLICAN. We publish below an article which reflects the scher and mature views of Thurslow Savings Institutions of the Commonwealth, we | WEED, the bosom friend and confidant of glean the following in regard to the Banks in | WILLIAM H. SEWARD. The Republican party in the State of New York, owe more to him than to any other man now living. The radical portion of it see too late that they might have carried that State at the recent election, if they had followed his advice. But they were, and are still, crazy. If Mr. WEED and the moderate men of his faith would only drift over into the Democratic party, all would soon be right again, and our beloved Union would be restored to what it was prior to the last Presidential election: From the Albany Evening Journal, Jan. 12.

WHERE ARE WE :--- AND WHERE DRIFTING. In 1860, when only distant mutterings of rebellion were heard, we were among the few who recognized, in those threats, the certainty of war; and who, in a measure, comprehended both its magnitude and its horrors.

It is always an offense, in an individual, to oresee evils, and especially so to attempt to avert, or even to be prepared for them. For an article then written, asking the President, Congress, and our readers, to raise their ever and thoughts above the horizon of party, and contemplate a crisis which would tax the energies of the people, and test the strength of our government, we incurred the denunci ations of many, and the friendly censure o most of the Republican journals.

Subsequently, when rebellion was rampar in the extreme Southern States, a question whether North Carolina and Tennessee should remain in the Union or go out of it, arose.— We all remember the "Border State Proposition," upon the adoption of which, by Con gress, rebellion, from the Mississippi Atlantic, would have been bounded by the southern lines of Tennessee and North Carolina. With a modification which the Border State representatives offered to accept, we advocated that "compromise." And for this, also, we were severely denounced. In the Peace Congress," where the Legislature honored us with a seat, which we resigned in favor of a distinguished citizen, the "Border State Proposition" was again rejected, and consequently two States a majority of whose citizens yearned to remain in the Union, With North Carolina and Tennes. were lost. see in the Union, Virginia could not have gone out of it. We should, therefore, instead sacrificing hundreds of thousands of lives and hundreds of millions of treasure in North Carolina, Virginia, Tennessee, and Kentucky, have reserved those troops and that reasure to crush out rebellion in the Cotton States.

The rebellion—as wanton and wicked as any that stains the pages of history-thus embracing more States than was necessaryhas been nearly two years in progress, with what measure of success, wand with what promise of a termination we can judge, one as well as another. Its lessons teach us that it requires all the strength of a united North to preserve the Union and uphold the govern-We had, at the commencement of the ment. war, a united North. The culmination of treason, in its attack on Fort Sumter, kindled a blaze of indignant patrictism over the whole North, East and West. All merely partisan feeling was merged in higher and no All good and true men, in imitation of their ancestors at Concord and Lexington, in 775, rushed to arms, or contributed money. Then we were, in the language of Mr. Jeffer · Republicans—all Democrats.' For the first year the war had, with few exceptions, the hearty support of both and al political parties. It was prosecuted earnestly. but with indifferent success—with more heart than head—more zeal than knowledge. We had gallant troops commanded by incapable generals, made so, probably, by newspaper and other interference. At any rate, the ill success of our armies caused popular impatience, of which those whose ultra anti slavery views enabled the secession leaders to mass the sentiment of the Cotton States, availed themselves to impart an abolition character to

The evidence before us-in the rivers of bloodshed, and the millions of treasure expended—that the preservation of our Union and government demand the best and united and government demand the best and united elected United States senator from New Jersey, and energies and efforts of the whole people, is Mr. Wall took the oath of office. This false, disloyal man, with shame be it confessed, found sympathizing friends to welcome and feast him at a secession hotel in the City of New York! Still the masses of the Democracy, and most of their prominent men, are truly devoted to the Union, and remain willing to contribute their money and peril their lives to sustain the government.— But in this there is no merit, unles they adopt the anti Slavery Platform and accept the dogmas of the New York Tribunc.

