necessary to satisfy a discerning public of its superior qualities over any other preparation at present in use. It cleanees the head and scaip from dandraff and other cutaneous diseases. Causes the hair to grow invariantly, and gives it a rich, soft, glossy, and fluxible appearance, and also where the hair is locensing and thianlag, it will give a strength and vigor to their outs, and restore the growth to those parts which have become hald, causing it to yield a fresh covering of bair. those parts which have become bald, causing it to yield a freeh covering of hair. Thore are hundruds of ladies and gentlemen in New York who have had their hair restored by the use of this Invig orator, when all other preparations had failed. L. M. h in his possession letters innumerable testifying to t above facts, from persons of the highest respectability. will effectually provent the hair from turning gray un the latest period of life; and in cases where the hair in ha already changed its color the use of the Invigorator will with certainty restores it to its original-hue, giving it a dark, glossy appearance. As a perfume for the toilet and a Hair Restorative it is particularly recommended, having an agreeable fragrance; and the great facilities it afford in dressing the hair, which, when moist with the Invigora for can be dressed in any required form so as to preserve its place, whether plain or in curls-hence the great demand for it by the ladies as a standard toilet article which none ought to be without, as the price places it within the reach of all, being ONLY TWENTY-FIVE OENTS per bottle, to be had at all respectable druggists' and perfumers. L. MILLER would cell the sitention of Parents and Guardians to the use of his havigorator; in cases where the childrene Hair inclines to be weak. The use of it lays the foundation for a good besid of hair, as it remores any im-partites that may have become connected with the scalp the removal of which is necessary both for the health o the schild, and the future appearance of the Hair. My wife, who was attacked with pain in the shoulders, whole length of the back, and in her limbs, with Paipita-tion of the Heart, attacked with Failing of the Womb, Dysmenorrhes, and Irritation of the Bladder. I called a physician, who attached box about three months, whon he left her worse than he found her. I then employed one of the best physicians I could find, who attended hor about nine months, and while she was under his care she did not suffer quite as much pain 1, be finally gave her up and said, "her case was incurable." For, said he, " she has such a combination of complaints, that medicine given for one operates against some other of ther difficulties," About this time, ebe courvenced to use the Constitution Water, and to our utter astonishment, almost the first doss seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs.
