Rebel Dash on Poolesville, Md. WASHINGTON, June 11.
The following official despatch was received here Poolesville, June 11. Poolesville, June 11.

The enemy's cavalry came across the river this morning at daybreak, about two hundred and fifty strong. They dashed repidly up the tow-path, driving in our patrols, and attacked Company I, of the Bixth Michigan cavalry, who were on picket at Beneca. Our forces gradually fell back, pursued by the enemy, to within three miles of Poolesvillet. The enemy then retreated to Seneca, burned the camp of the Michigan company and turned down the tow-path and re-crossed. We lost four men killed, one badly and one slightly wounded. The enemy lest on the field killed, one Lieutenant and one man.

BALTIMORE, June 12. On Wednesday, the steamer Maple Leaf left Fortress Monroe for Fort Delaware, with ninety rebel officers. When near Cape Henry Lighthouse, the rebels took possession of the boat, sent the captain and crew below, and steamed forty five miles below the lighthouse, and sixty-five from Fortress Monroe, and anded on the Virginia shore, in the hoats of the steamer. Twenty-six refused to go with them, and the captain of the boat turned back to the fortress and reported the affair to Gen Dix. Among those who escaped was Capt. Semmes, a son of the captain of the pirate Alabama. They did no injury to the boat.

HANGING OF REBEL SPIES. Murfreesboro, June 13. Captain Thompson, of General Rosecrans's staff, under a flag of truce, delivered the effects of the two spies hung at Franklin, Tennessee, to Lieutenant Colonel Webb, of the Fifty-first

Depression of Spirits, and constant imagining of the various diseases to which our nature is helr to, liver Diseases, Heart Burn, Patrice. Alabama, this evening. One of the party re-ceiving the flag remarked, "So, you have hung two of our spies?" He then added that one of them, Orton, was his particular friend, and Inspector of Constructions on Wheeler's staff; but as Orton was not entitled to an adjutant, he did not know the Fever and dull Pain in Head,

They had taken a horse and carriage and gone out in the afternoon for a short ride. They penetrated in-sensibly into the forest, which there extends for many miles, became frightened, and drove rapidly on the wrong road, in their alarm, going farther from home. The harness ha came so broken as to be of but little service, and the horses unmanageable. The citizens becoming alarmed at their protracted absence, turned out en masse at dark, and ultimately found them in the recesses of the forest, six miles from home, prostrated in body and mind, and nearly insensible.—Mount Holly (N. The payments made to the army within the last fortnight have amounted to \$21.-600,000. There are still unpaid \$16,000,000. The troops yet unpaid are General Grant's, General Rosecrans', General Schenck's, General Heintzelman's and General Peck's. The money is all ready for the Potomac army whenever the pay-rolls are ready. Paymasters are now in New York with the funds, en route to all the coast expeditions. - Washing-

ing certificate, selected from hundreds received weekly. It speaks for itself:

Ms. B. Mishiev-Sir: About Christmart, my youngest daughter, a girl of fifteen years of age, was attacked with paralysis, which confined her to her bed, where she lay perfectly helpless and suffering the greatest pain. I procured the attendance of our medical men in the neighborhood, but, in spite of their best efforts, she grew daily worse and worse. She was so helpless that it was impossible for her to sit up, even when propped by pillows, for when, to ease her, we would raise her up, she would fall over backwards, or lie on one side or the other, and indeed had no strength or power or control over her motions at all. On the 26th of last menth, by the advice of Henry Minulch, I came to see you, and, from what you told me, I concluded to try vour Herb Bitters. I took a bottle out home with me, and my daughter commenced taking it, the has used that bottle, and the effect is so great that I want to take out some more with me, and I am confident may that what some told me, and the refert is wear that the contract was the second or the part what we have not the me. She is now able to leave her bed, and can sit in a common chair, and can stand on her feet, without any pain; she can ralse her hands to her head, and remains out of bed most of the day. I am so pleased with the effects of your medicine that there is nothing I would not give to precure it. You may use this as you please, for I think that so good a medicine should be known everywhere.

Lancastra, May 27th, 1863.

B. Mishler—Dear Sir: This is to certify that I have been suffering with what the dectors call Chronic Diarrobox, for three months, and I suffered so much with pain and grew so weak, that the dectors had simest despaired of my getting well, and indeed I had almost given up myself. I have been at the Lancaster Hospital for six months; I had Rhematism when I went there, and was unable to do anything. One of the immates of the Hospital give me three dores of your Bitters, and afterwards I felt much better, and I have been taking them ever since, and feel as if I am going to get sound and well. Your Bitters have proved themselves to be a cure for me, and I am thankful for it. I do really think I could not have lived this long had I not got the Bitters. I sise had Gravel, which has troubled me for a long time, of which I feel nothing of any had I not got the Bitters.; I also had Gravel, which has troubled me for a long time, of which I feel nothing of any more. I suppose it must have been the Bitters that took that away, as it works you say in that way. Indeed the Bitters have been a God's blessing to me, and have restored me to pretty good health. Mr. A. Fairer can tell all about it, as he is well acquainted with my sufferings since I have been in the Hospital.