Will those of our old Whig friends, now s impatient with, and differing so widely from us, turn their minds a few years backwards and remember what they then thought of abolition; and what its course and action was Was it not narrow, perverse and mischievous Did it not exert a vicious and malign political influence? Did it not, for twenty years, at our elections, State and National, ever play into the hands of pro-slavery Democrats?-While we were laboring for the right, doing 4,968 30

Are not the same men, with Mr. Greeley, fully developed as a disciple, the abolition leaders now? Have they grown wiser, or is your own intellects dwarfed, or has your common sense collapsed? If the North rejected abolition as a merely political test, will it be accepted when the lives of our sons and brothers and the preservation of our country are involved? If we refused to follow "one-idea men" when it only cost us votes, shall we commit all that is sacred and precious to their leadership?

Where then is their relief in war? War has been called a wholesale grave digger who works for wages. Wages may bring New England to her senses. What wages? A quarter of a million of Northern-Southern—men perished already. Fortunes totter, industry palsied, bankruptey soon to follow this riot in speculation. Such war, with the gibbering abolition fiend behind produces no Union. It is not intended to produces no Union. It is not included to produce union unless slavery dies. But it is determined to prevent the Democracy from restoring the Union, by making division eternal. But by the God of our fathers! though these States may be torn apart temporarily by the extremists, the Democracy, if it takes lustrum to do it-will never cease to labor till the old Covernment and Union is ours again. (Tremendous cheering. Three cheers for the speaker—three cheers for Ohio.) Let the Middle and Western and Border stand firm. (Applause.) The leading spirits in President Lincoln's unconstitutional crusade against slavery are the radical infidels of the age, blaspheming wretches who neither love, fear, nor respect the Majesty of Heaven, and seize upon all occasions to dishonor the name of Jehovah, and shock the moral feelings of mankind by the most profane and impious expressions. THE ONLY SALVATION FOR THE REPUBLIC IN GOD AND THE NEGRO.—The interval between the destruction and the salvation of the Republic is measured by two steps: one is, emancipation; the other, military success. The first is taken; the other delays. How is it to be achieved? There is but one answer; by the negro?

Marshal them into line by regiments and brigades!— The men that have picked cotton must now pick flints! Gather the great third army! THE PATENT STAMP-SEALING AND POST-MARK
PRESERVING ENVELOPE.

The preservation on the letter itself of the POST-MARK
and POSTAGE-STAMP, generally destroyed with the detached cover, has long been deemed a matter of the first
importance. This desideratum is now triumphantly secured
by this ingenious invention. Many obvious advantages
must arise from the general use of this envelope.

First—Increased Safety by additional scaling; the stamp
connecting the envelope and letter securely together; and
this is never liable to be omitted, though the sticking of
the flap is frequantly neglected or imperfectly done.

Second—Security against impertinent Intrusion; the
letter and curulope being firmly attached by the stamps,
and inclosure cannot be imprected even if the flap be clas-

and inclosure cames be surposed and inclosure cames the destinely opened.

Third—Safety against Abstraction of Valuable Indosures. If the flap be left unscaled, or opened with falonious intent, it will be impossible to open the letter and take
thence bank notes and drafts without so mutilizing the
envelope as to insure detaction.

Firsth—Security for the free payment of the Postage;
as the stamp, when once properly placed in this window,
cannot be removed without its destruction.

Fight—Advantage therefore to the Government; by the as the stamp, when once properly personal cannot be removed without its destruction.

Fifth—Advantage therefore to the Government; by the effectual destruction of every stamp in its first use. Sixth—Eacility to the Post Office Departions; by a uniform location of the stamp in the upper right hand corner, which is the most convenient position for the Post Office mark.

Scentit—Verification of the Mailing; by securing on the letter itself the logal evidence of the time and place of itself.

Scientia.—Verification of the Mailing; by securing on the letter itself the legal evidence of the time and place of it being mailed. This has long been esteemed so desirable, that many prudent persons are constrained to dispense with the use of envelopes, that they may have the post mark on the letter; and others take the precaution to pin the envelope again on the letter for identification.

Fighth—Certainty of the Date and Place on the Letter, which are so frequently omitted by writers in carelessness or hurry. or hurry.

Ninth—Ornamentation; which, though some may think

Ninth—Ornamentation; which, though some may think of small importance, certainly meets the approval of all persons of tasts.

Texth—Cost. Notwithstanding the many and unrivalled advantages of the "Stamp Sealing Envelopes," they will be furnished at a very small advance upon the prices of those not having the benefit of this patent.
