Because despotism and superior force so will it, I go within the Confederate lines. I well understand the purpose of this order. ARRANTIS COMPOUND EXTRACT OF

CTBEBS AND COPAIBA.

This preparation is particularly recommended to the MEDICAL PROPESSION and the PUBLIC, as combining, in the most convenient and efficacious form, the well-established virtues and properties of Cubebs and Copaiba. For the speedy and effectual relief and cure of all SEXUAL DISEASES, it may justly be considered one of the greatest and most valuable discoveries in the annals of medicine, frequently effecting a cure in three or four days. In its preparation as an extract or a paste, the usual nauseous taste is avoided, and it is, consequently, never found to interfere with the digestion, while, from its greater oncentration, the dose is much reduced. It may be relied on as the best mode for the administration of these remedies in the large class of diseases of outs sexes to which they are applicable.

THE PATENT STAMP-SEALING AND POST-MARK PRESERVING ENVELOPE.

THE PATENT STAMP-SEALING AND POST-MARK PRESERVING ENVELOPE.

The preservation on the letter itself of the POST-MARK and POSTAGE-STAMP, generally destroyed with the detached cover, has long been deemed a matter of the first importance. This desideratum is now triumphantly secured by this ingusious invention. Many obvious advantages must arise from the general use of this envelope.

First—Increased Safety by additional scaling; the stamp connecting the envelope and letter securely together; and this is never liable to be omitted, though the sticking of the flap is frequently neglected or imperfectly done.

Scond—Security against Impertment Intrudon; the letter and envelope being firmly attached by the stampe, and inclosure cannot be inspected even if the flap be clandestinely opened.

and inclosure cannot be inspected even it are map we con-destinally opened.

Third—Safety against Abstraction of Valuable Inclo-sures. If the flap be left unscaled, or opened with feloni-ous intent, it will be impossible to open the letter and take thence bank notes and drafts without so mutilating the ons intent, it will be impossible to open the letter at the thence bank notes and drafts without so mutilating the envelope as to insure detection.

Furth—Security for the free payment of the Postage; as the stamp, when once properly placed in this window, cannot be removed without its destruction.

Fifth—Advantage therefore to the Government; by the effectual destruction of every stamp in its first use.

Sizh—Facility to the Post Office Departitions; by a uniform location of the stamp in the upper right hand corner, which is the most convenient position for the Post Office mark.

Screnth—Verification of the Mailling; by securing on the letter itself the legal evidence of the time and place of it being mailed. This has long been esteemed so desirable, that many prudent persons are constrained to dispense with the use of envelopes, that they may have the post mark on the letter; and others take the precaution to pin the envelope again on the letter of identification. Eighth—Certainty of the Date and Place on the Letter, which are so frequently omitted by writers in carelessness or burry.

Ninth—Ornamentation; which, though some may think which are so frequently omitted by writers in Carelesiness or burry.

Ninth—Ornamentation; which, though some may think of small importance, certainly meets the approval of all persons of taste.

Renth—Coat. Notwithstanding the many and unrivalled advantages of the "Stamp Scaling Envelopes," they will be furnished at a rery small advance upon the prices of those not having the benefit of this patent.

"THE AGE" will advocate the principles and policy of the Democratic party, and will, therefore, necessarily favor the restoration of the Union as it was, and defend the Constitution of the United States, and that of this Com-Constitution of the Context services and pre-emi monwealth. It will freely and fairly discuss all legitimate subjects of newspaper comment, including, of course, and pre-emi nently at this time, all questious connected with the existing unhappy condition of our country.

It will fearlessly criticise the public acts of public servants, and defend the legal and constitutional rights of individual citizens of sovereign States, against assaults from exponential.

yants, and derived the legisland constitutional rights of the dividual citizeon of sovereign States, against assaults from any quarter.

It will seek to awaken the minds of the people to a proper sense of the actual condition of the Republic—to present to them, truthfully, the fearful perils in which we stand as a nation—to exhibit the magnitude of the task that is before them, if they would check our downward progress—and to inspire them with patriotic determination to apply rus REMENT for our national ills.

In brief, it will, in all things, aim to be the faithful exponent of Democratic principles, and to render itself worthy to be an organ of the Democratic party, under whose anylose our country prospered so long and so well. The restoration of that party—the party of the Constitution and the Union—to power, in the legislative and executive governmental branches of the States and of the Union, we believe to be necessary to avert anarchy, and the utter ruin of the Republic. To contribute to that restoration will be our highest aim.
