GEN. WASHINGTON'S LETTER OF IN-STRUCTION TO MILITARY CUMBAN-DERS.

During the Presidency of Washington occurred the celebrated "Whiskey Rebellion." President the following letter: PHILADELPHIA, March 27, 1795.

"DEAR SIR: —The interest which you have taken in the safety of John Mitchell, as ex-pressed in your letter of the 19:h of January, would be an inducement to go as far ieving him as public propriety would admit. But the Attorney General having made a re-port, of which the inclosed is a copy, I think it advisable to postpone the further consideration until the trial shall have taken place. "It has aff rded me great pleasure to learn that the general conduct and character of the army has been temperate and indulgent, and that your attention to the quiet and comfort of the Western inhabitants has been well received by them. Still it may be proper, constantly and strongly, to impress upon the and the army that they are the mere agents of civil power; that they have no more authority than other citizens; that offences against the laws are to be examined, not by a military officer, but by arrests and indictments for a violation of law; that officers ought to be careful not to give orders which may lead their agents into infractions of law; that disputes be avoided as much as possible, and be adjusted as quickly as may be without urging them to an extreme : and that the whole country is not ooked upon nor considered as within the

limits of the camp.

"I do not communicate these things to you for any other purpose than that you may weigh them; and without referring to any instructions from me, adopt the measures necessary for accomplishing the foregoing obiects. I am. dear sir. Your humble servant,
