is motion to re-consider the vote by which the House his motion to re-consider the vote by which the House disagreed to the Senate's amendments to the Montana Territorial bill, and asking that a Committee of Conference be appointed. He said that the Senate's amendment striking out the word "white," so as to give negroes the right to vote in that Territory, was an amendment different from what had heretofore been incorporated in such bills. Since the Republican party came into power they had ignored their precedents. His object was to give gentlemen an opportunity to determine whether they were prepared to say that negroes should have the same rights in the Territory as white men. He therefore wanted the House to adhere to its disagreement. Mr. Beaman, of Michigan, said he would not discuss the question whether it was expedient that negroes should vote or not; but as the matter stood, the House had already refused to consent to the Senate's amendments and appointed a Commit-tee of Conference on the subject. He moved to lay Mr. Pendleton's motion to re-consider on the table. The motion was agreed to—yeas 63, nays 49. The House resumed the consideration of the Karitan and Delaware Bay railroad bill. The jublishers of The Age could easily fill their columns with the unsought and most liberal commendations of the press throughout the country; but they prefer that it should stand altogether upon claims to public confidence, well known and established. They believe it has acquired this reputation by the candor, fearlessness and independence with which it has been conducted, through times of extraordinary confusion of ideas on public subjects, and stately of almost unexampled public trial. It is now, and will be, as heretofore, the supporter of truly national principles, opposed allke to radicalism and fanaticism in every form, and devoted to the maintenance of good government; law and order.

The publishers of The Age conceive that it thus renders every form, and devoted to the maintenance of some atment, law and order.

The publishers of The Age conceive that it thus renders peculiar services and has peculiar cistims upon all men by whom its principles are valued, and who, by the proper means, look to promote and secure the Constitutional restoration of the Union These can best show their sense of the untiring efforts of the publishers, in behalf of this great and unparalleled cause, by earnestly sustaining this paper in all its business relations.

P. F. Cooper desires to call the attention of persons visiting Philadelphia to his new Ground Floor Gallery, where he has introduced newly-patented cameras, capable of taking, in a few seconds, one hundred Photographs, from the small stamp or autographic, to the Imperial and Life Size. After many experiments he has succeeded in placing his sky-light at an improved angle, diffusing the light in equal proportions, and producing that soft gradation of tone which cannot be given by the side and sky-lights generally used, and which is of much importance to the beauty of a pleture. It is made of French glass, and is the largest in Philadelphia.

Mr. Cooper has been engaged more than twenty years in the study and practice of the Fine Arts. His long experience as a Miniature and Portrait Painter is a sufficient guarantee for the perfection of the pictures made at his establishment.

The art of idealizing is well understood; none but the

most skilful artists are employed in the respective departments.

All Pictures Warranted:—the Ivorytypes will not change in any climate, and will stand the test of acids. Particular attention is paid to giving graceful and easy positions. Daguerreotypes and all other kinds of pictures copied, from small medallion to life size, and finished in colors of Indian ink, to look equal to pictures taken from life.

This Gallery possessee rare facilities for taking Equestrian Pictures from life, in the rear building, where from one to fifty horses can be photographed at a time.

PROSPECTUS POR 1864 Independent Democratic Daily, Semi-Weekly and
Weekly Newspaper.

An Independent Democratic Delity, Semi-Weekly and Weekly Newspaper.

UNION OF THE WORLD AND AEGUS.

The World, to which the New York Weekly Argus has been united, has to day five times the aggregate circulation of any Democratic or conservative newspaper. It saddresses weekly more than 100,000 subscribers and constant: purchasers, and reaches at least EALF A MILLOR reader. With the steady increase in circulation which it now enjoys, these numbers will be doubled by the 1st of January, 1834. Nothing less than this should satify those who believe that the only hope of restoring the Union and the authority of the Constitution over a now distracted and divided country, lies in wresting power from the hands of those whose functions has halped to provoke, invite, and prolong the war; and that to accomplish titls end, no means is so effective as the diffusion, through able and enterprising newspapers, of sound political knowledge among the working men, the thinking men, and the voting men of the North.

Enterprise, industry and money will be liberally accomplished to make The World THE BERT NEWBYAPER IN AMERICA. Its news from every part of the world will be early and anthentic. Wherever the telegraph extends, or railroads run, or steamboats ply, if will gather the latest intelligence. It has a large staff of accomplished correspondents with all the federal armies, who will telegraph and write to us the latest news from the various seats of war. It has correspondents and reporters in every political and commercial centre in America and Europe, whose letters and dispatches will leave nothing worthy of note unknown to its readers.

Special exertions will be used to make its reports of the Crope, of the Cattle, Produce, and Money markets, comprehensive and accurate. Realizing that the bone and sinew of the country are to be found upon its farms and in work shops, Its World will oppose, and Money markets, comprehensive and accurate Realizing that the bone and ministration which prolongs it, have comprise to bring together

Stouth.

It will oppose every infraction of THE LAWS, in high places or in low, by reckless and misguided partisans, or by the administration which has been their example.

It will fearlessly exercise the Freedom of the Press; it will constantly uphold and defend Freedom of Speech, and Freedom of the Ballot.

To the lawless acts of the Administration, its arbitrary and appropriate on the Press.

One would be led to suppose, from the practical demonstration given of the wonderful healing properties of Galvanism in the above diseases, that its efficacy as a Therapeutic would be doubted by no one, and yet we occasionally come across an individual who will not believe, simply because the Medical Faculty, as a general thing, have not taken hold of it, to them we would say that there is hardly a Bratithwaites Retrospect published but what refers to the healing properties of Electricity, and that if the faculty understood more about it they would prefer jit to all other remedies, also, that some of the best, Physicians in the Unites I States have adopted it. Hereafor, however, in order to gratify all, there will be at the Institute an entinent Physician of

TARRANT'S COMPOUND EXTRACT OF OUBRBS AND COPAIBA.

This preparation is particularly recommended to the MEDICAL PROPESSION and the PUBLIQ, as combining, in the most convenient and efficacions form, the well-established virtues and properties of Cubebs and Copalba. For the speedy and effectual relief and cure of all SEXUAL DIRBASES, it may justly be considered one of the greatest and most valuable discoveries in the annais of medicine, frequently effecting a cure in three or four days. In its preparation as an extract or a paste, the usual nauseous taste is avoided, and it is, consequently, never found to interfere with the digestion, while, from its greater oncentration, the dose is much reduced. It may be relied on as the best mode for the administration of these remedies in the large class of diseases of both sexes to which they are applicable.
