MEMPHIS, April 30.—Advices from Young's Point, Sunday, say that Gen. Grant was at Carthage. It is thought that the rebel rams up the Yazoo are ady to come out, as the raft has been cut to pieces ready to come out, as the raft has been cut to pieces and floated out.

It is doubtful whether any of the six transports It is doubtful whether any of the six transports which attempted to run the batteries at Vicksburg, on the night of the 23d, succeeded in passing. Four are known to have been sunk, and the other two if they got by were badly damaged.

The firing on the transports was terrific, commencing at midnight, it continued till daylight.

A despatel from Miliken's Bend, of the 24th, says orders were yesterday issued for the whole army to march, with six days' rations.

All, with the exception of the Tigress, were stern-wheel boats, and of little value except as transports for soldiers. The values given above are those of river men of experience, and are doubtless somewhat exaggerated.

Notwithstanding the notoriety of these acts, the hill I return throws no guard around the rights and independence of our soldiers in the field. An amendment designed to protect them against coercion and fraud was rejected in one branch of the Legislature.

The supposed intention of Johnson, who is in command, is to hold the gaps and force General Roserans to concentrate his lines. There is but little hope that Johnson will attack.

While despatches detailing this activity on the part of the Robels must be necessarily silent regarding conselves, it must not be supposed that General Roserans is idle or unprepared.

THE MEN WHO NOW RULE.

It came to my knowledge yesterday, that a 'Why, then," said the listener, "do you insist upon a fanatical war?" The reply was, "to step now would ruin our party, and we must fight, long as we can, and like the devil." If such a man and the people who support him are patriots, then is the term black-heartlovers of their country; and the fact that extent is having a most damaging effect upon Maryland, Kentucky and Tennessee, and wield much influence at home. They know, what any fool might perceive, that, at the commencement of the war, the South was somewhat divided and the North united; but to-day the South is united, and the North more than equally divided; and all this, they maintain, has been brought about by the course of the President, and the reckless conduct of the fanatics, who have made him their instrument to shake the government to its deepest foundation.

A Mr. Dana was to ordained to the ministry, and strange as it may appear, the questions to the candidate put by a negro acting as Moderator !-When the laying on of hands came in order, another negro preacher came down the aisle and mingled his paws with the white brethren. Among the white men who officiated in this amalgamating ordination, were the Rev. Dr. Storrs, Mr. Robinson, the pastor of the church, and the Rev. Theo. Cuyler. The idea of a white man being questioned by a negro as to his qualifications for a Christian teacher, is so impious and wicked, that deserves notice. As for equal rights, we hope those clergy-men will go the whole figure, and not fail to give each a daughter to some nigger preacher for his wife. SOMETHING NEW! THE PATENT STAMP-SEALING AND POST-MARK PREAKENTS TRAMP-SEALING AND POST-MARK PREAKENTS TRAMP-SEALING AND POST-MARK AND POST-MARK PREAKENTS GENVELOPE.

The preservation birthe letter itself of the POST-MARK and POST-MAGE-STAMP, generally destroyed with the detached cover, has long been deemed a matter of the first importance. This desideration is now triumphantly secured by this ingenious invention. Many obvious advantages must arise from the general use of this envelope.

First—Increased Safety by additional sealing; the stamp connecting the envelope and letter securely together; and this is never liable to be omitted, though the sticking of the flap is frequently neglected or imperfectly done.

Second—Security against Importinent Intrusion; the letter and envelope being firmly attached by the stamps, and inclosure cannot be inspected even if the flap be clandestinely opened.

Third—Safety against Abstraction of Valuable Inclosures. If the flap be left unseafled, or opened with felonious intent, it will be impossible to open the letter and take thence bank notes and drafts without so mutilating the envelope as to insure detection.

Furth—Security for the free payment of the Postage; as the stamp, when once properly placed in this window, cannot be removed without its destruction.

Fifth—Advantage therefore to the Government; by the effectual destruction of every stamp in its first use.

Sight—Facility to the Post Office Dperations; by a uniform location of the stamp in the upper right hand corner, which is the most convenient position for the Post Office mark.

Scenth—Verification of the Mailing; by securing on the

which is the most convenient position for the Post Office mark.

Strenth-Verification of the Mailing; by securing on the letter itself the legal evidence of the time and place of it being mailed. This has long been esteemed so desirable, that many prudent persons are constrained to dispense with the use of envelopes, that they may have the post mark on the letter; and others take the precaution to pin the envelope again on the letter for identification.

Eighth-Certainty of the Date and Place on the Letter, which are so frequently omitted by writers in carelessness or hurry.

which are so frequently omitted by writers in carelessmeas or hurry.

Ninth—Ornamentation; which, though some may think of small importance, certainly meets the approval of all persons of taste.

Tenth—Oest. Notwithstanding the many and unrivalled advantages of the "Stamp Sealing Envelopes," they will be furnished at a very small advance upon the prices of those not having the benefit of this patent.

PROSPECTUS OF (THE AGE.''
A NATIONAL DEMOCRATIC NEWSPAPER,
To be published Daily and Weekly in the City of Philsdelphia, by

A. J. GLOSSBRENNER & CO.

1. J. GLOSSBRENNER. FRANCIS J. GRUND. WILLIAM H. WELSH.

"THE AGE" will advocate the principles and policy of the Democratic party, and will, therefore, necessarily favor the restoration of the Union as it was, and defend the Constitution of the United States, and that of this Comonewaith.

It will freely and fairly discuss all legitimate subjects of the subjects of the subjects of the subject of the sub newspaper comment, including, of course, and pre-emi-nently at this time, all questions connected with the existing unhappy condition of our country. It will fearlessly criticise the public acts of public ser-vants, and defend the legal and constitutional rights of in-dividual citizens of sovereign States, against assaults from

wants, and derivation to legal and the sasults assaults from any quarter.

It will seek to awaken the minds of the people to a proper source of the actual condition of the Republic—to present to them, truthfully, the fearful perils in which we stand as a nation—to exhibit the magnitude of the task that is before them, if they would check our downward progress—and to inspire them with patriotic determination to apply rus REMEDY for our national IIs.

In brief, it will, in all things, aim to be the faithful exponent of Democratic principles, and to render itself worthy to be an organ of the Democratic party, under whose auspices our country prospered so long and so well. The restoration of that party—the party of the Constitution and the Union—to power, in the legislative and executive governmental branches of the States and of the Union, we believe to be necessary to avert nancely, and the utter ruin of the Republic. To contribute to that restoration will be our highest aim. The News, Literary, Commercial, and other departments, will receive due attention, and will be so conducted as to make "Tex Ace" worthy of the support of the general will receive due attention, and will be so conducted as a make "THE AGE" worthy of the support of the genera

Es The many difficulties now surrounding an enterprise of the magnitude of that in which the undersigned are engaged, require them to appeal to the public for a generous support, and sack for "THE AGE" a liberal patronges and extended circulation.

The present state of the preparatory arrangements warrants the expectation, that the first number of the Daily will appear before the close of the coming month, (February, 1863.) The Weekly will be issued soon thereafter.
