Inthe could have taken the city, in co-oper ation with the army, months since, is admitted by some of his own officers—one of whom remarked to me, "He might have lost one or two monitors in the attempt; but it could not fail ultimately to be successful." I do not speak of the present time. For months past, before the fleet, the rebeis were busy in their endeavors to make the works near the city impregnable; and, whether they are or not, they believe them now to be so, and the admiral would seem to share in the unwelcome belief. The proposed movements of the army here were suspended, as vessels could not be spared from Oharleston harbor, lest the rebei rams should take advantage of the circumstance. But there is every indication that these rams will make the attempt to rush out at night at no very distant period. For the speedy and effectual relief and cure of all SEXUAL DISEASES, it may justly be considered one of the greatest and most valuable discoveries in the annals of medicins, frequently effecting a cure in three or four days. In its preparation as an estract or a paste, the usual nanegous tastic is avoided, and it is, consequently, never, found to interface with the disestion, while, from its greater on-contration, the dose is much reduced. It may be relied on as the beat mode for the administration of these remedies in the large class of diseases of both sexes to which they are applicable. N.