Respectfully,

Mr. B. Mishler: My wife having been affilicted with excruciating pain in her hands and icet, several of our most prominent physicians attended her but could give her little or no relief. I then had recourse to Mishler's Bitters; she or no relief. I then had recourse to Mishier's Bitters; she took half a bottle, and the pains entirely left her. I took the remainder myself; before taking it I was overcome with drowsiness whenever I would sit down to read or write, and would fall asleep, but since I took the Bitters, I feel as if I could "leap over a wall and run through a troop." GEO. DRUCKENMILLER.

Mr. B. Mizhler—Dear Sir: About three years ago there was a Lump or Swelling came on the side of my neck or Jaw, which continued to enlarge in size without opening. About two years ago, I drew it open with a poultice. I commenced to use your Bitters shout three months ago, which has driven the swelling all away, and besides has taken a lump of bard substance from the opening which you can have to show to the people. I am this day a sound man, and feel nothing of it at all; it has left no mark or trace of it behind, all has gone away.

THE PATENT STAMP STALING AND POST-MARK
PRESERVING ENVELOPE. PRESERVING ENVELOPE.

The preservation on the letter itself of the POST-MARK and POSTAGE. TAMP, generally, destroyed with the dotached cover, has long been desented a matter of the first importance. This desideration is now it rimmphantly secured by this injustions invention. Many obvious advantages must arise from the general use of this envelope.

First—Increased Settly by additional scaling; the stamp connecting the envelope and letter securely together; and this is never liable to be omitted, though the sticking of the flap is frequently neglected or imperfectly, done.

Second—Security against Imperiment Intrusion; the latter and envelope being firmly attached by the stamps, and inclosure cannot be inspected even if the flap be clandertinely opened.

and inclosure cannot be inspected even if the flap be clarified in a constraint of the flap be clarified in the flap be clarified in the flap be left unsealed, or opened with filonious Intent, it will be impossible to open the letter and take thence bank notes and drafts without so mutilating the envelope as to insure detection.

Flutch—Security for the free payment of the Postage; as the stamp, when once properly placed in this window, cannot be removed without its destruction.

Flutch—Advantage therefore to the Government; by the effectual destruction of every stamp in its first use.

Sixth—Facility to the Post Office Departations; by a unform location of the stamp in the upper right hand corner, which is the most convenient position, for the Post Office mark.

which is the most convenient position for the Post Office mark.

Scientit Verification of the Mailing; by securing on the letter itself the legal crudence of the time and place of it being mailed. This has long been esteemed so desirable, that many prudent persons are constrained to dispense with the use of envelopes, that they may have the post mark on the letter; and others take the precantion to pin the envelope again on the letter for identification.

Eights—Certainty of the Date and Place on the Letter, which are so frequently omitted by writers in carelessness or hurry. which are so frequently omitted by writers in carelessness or hurry.

Ninth—Ornamentation; which, though some may think of small importance, certainly meets the approval of all persons of taste.

Tenth—Cost. Notwithstanding the many and unrivalled advantages of the "Stamp Sealing Envelopes," they will be furnished at a very small advance upon the prices of those not having the benefit of this patent.

WILLIAM H. WELSH. "THE AGE" will advocate the principles and policy of the Democratic party, and will, therefore, necessarily favor the restoration of the Union as it was, and defend the Constitution of the United States, and that of this Comnonwealth.

It will freely and fairly discuss all legitimate subjects of newspaper comment, including, of course, and pre-emi-nently at this time, all questions connected with the existing unhappy condition of our country. It will fearlessly criticise the public acts of public serants, and defend the legal and constitutional rights of in lividual citizens of sovereign States, against assaults from my quarter. dividual citizens of sovereign states, against assaults from any quarter.

It will seek to awaken the minds of the poople to a proper sense of the actual condition of the Republic—to present to them, truthfully, the fearful perils in which we stand as a nation—to exhibit the magnitude of the task that is before them, if they would check our downward progress—and to inspire them with patrictic determination to apply THE REMEDY for our national ills.

In brief, it will, in all things, sim to be the faithful exponent of Democratic principles, and to render itself worthy to be an organ of the Democratic party, under whose auspices our country prospered so long and so well.

worthy to be an organ of the Democratic party, under whose anapiess our country prospered so long and so well. The restoration of that party—the party of the Constitution and the Union—to power, in the legislative and executive governmental branches of the States and of the Union, we believe to be necessary to avert anarchy, and the utter ruin of the Republic. To contribute to that restoration will be our highest sim.

The Nows, Literary, Commercial, and other departments, will receive due attention, and will be so conducted as to make "The Age" worthy of the support of the general reader.

TO THE INVENTOR.

The Sclentific American is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application. interest and the second series of the second series of the publication. Mesers Musn & Co., have acted as Patent Solicitors for more than seventeen years, in connection with the publication of the Scientific American, and they refer to 20,000 the second series of the second series o patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their

patentability.
OHEMISTS, ARCHITECTS, MILLWRIGHTS AND
FARMERS. The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry are giving in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill-owners will be found in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.
