THE DAY SCHOQL BELL.

35,000 OPPIES ISSUED.

A new Singing Book for Day Schools, called the Day School Bell, is now ready. It contains about 200 choice songs, rounds, catches, duetts, trics, quartetts and choruses; many of them written expressly for this work, besides 32 pages of the Elements of Music. The Elements are so easy and progressive, that ordinary teachers will find themselves entirely successful in instructing even young scholars to sing correctly and scientifically; while the tunes and words embrace such a variety of lively, attractive, and soul-stirring music and sentiments, that no trouble will be experienced in inducing all beginners to go on with zeal in acquiring skill in one of the most health-giving, beauty-improving, happiness-yielding, and order-producing exercises of school life. In simplicty of its elements, in variety and adaptation of music, and in excellence and number of its songs, original, selected, and adapted, it claims by much to excel all competitors. It will be found the best ever issued for seminaries, academies and public schools. A few sample pages of the elements, tunes and songs, are givon in a circular; send and get one. It is complied by Horace Waters, author of "Sabbath School Bell," Nos. I and 2, which have had the enormous saile of 735,000 copies.
