The preservation on the letter itself of the POST-MARK and POSTAGE-STAMP, spensfully destroyed with the de-tached cover, has long been deemed a matter of the first importance. This desideratum is now triumphanelly secured by this ingenious invention. Many obvious advantages must arise from the general use of this envelope. *Hirst*-Increased Safety by additional sealing; the stamp connecting the envelope and letter securely together; and this is never liable to be omitted, though the sticking of the flap is frequently neglected or imperfectly done. *Scond*-Security sgainst Impertinent Intrusion; the letter and sevelope being firmly attached by the stampr, and inclosure cannot be inspected even if the flap be elan-destinely opened. *Third*-Safety against Abstraction of Valuable Incloa minor child of deceased.
