They tried sweating the patient by boiling hemlock boughs and plac the patient over the steam, and giving him hemlock tea to drink, both hot and strong, which soon produced perspiration. All this prescription got well, that followed and hardly a family went to bed without a good quantity of hemlock boughs that could be used in case of necessity. The old fire-place and five pail kettles were in use there. But I expect Yankee ingenuity will devise some means with more modern household itensils to raise steam.

copperhead pays city, poor, county and state tax: pays Revenue tax, pays bounties, enlists, fights, supports the Constitution of the State and of the United States, behaves himself peaceably and acts all the while as a good citizen, and yet he is denounced as a reptile not fit to live. Why is this? Because he will not support the negro policy of Abe This is the sum-total of his offense. future movements .- Louisville Journal POLICY OF THE ADMINISTRATION.

Hon. D. W. VOORHEES, of Indiana, in his speech in Congress on the 5th inst., says: But sir, the saddest question embraced within the scope of my remarks remains to be answered as I draw them to a close. Has the policy pursued for the last three years resulted in the formation of a more perfect. Union? No language that the tongue of man can utter would form as expressive an answer to such a question as a sil nt survey of the dreadful scene which lies before us. A grlf of blood and tears and all of human agony which the afflicted race of man can know this side of the dread abodes of the damned, divides the suffering and miserable sections of a once fraternal and contented people. Statesmen of Christian faith, imbued with the lofty spirit of Him who gave his blessing to the merciful, could again span this horrid chasm and bind together the torn and bleeding ligaments of the Union. But an evil star is raging in our sky, and under its malign power the legislation of the land appears as the frenzied, murderous, disjointed madman in his cell.

Such a penal code as now stands in the way of the return of the men, women and children of the South to their allegiance, has no parallel in the annals of the human race. A thousand miles of gibbets with the dangling salled copperheads, because they think that a of an innocent posterity; the absolute extermination of a whole people and the appropria tion of the depopulated country to the unsparing demands of a more than Norman conquest; the utter extinction of every vestige of our present form of Government by States, all this and infinitely more is contained in the enactments which already stain the records of American legislation. But why need I dwell upon these evidences of disunion? The great leader of the Administration on this after all our sacrifices, sorrows and loss, that the Union of our fathers is dead, and he who attempts its resurrection is a criminal instead He goes further, and admits their nationality. Our ing so anxiously after new subjects of taxastatement was flatly contradicted by an Abolition press, on what was said to be reliable authority. Now, however, the truth of what we said is made manifest by a proclamatio signed "ABRAHAM LINCOLN," calling for 200. 000 more men to be drafted as soon after the 15th day of April as practicable. We have repeat dly cautioned the public agains placing any reliance upon telegraphic dispatches and statements in Abolition newspa pers-they lie by the contract, and are not to he believed even when they profess to speak on "reliable authority." The pardon was procured through the exertions of Mr. Ebaugh and other gentlemen, of York county, who it is said procured evidence of the man's insanity, and through the assistance of Hon. Joseph Baily.

A court of Uper and Terminer and General Jail Delivery, also, a Court of General Quarter Sessions of the Peace and who loves the Union in the South, to stultify himself on the negro question, in order to gain credence and respect from the powers that rule us, how many more such Conventions would be held in the disaffected States!

A Democratic Administration, in able hands, sinking that question altogether, would bring about a peaceful Union in six months, under the Constitution of our fathers, without bloodshed.

MR. GRINNELL'S SPEECH.

It is not often that we pollute our columns with anything that comes from the lips of Abolition Congressmen. But we cannot forbear printing, as a sample of decency, charity and style of the representatives of that party in Congress, a short speech, made by one of them in the House on Saturday week, as we find it reported in the New York Tribune : "Mr. Grinnell, of Iowa, briefly spoke in derogation of Gen. M'Clellan, who, with his Democratic friends, were leagued with slavery,

and would go down to hell.' That speech comprises the "pith and manow " of all the Abolition harrangues. Grain-NELL has compressed the venom of the whole tribe in a brief sentence.

The publishers of The Age could easily fill their columns with the unsought and most liberal commendations of the press throughout the country; but they prefer that it should stand altogether upon claims to public confidence, well known and established. They believe it has acquired this reputation by the candor, fearlessness and independence with which it has been conducted, through times of extraordinary confusion of ideas on public subjects, and latterly of almost unexampled public trial. It is now, and will be, as heretofore, the supporter of truly national principles, opposed alike to radicaisism and fanaticism in every form, and devoted to the maintenance of good government, law and order.

The publishers of The Age conceive that it thus renders peculiar services and has peculiar claims upon all men by whom its principles are valued, and who, by the proper means, look to promote and secure the Constitutional restoration of the Union These can best show their sense of the untiring efforts of the publishers, in behalf of this great and unparalleled cause, by earnestly sustaining this paper in all its business relations.

PROSPECTUS FOR 1864. An Independent Democratic Dally, Semi-Weekly and Weekly Newspaper.

UNION OF THE WORLD AND ARGUS.

The World to which the New York Weekly Argus has been united, has to-day five times the aggregate circulation of any Democratic or conservative newspaper. It addresses weekly more than 100,000 subscribers and constant purchasers, and reaches at least half a MILLOR readers. With the steady increase in circulation which it

It addresses weekly more than 100,000 subscribers and constant purchasers, and reaches at least tany a multipart readers. With the steady increase in circulation which it now enjoys, these numbers will be doubled by the 1st of January, 1854. Nothing less than this should satify those who believe that the only hope of restoring the Union and the authority of the Constitution over a now distracted and divided country, lies in wresting power from the hands of those whose fanaticism has helped to provoke, juvite, and prolong the war; and that to accomplish the end, no means is so effective as the diffusion, through able and enterprising newspapers, of sound political knowledge among the working man, the thinking men, and the voting men of the North.

Enterprise, industry and money will be liberally expended to make The World THE BEST NEWERPAPE, AMERICA. Its news from every part of the world will be early and anthentic. Wherever the telegraph extends, or rallroads run, or steamboats ply, it will gather the latest intelligence. If has a large staff of accomplished correspondents with all the federal armies, who will telegraph and write to us the latest news from the various seats of war. It has correspondents and reporters in every political and commercial centre in America and Europe, whose letters and dispatches will leave nothing worthy of noto unknown to its readers.

Special exertions will be used to make its reports of the Crops, of the Cattle, Produce, and Money markets, comprehensive and accurate. Residing that the bone and sinew of the country are to be found upon its farms and in workshops, The World will adventing the resulting for the best of the country.
