The notorious Neal Dow, who has been the commander of the forts near New Orleans, has been arrested on a charge of robbing one of the citizens of his silver ware. Dow, it is stated, admits the robbery, which amounted to upwards of \$1,600, and tries to justify it on the ground that he supposed the victim was a secessionist.

Dow thinks he is entitled to, and asks for, promotion; and the N. Y. Tribuns seems to agree with him in the opinion.—Hartford Times.

O M E T H I N G N E W!

THE PATENT STAMP-SEALING AND POST-MARK PRESERVING ENVELOPE.

The preservation on the letter itself of the POST-MARK and POST-GE-STAMP, generally destroyed with the detached cover, has long been deemed a matter of the first importance. This desideratum is now triumphantly secured by this ingenious invention. Many obvious advantages must arise from the general use of this envelope.

First—increased fastery by additional sealing; the stamp connecting the envelope and letter securely together; and this is never liable to be omitted, though the sticking of the flap is frequently neglected or imperfectly done.

Scond-Security against Imperiment intrusion; the letter and envelope being firstly attached by this stamps, and incleaure cannot be inspected even if the flap be examinated to the state of the state o 853,820 16 913 00 and incleaure cannot be inspected even if the flap be elandestinely opened.

Third—Safety against Abstraction of Valuable Incleaures. If the flap be left unsealed, or opened with felonious intent, it will be impossible to open the letter and take
thence bank notes and drafts without so mutilating the
envelope as to insure detection.

Fourth—Security for the free payment of the Postage;
as the stamp, when once properly placed in this window,
cannot be removed without its destruction.

Fifth—Advantage therefore to the Government; by the
effectual destruction of every stamp in its first use.

Sixth—Pacility to the Post Office Deprations; by a uniform location of the stamp in the upper right hand corner,
which is the most convenient position for the Post Office
maxi. 5 00 which is the most convenient position for the Post Umce mark.

Screen's—Verification of the Mailing; by securing on the letter itself the legal evidence of the time and place of it being malied. This has long been esteemed so desirable, that many prudent persons are constrained to dispense with the use of envelopes, that they may have the post mark on the letter; and others take the precaution to pin the envelope again on the letter for identification.

Eighth—Cartainty of the Date and Place on the Letter, which are so frequently omitted by writers in carelessness or hurry. 20 00 325 89 100 00 which are so frequently omitted by writers in carelessance or hurry.

Ninth—Ornamentation; which, though some may think of small importance, certainly meets the approval of all persons of taste.

Tenth—Cost. Nowlithstanding the many and unrivalled advantages of the "Stamp Sessing Envelopes," they will be furnished at a very small advance upon the prices of those not having the benefit of this patent.
