PROSPKCTUSFOR1964. THE WORLD An Independent Democratic Daily, Semi-Weekly and Weekly Newspaper.

The war in which the nation is engaged against armed and infatuated rebels and the radical policy of the ad-ministration which prolongs it, have conspired to bring ingether upon one platform all conservative. Union-loving and Constitution loving men, of whatever former name and creed. Many of those who, within the limits of the Constitution, fought the battles of the ballot-box under the leadership of those patriotic statesmen of other and better days, lieury Clay and Daniel Webster, together with the masses whose principles were those of such patriots as Andrew Jackson, and William L. Marcy, Slias Wright and Stephen A. Douglas, now stand shoulder to shoulder upon the same platform and under the same banner. The plat-form is a plain one. It is to REFORE THE LAWS. Whatever makes for this end, the exercise of force or the policy of conclisation. The World will advocate; whatever makes against it, The World will oppose. It will oppose every enemy to THE CONSTITUTION, whether armed in robellion at the South or insidiously planting the seeds of distantion and essential disloyality a the North. It will oppose every violation of THE CONSTITUTION, which is the ouly hops and bond of Onion, and our only authority for exhorting or compaling the allegiance of the South. It will oppose every infraction of

South. It will oppose every infraction of THE LAWS,

DRY GOODS AND OLOTHING. BEAHM & POTTS'

This preparation is particularly recommended to the MEDICAL PROFESSION and the PUBLIC, as combining, In the most convenient and efficacious form, the well-established virtues and properties of Oubebs and Copains. For the speedy and diffectual relia and ours of all BEX UAL DISEASES, it may justly be considered one of the greatest and most valuable discoveries in the annale of medicine, frequently effecting a cure in these or four days. In its preparation as an extract or a paste, the usual nauseous taste is avoided, and it is, consequently, never found to interfere with the discistion, while, from its greater on-centration, the dose is much reduced. It may be relied on as the best mode for the administration of these ramedies in the large class of diseases of both series to which they are applicable. N.
